- The following information/disclosures has been collated through interviews, research and discussions with a few prominent persons; some related to the secret service part of world finance; some senior citizens who for the last 50 years have lived very simple lives in hiding while controlling key accounts and gold certificates upon which the world of modern banking has originated.
- This presentation is based on the aforementioned persons' version of history that highlights the ongoing battle between what is perceived as good versus evil. It hopes to present a crystal clear picture of the machinations of royalty, religious heads and political entities and how they have directed and controlled the flow of wealth across the world to the detriment of the common people at large. Their initial intentions were Noble but the current outcome much less so.
- It is a simplified story of "Gold" versus "Bankers" but as we all know it is usually never quite that simple. Battles and it's players are much more complicated and most of it in a Gray area somewhere between what is right & what is wrong. Regardless, we deem it important information for anybody who wishes to know where the world is heading financially and how we actually got to where we are today where the people who owns/control the banks now "OWNS" the world.
- The revelations contained herein may to some appear as fantasy or mere conjecture. However, it must be stated that all data has been gleaned from very reliable sources with an inside view of the secret world of banking and supported/verified by Important historical/present day documents and ancient artifacts. We hope to be able to publish some of them in a public domain at a later stage.

The History of Banking

+ where did King Solomon's treasure go?

An Asian Perspective

History of world Banking

It starts with King Solomon in Jerusalem around 930 B.C. A very successful King who amasses huge wealth. Especially Gold.

He has some 600 wives & concubines and thousands of kids.

Considering that, he knows his country will fall apart after his death and selects one of his most trusted wives, Queen Shaba or Balquish, to protect the assets, bloodline and traditions.

Solomon
930 BC

History of world Banking

Sometime after,

she leaves with everything back to where she probably came from.

Jawa.

There she established the courts of what later became known as Solo, Jawa.

There safeguarding the gold assets, King Solomon's bloodline and the religious traditions of his court.

History of world Banking

The Gold pile grows. There are huge flows of Gold into Indonesia from China during the 1300 A.D. China almost goes broke buying spices and wood.

From Europe in the 1400 – 1600 A.D. most of the Gold taken from South America ends up in Indonesia as payment for spices which are the most sought after goods in the world at the time.

The Royal Solo family ties are expanded to include Chinese Royals

History of world Banking

1000 A.D.

A few “knights” spend 9 years in Jerusalem exploring the ruins of King Solomon's Temple.

They discover something that makes them very powerful once back in Europe.

They get special privileges from the Pope and The Templar Knights Order is established with direct access to the Pope.

History of world Banking

They quickly become the European protector of wealth and the pilgrims to Jerusalem.

That leads to the establishment of the first working Banking system throughout Europe.

People of means can deposit their wealth with the Templar Knights and then draw from it once they are in the "Holy Land".

1064 A.D. They first establish a connection with the old Solomon bloodline in Jawa.

History of world Banking

Oct Friday 13th 1307.

The Templars are now a very rich, powerful and independent from Church and State European wide organization.

The French King together with the Pope has conspired to confiscate their assets and destroy their power. All over Europe on Friday the 13th of October 1307 Templars are hunted down, jailed and killed. Their assets and land holdings are confiscated.

History of world Banking

Oct Friday 13th 1307.

The Templars flee and hide in three main directions.

One group goes up into the mountains of central Europe in what eventually becomes Switzerland.

One group flee North and established a safe haven in Northern Scotland (and Scandinavia) while the third group flee West into Portugal from where they travel to America eventually.

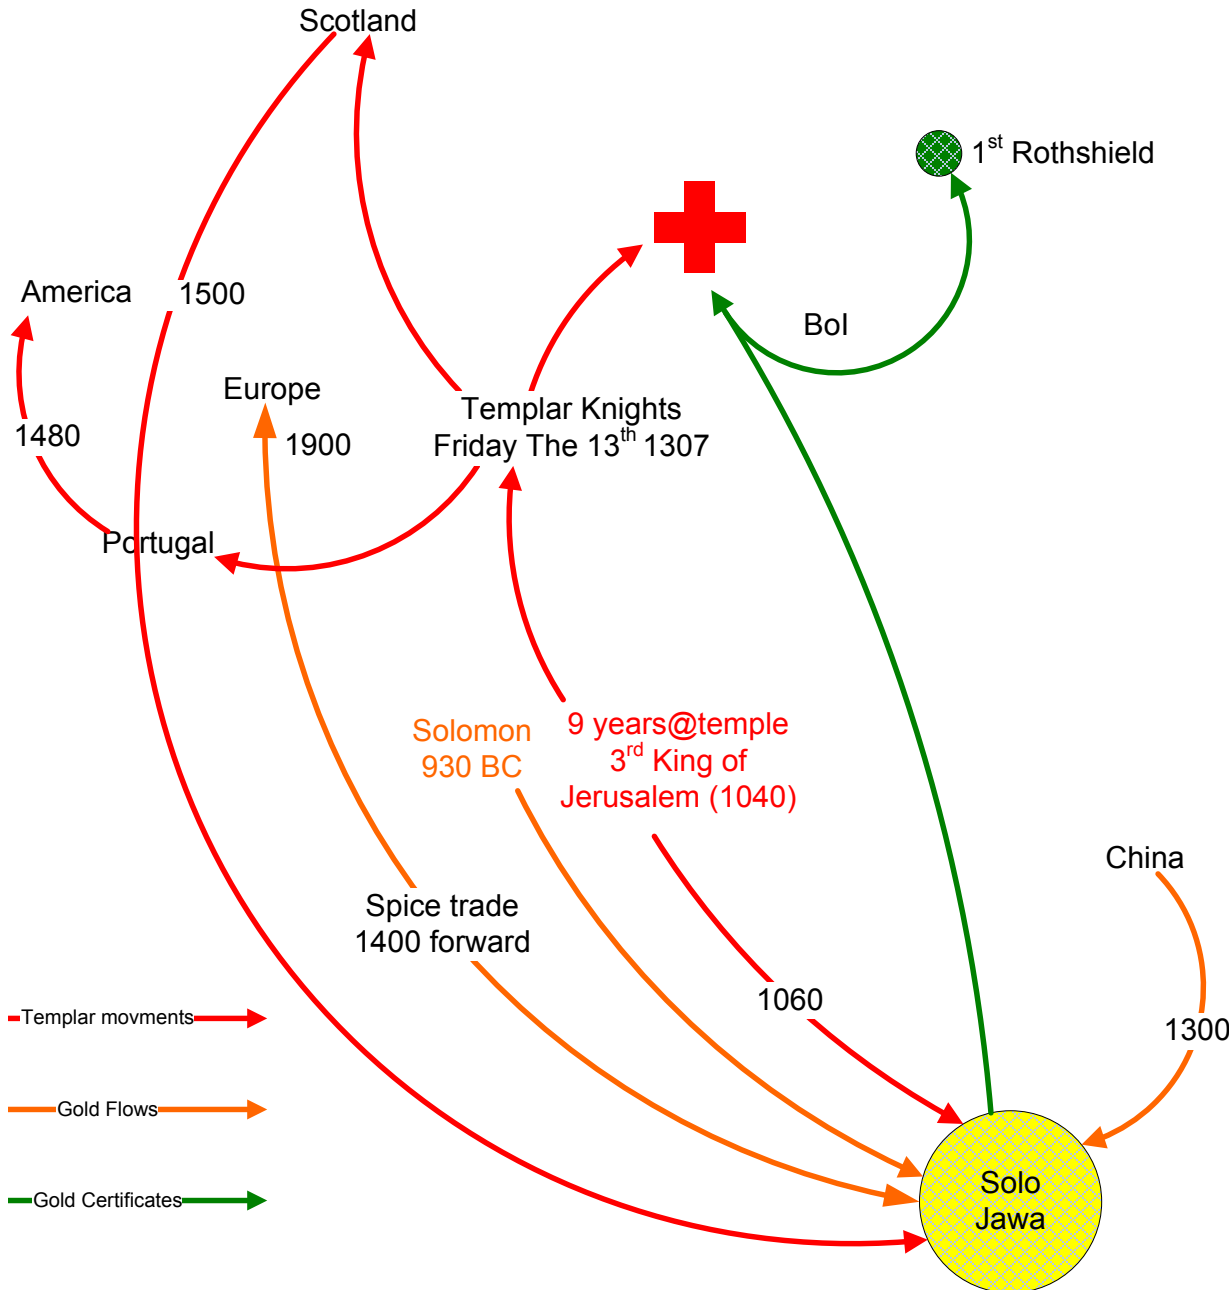

History of world Banking

1400-1500 A.D. The Scottish Templar group leaves and travels all the way to Indonesia where they set up a base at Madura. They unite with the Solomon Bloodline in Jawa.

1600-1700 A.D. The Templars in Jawa together with their brothers in the Alps start issuing Paper Certificates Backed by Gold. A piece of paper that represents a certain amount of gold and can be easily moved and lent out. Interest is 2-3% year payable in Gold

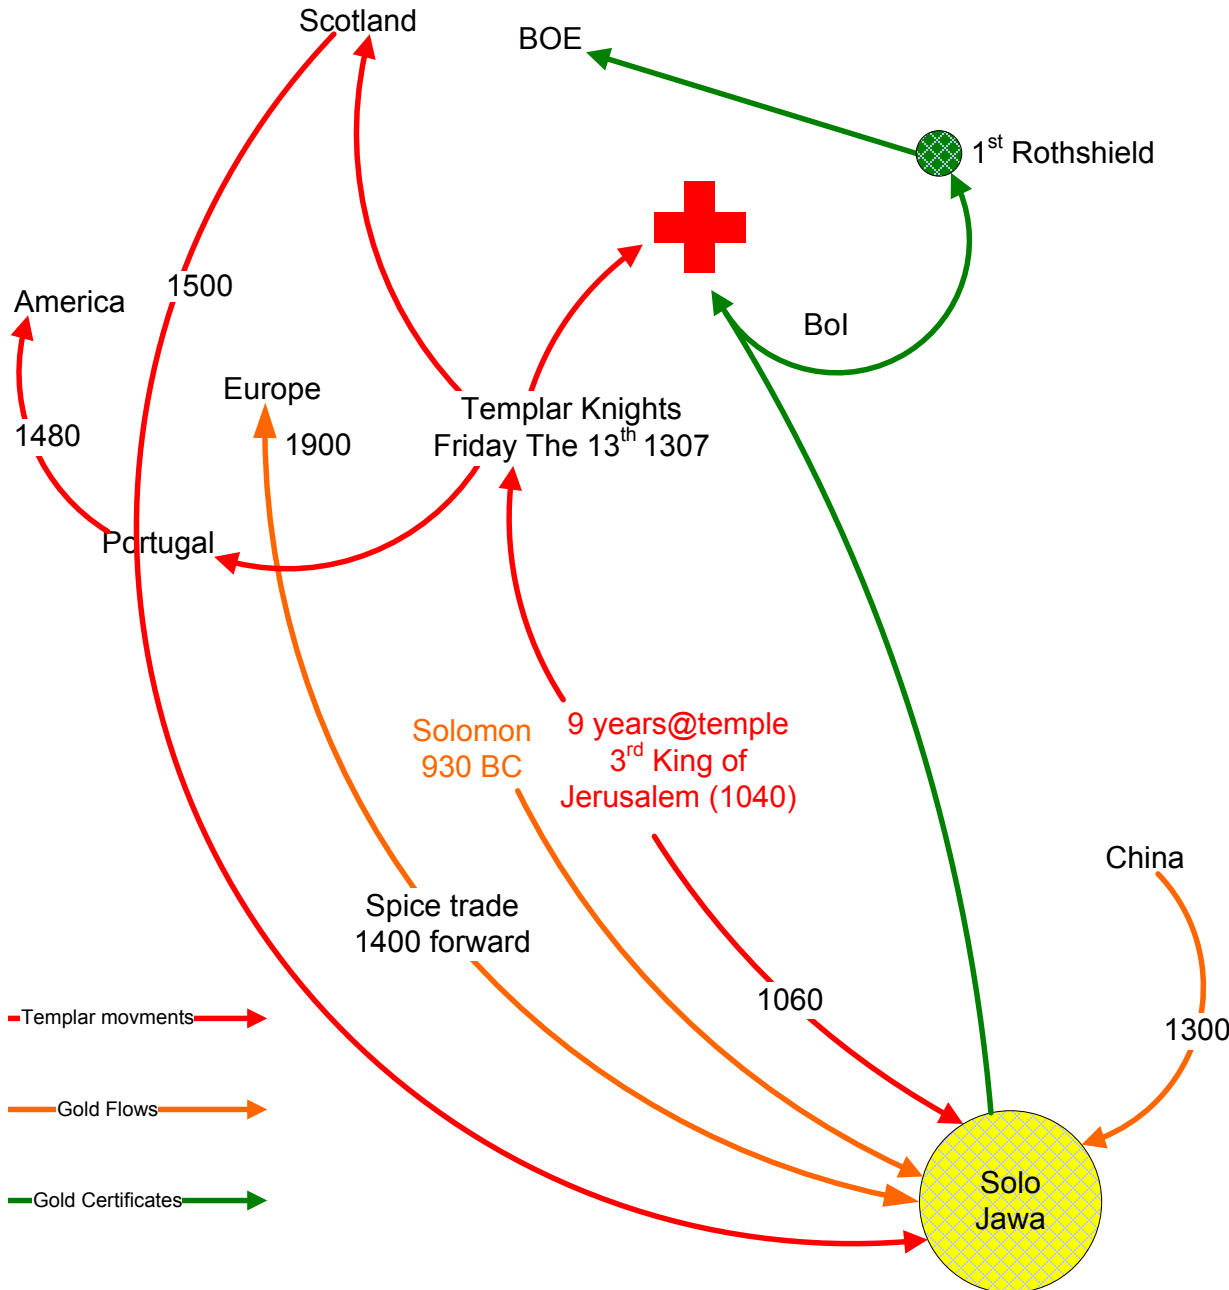

History of world Banking

1700-1800 A.D.
 One German Banker, backing a local prince quickly catches on to this and sees the HUGE potential. They eventually change their name to Rothschild.

He has five sons who are sent out across Europe to establish Banks, one in each chosen country, They establish in England, France, Italy, Germany and Austria. Where they become the “Kings” bank. Or as we call them now Central Bank.

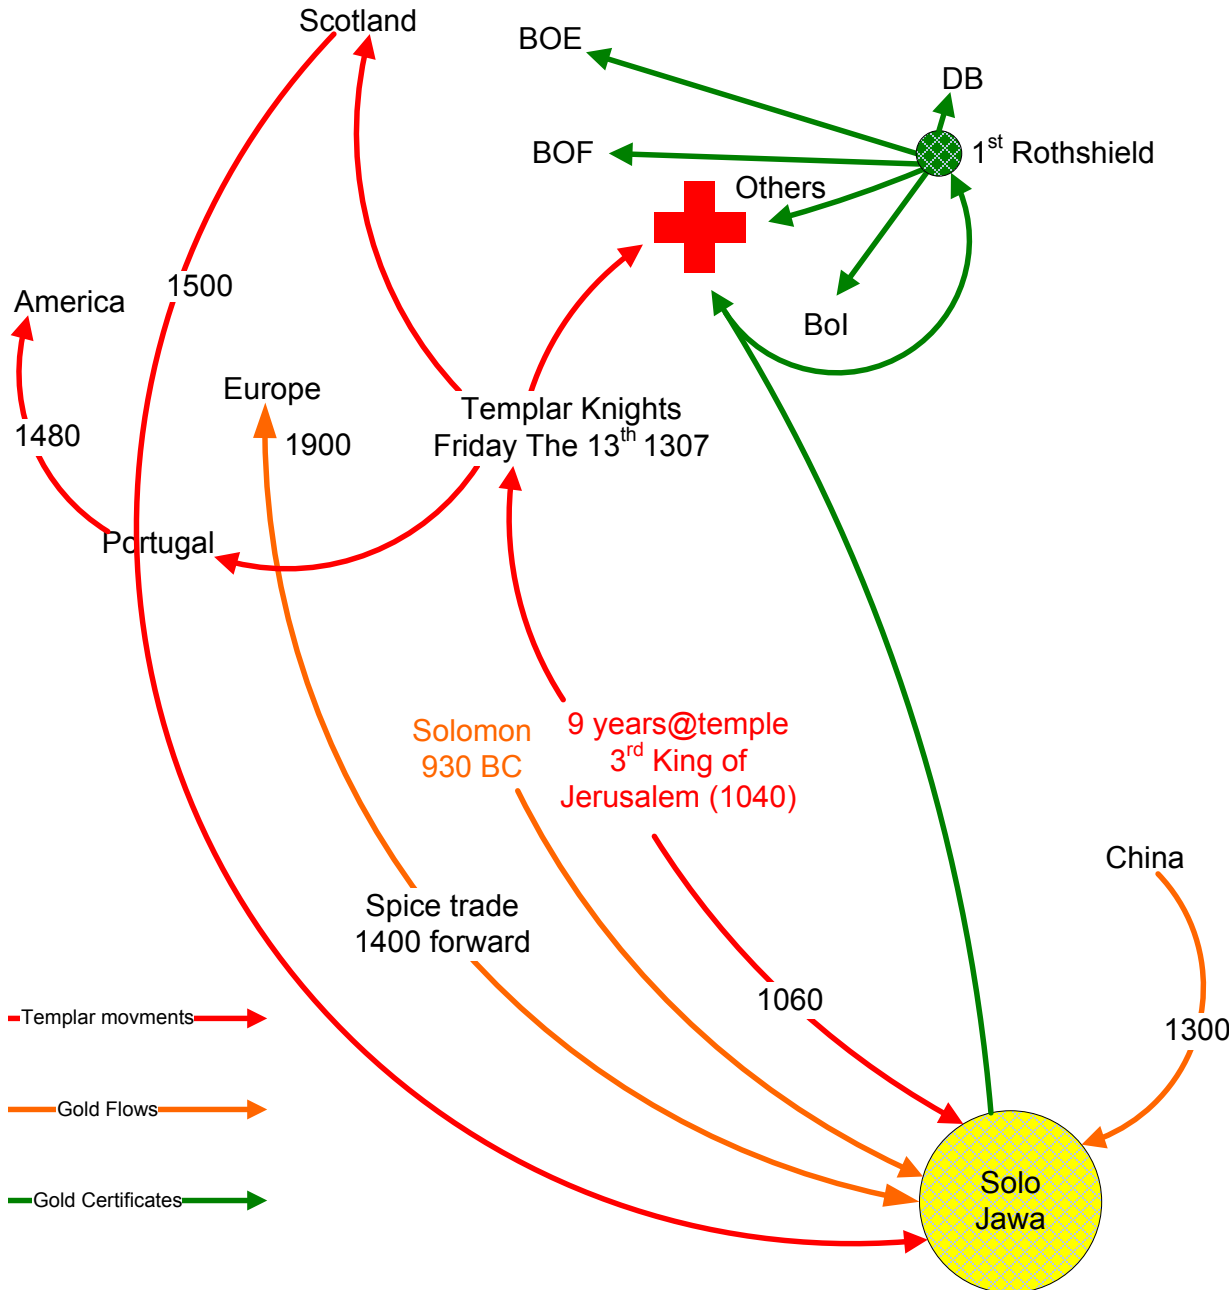

History of world Banking

First to be established was the Bank Of England. Instead of lending the English King gold bullions to use for paying for war efforts they get the right, and only them, to issue papers representing that Gold. (Paper Money)

The Kings loan will run at 8% interest for eternity. Paid in Gold. No need to pay the principal. Since Rothschild in his turn borrows Gold certificates at an interest of 2-4% per year he is on to a very good business.

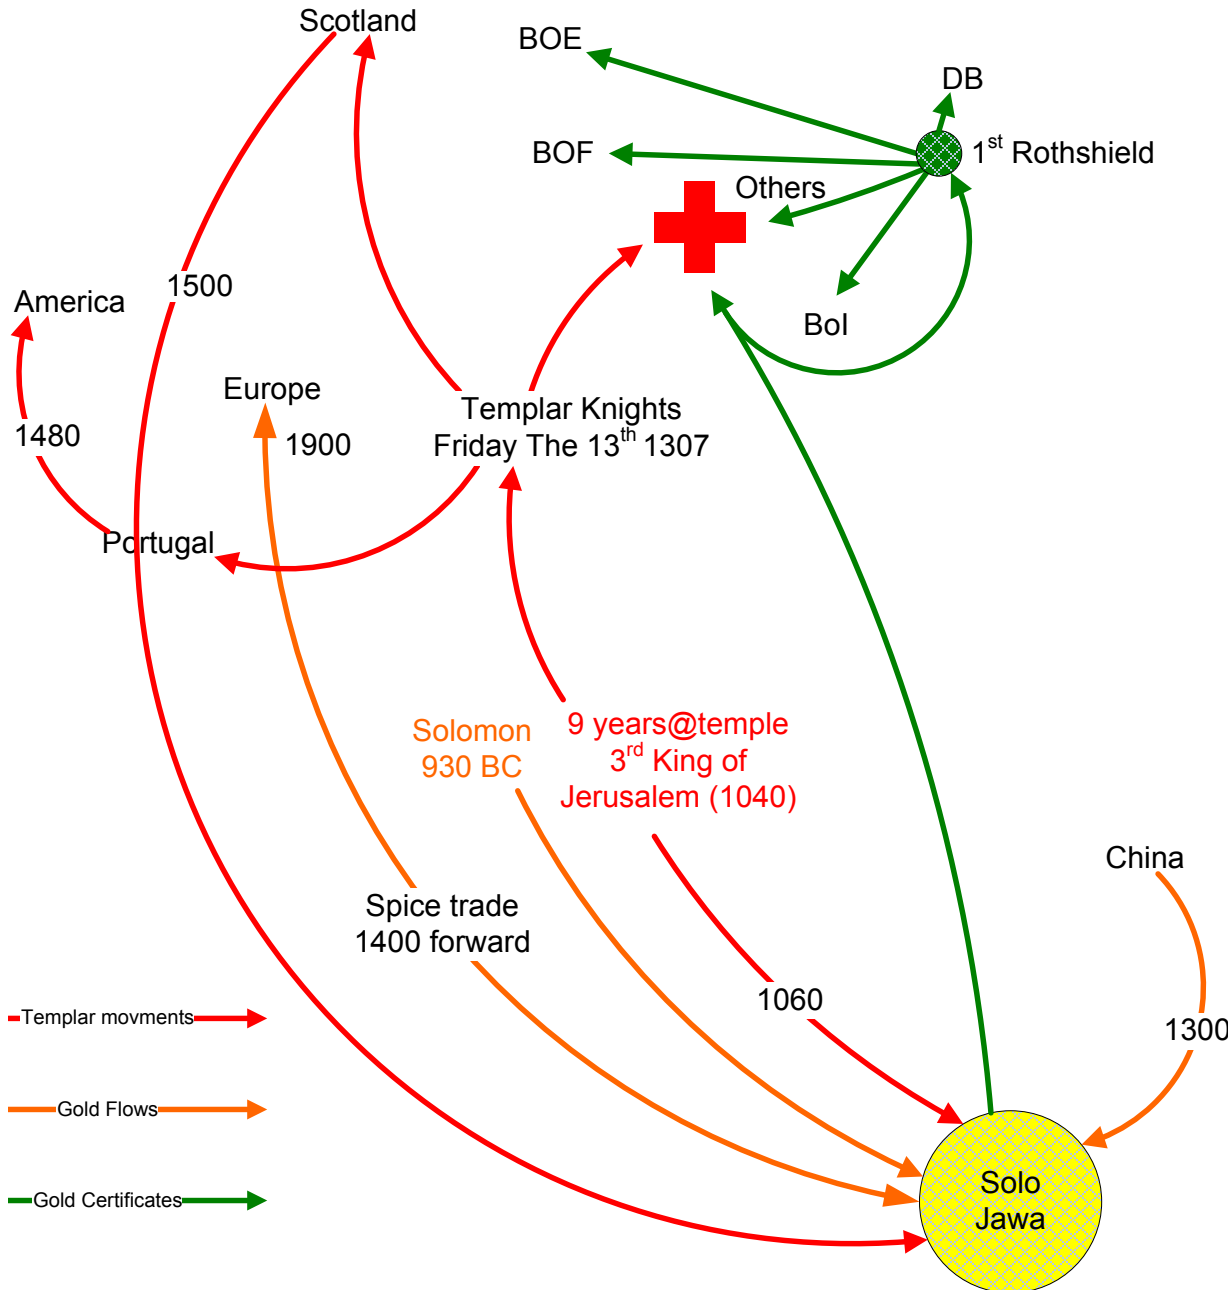

History of world banking

The only limit to their Banking profits is the need of the King or Kings to borrow money. With a spread of 4-6% / year it has HUGE potential. Now, with his sons firmly established in all the important corners of Europe the best way to make money is to make sure the kings go to war against each others and finance all of them. They Win either way all the time*

*Wars always generate huge profits and debts. Both of which are of interest to the bankers. See how the USA debt as grown form 0 in early 1900 when they installed the FED to what it is now. Each big leap in debt except the 1930 depression is caused by a war. WWII, Korea, Vietnam etc. It is a proven tactic that started with Napoleon.

History of world Banking

Napoleon

What better person to support for the purpose of profits & debt than Napoleon? A small guy with huge ego and world wide ambitions. The Napoleonic wars is what really got the Rothschilds started. For e.g. The Battle Of Waterloo.

Thanks to their superior network they knew before anybody else who won and that alone, put them in place to clean up on ALL the financial markets of their day. The players knew to watch what Rothschild was doing which they used to their full advantage. First sell to get the avalanche going and when the flock is in full panic mode, selling at any price they quietly stated buying it all at rock bottom prices. That is how they played the London financial market on the day of the battle of Waterloo. They absolutely cleaned up

On top of that there is also what all the various Kings involved had to pay in interest on their loans. From then on the rest is history on how they managed to put themselves as key players in the distribution of funds first throughout the Western world, later followed by the rest of the world

They don't necessary own the funds/assets but they 100% control the main Banks and its distribution chain that distributes these assets.

History of world Banking

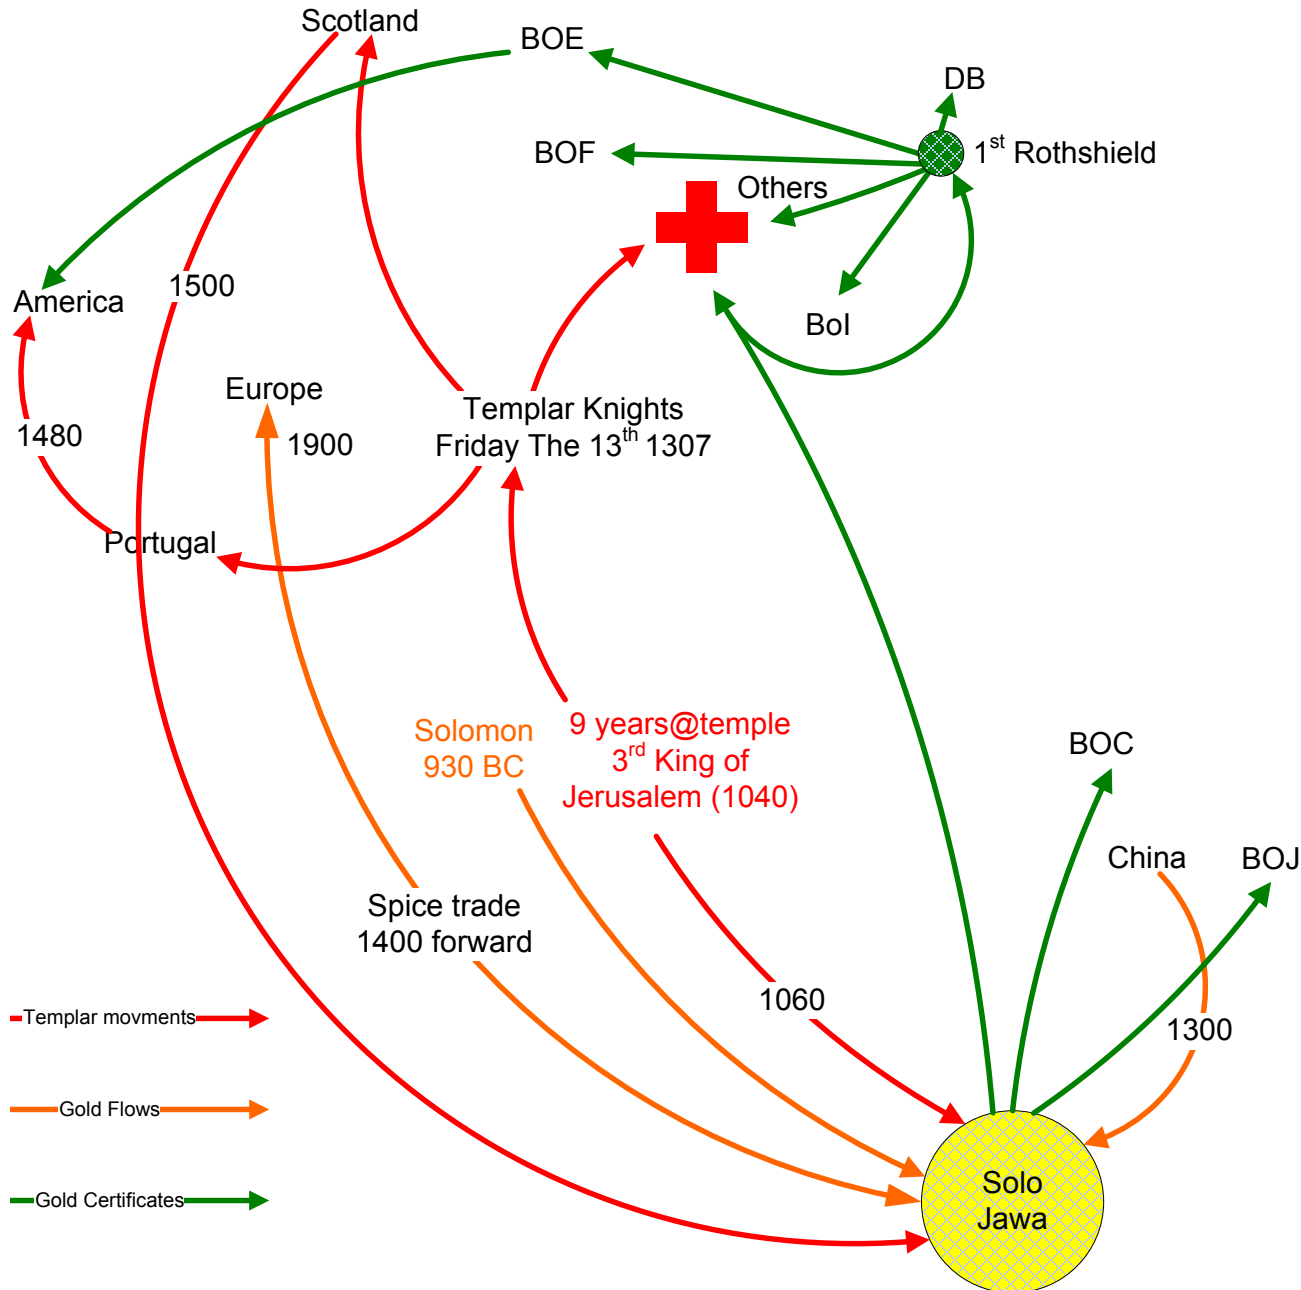

Bank of China and Bank of Japan also eventually gets established by Asian counterparts.

In an agreement signed in 1857 all Asian territories agree to have BoE oversee and control all macro Banking aspects in their territories. And that agreement still stands.

Today, 5 out of 7 central banks in the G7 group are controlled by Rothschild interests.

History of world Banking

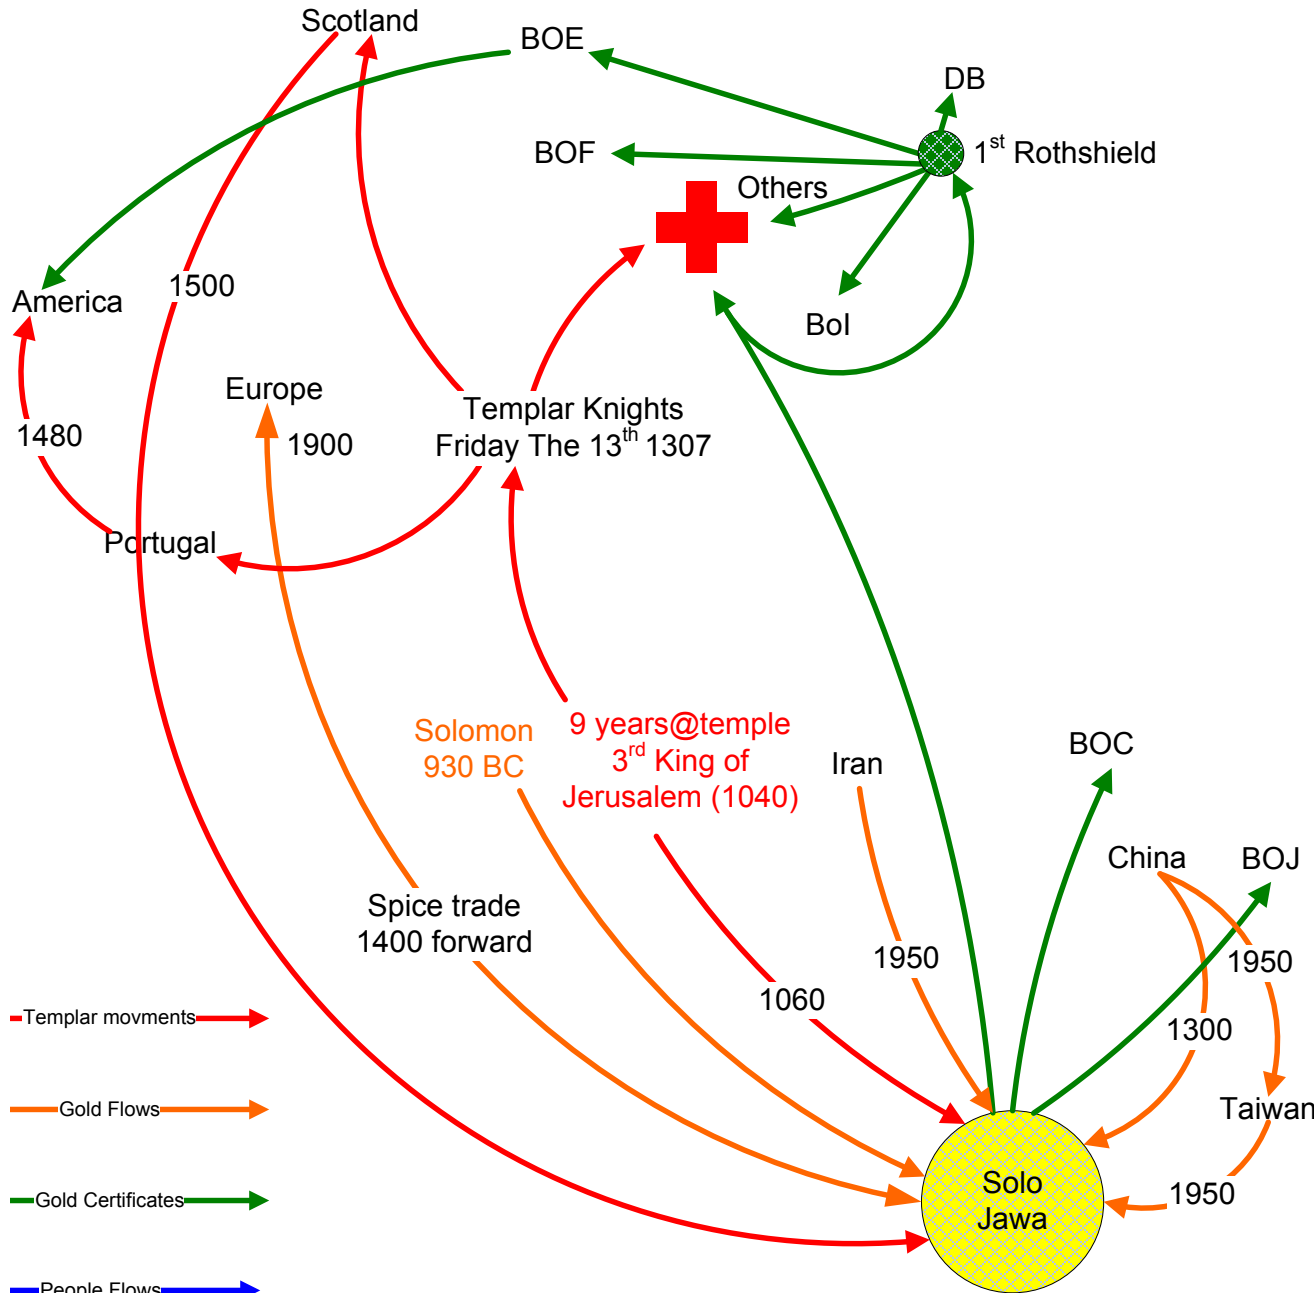

FED.

The last “Central Bank” to be established was the FED. The Americans resisted the central bank idea for the longest time and it took a banking crisis together with some very long term political games to finally get them to accept the idea under the name of “Federal Reserve Act” in 1913

It has rightfully been called “the crime of the century”

[More on FED](#)

History of world Banking

The Gold that ultimately backed ALL Banks can be traced to a few major sources.

The Chinese Royal family, tracing it's roots back to Genghis Khan, who conquered the world having his subjects pay tribute in Gold.

The Indonesians and their spices + Solomon's legacy.

The Persians and other remnants of ancient Empires.

The Colonial powers of England, Spain & Portugal collected lots but also spent on spices & exotic imports.

History of world Banking

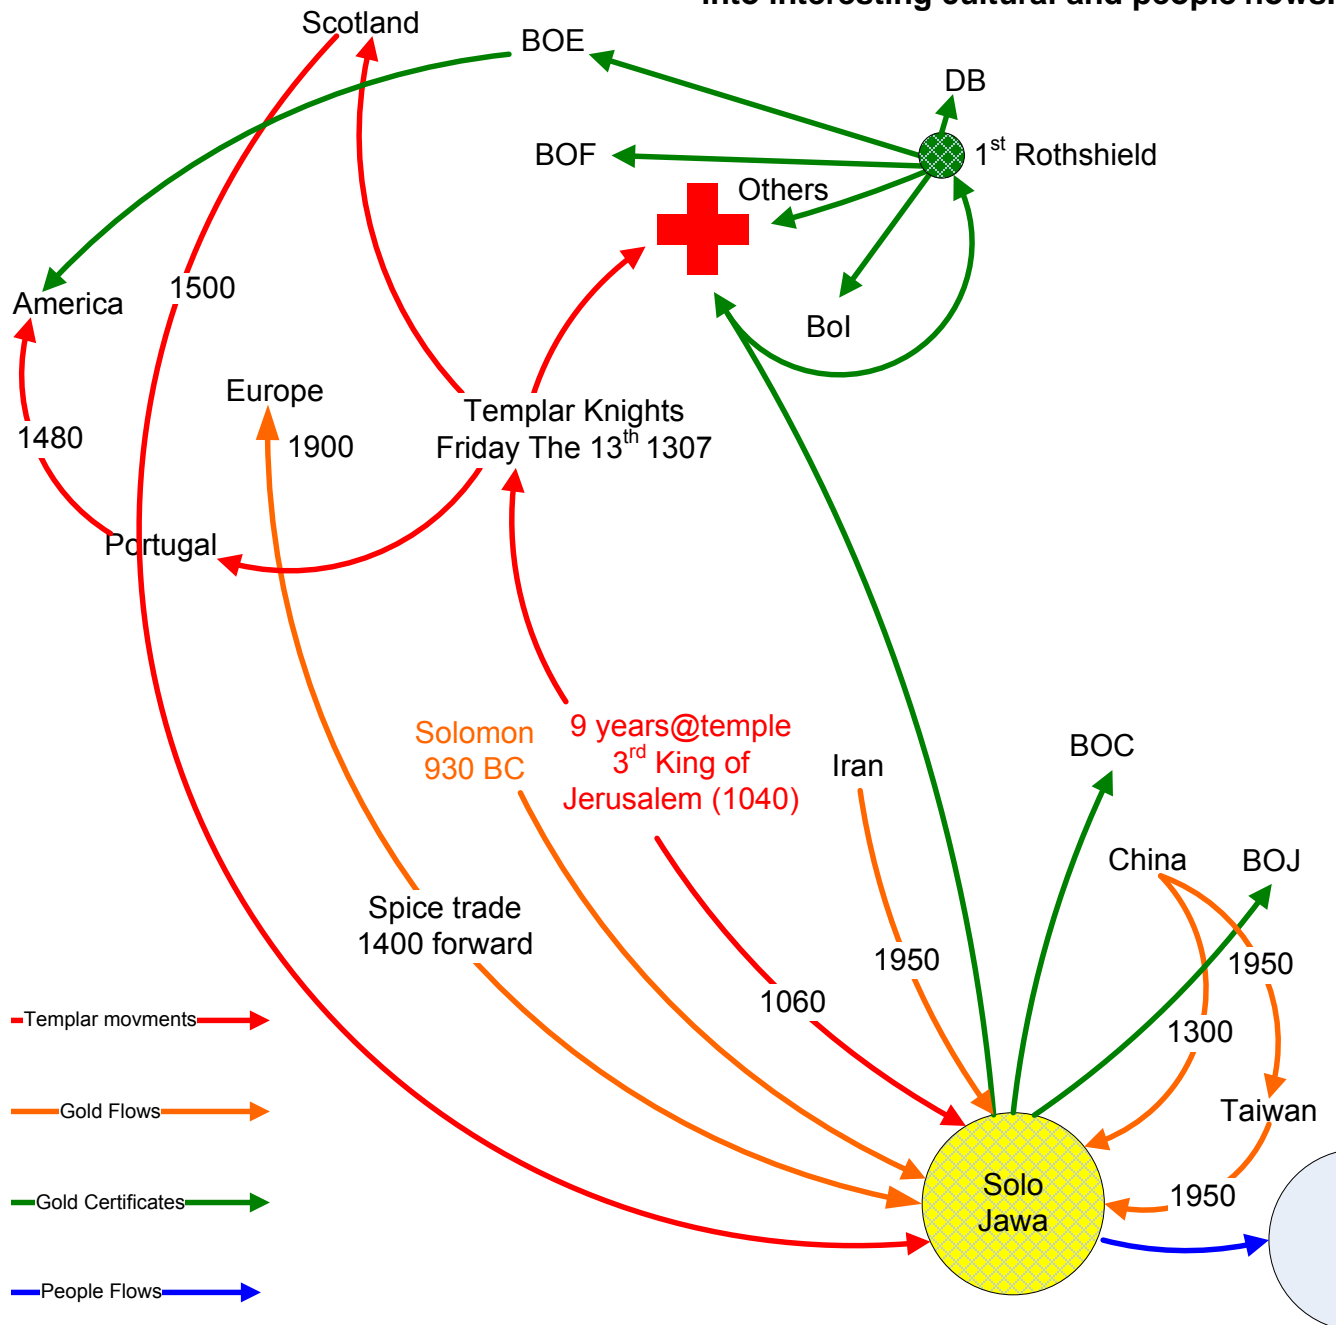

The Chinese always had very close ties with their Indonesian relatives. When mainland China goes through its upheavals mid 1900 their assets are moved first to Taiwan, later to Indonesia.

The same goes for The Shah of Iran. His main assets are also held and safeguarded here after 1950's

Solo also had been the central point of a great expansive Asian Kingdom (Majapahit) in the 1300's A.D. After pressures from Islam they retreat East.

We are going to take a little detour in our banking story here to give you some insight into interesting cultural and people flows.

900-1000 A.D High Priests in Jawa gets direction from Divine inspiration that they have to travel to Bali (Little Jawa) and establish a successful Colony. First attempt fails. Some 100 years later they receive a second direct command from The Divine to do the same. Direction is given for three nails, (Gold, Silver & Bronze) to be nailed down and a Temple established. Now they succeed. By 1500 A.D. the whole Royal court of Solo have moved here to safeguard the traditions and culture from the pressures of Islam.

Jawa to Bali flow & beyond

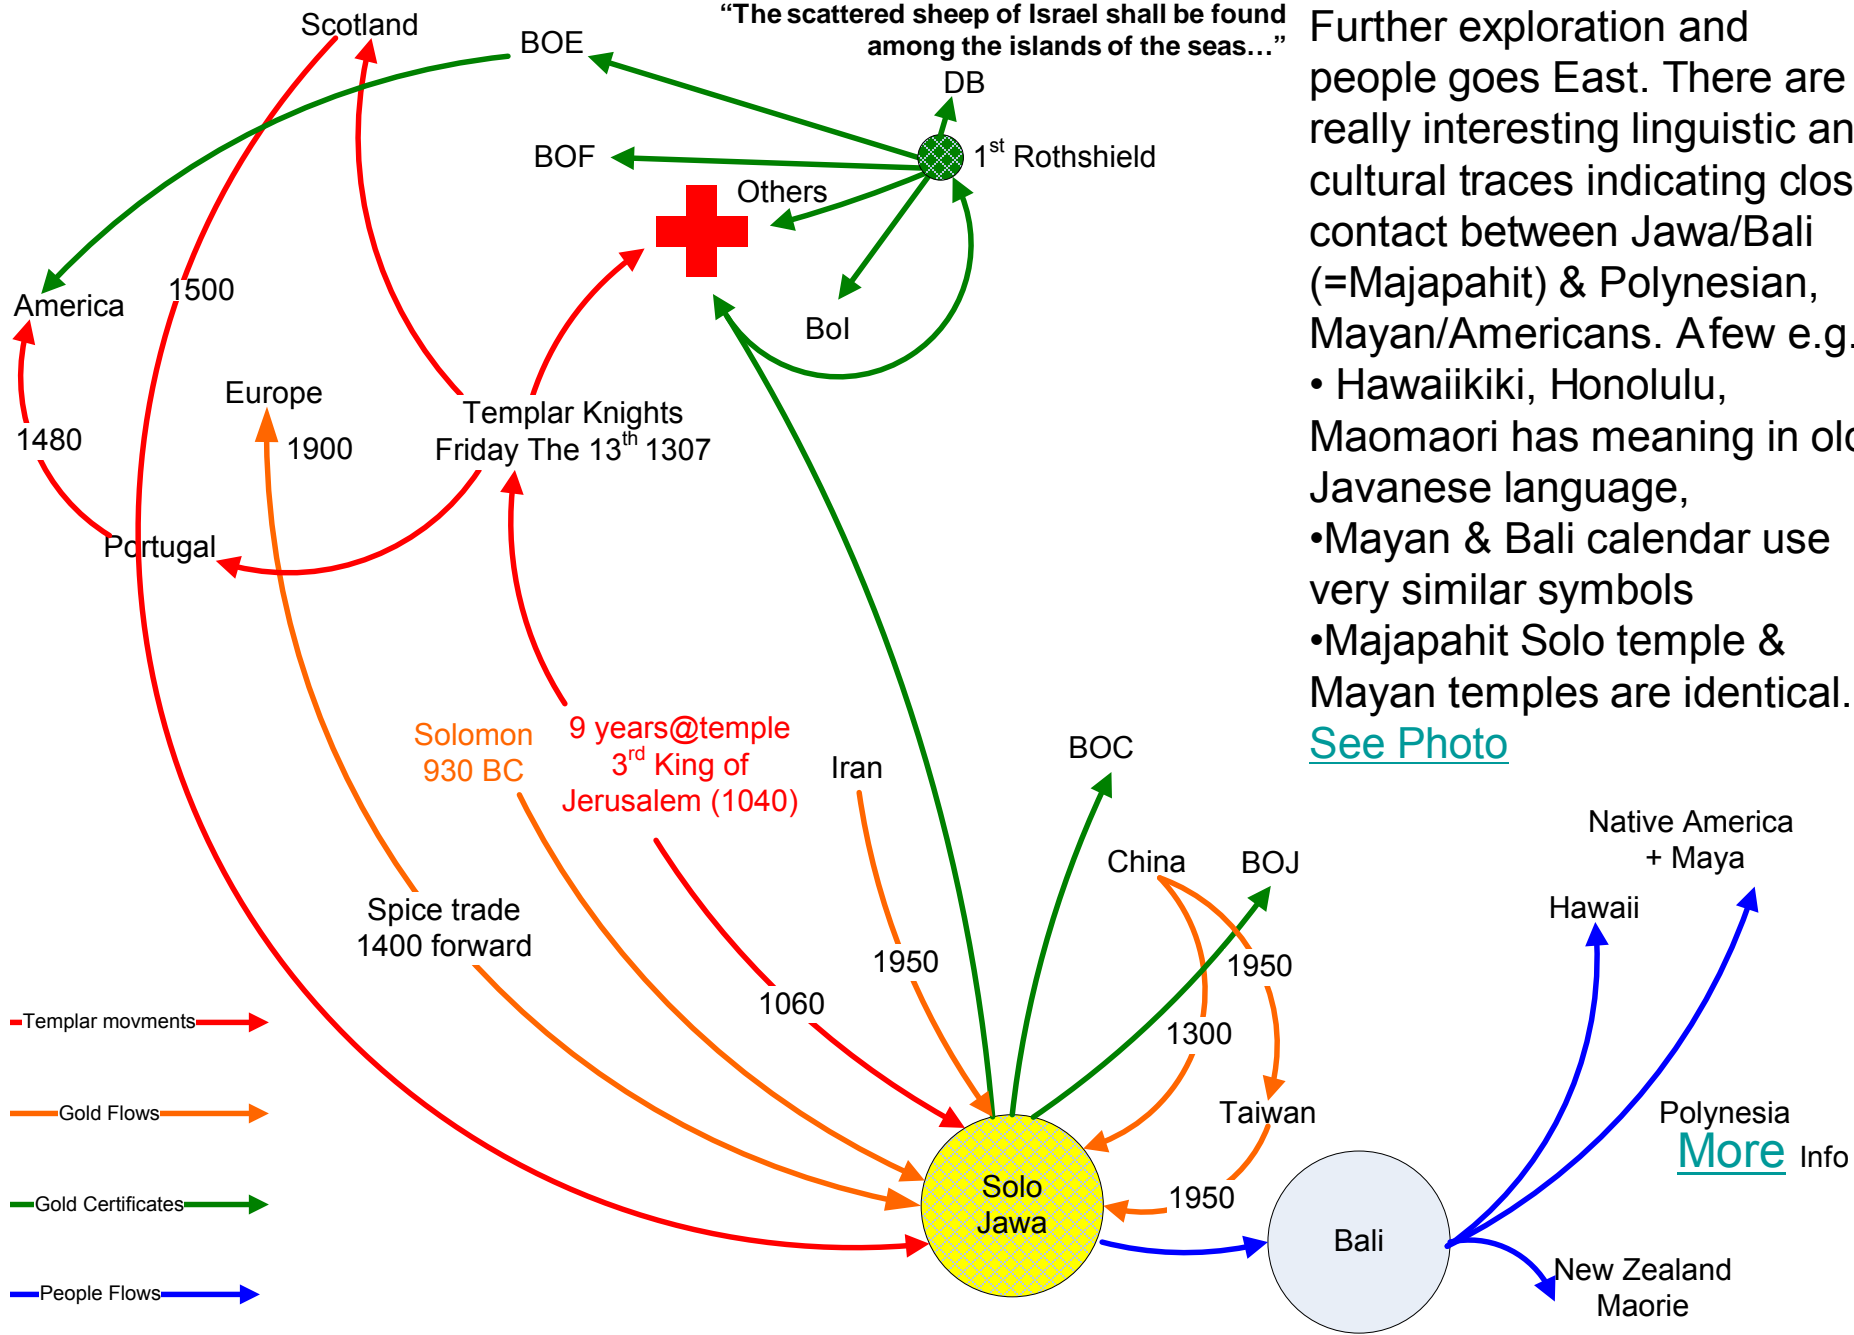

"The scattered sheep of Israel shall be found among the islands of the seas..."

900 – 1600 A.D.

Further exploration and people goes East. There are really interesting linguistic and cultural traces indicating close contact between Jawa/Bali (=Majapahit) & Polynesian, Mayan/Americans. A few e.g.

- Hawaiiiki, Honolulu, Maomaori has meaning in old Javanese language,
- Mayan & Bali calendar use very similar symbols
- Majapahit Solo temple & Mayan temples are identical.

“Illuminati” breeding program

Back to the banking story

Legends of a Shadow Power behind the scenes called the “Illuminati” has long flourished in the West. This may be how it started.

1200-1300 A.D. Queen Roro Kidul, a beautiful illuminated being (she literally shines up a room and never grows old) marries the King of Solo. She promises to always protect the Kingdom and return when needed. Her descendants takes the name of Chakra Ningrat. **“the Illuminated”**

“Illuminati” breeding program

1300 – 1700 A.D.
Royals marry Royals and none other. The Jawa bloodline was important and Chinese, European and Middle Eastern Royals all intermarry.
In 1700 all major wars are basically in between close or distant Royal family members. They are all related one way or other. They fight over land and wealth. With advancing technology wars gets more and more destructive and in an “enlightened” moment some agree to try and systematically do something about it.

“Illuminati” breeding program

The many wars in Europe was a very good reason to stop family inter fighting and around 1750, 128 of the worlds most important Royals agree to a “Breeding” plan.

They married or had kids following a system, having their respective first son/daughter marry or mate according to the same plan.

“Illuminati” breeding program

Objective;

Create the “King of Kings”, “the enlightened one”

A person who would equally represent each and every one of the participating 128 Royal families of the world.

“Illuminati” breeding program

Over the course of 7 generations they slowly bring down the numbers of participating families from 128-64-32-16-8-4-1.

Finally in the year 1900 A.D. “The One” is born.

“Illuminati” breeding program

Now,
they have ONE
person who can
honestly say

“I represent ALL of
YOU.”

Lets call him M1.
Short for Monetary1.

128 Royal Families
starts a
“breeding program”

The recall of the 1920's

With M1 in existence it is time to move on to the next step in the plan.

In 1920-21 they start to consolidate (call back) their combined wealth with the intension of placing it into the hands of M1.

M1 is then to redistribute the combined wealth of the world according to an agreed upon plan.

Economic Basis for 140+ Nations + 100+ Banks

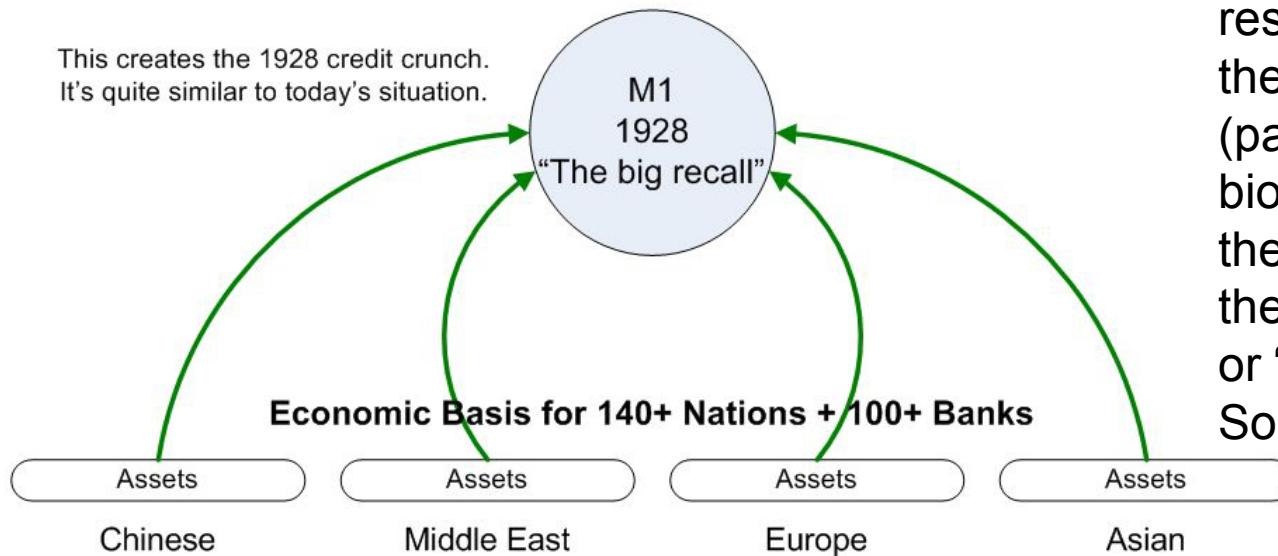

128 Royal Families hands over a Power of Attorney for all their assets into the hands of M1. He is supposed to use them according to the plan of the Experts of 1928.

The recall of the 1920's

9 of the most prominent Royal families representing different regions of the world were driving this project. Together with the Chinese Royal "KS", one of the most active and respected among them were PB X (paku Bueno X). M1's biological father and the King of Solo from the "Chaka Ningrat" or "The illuminated" Solomon bloodline.

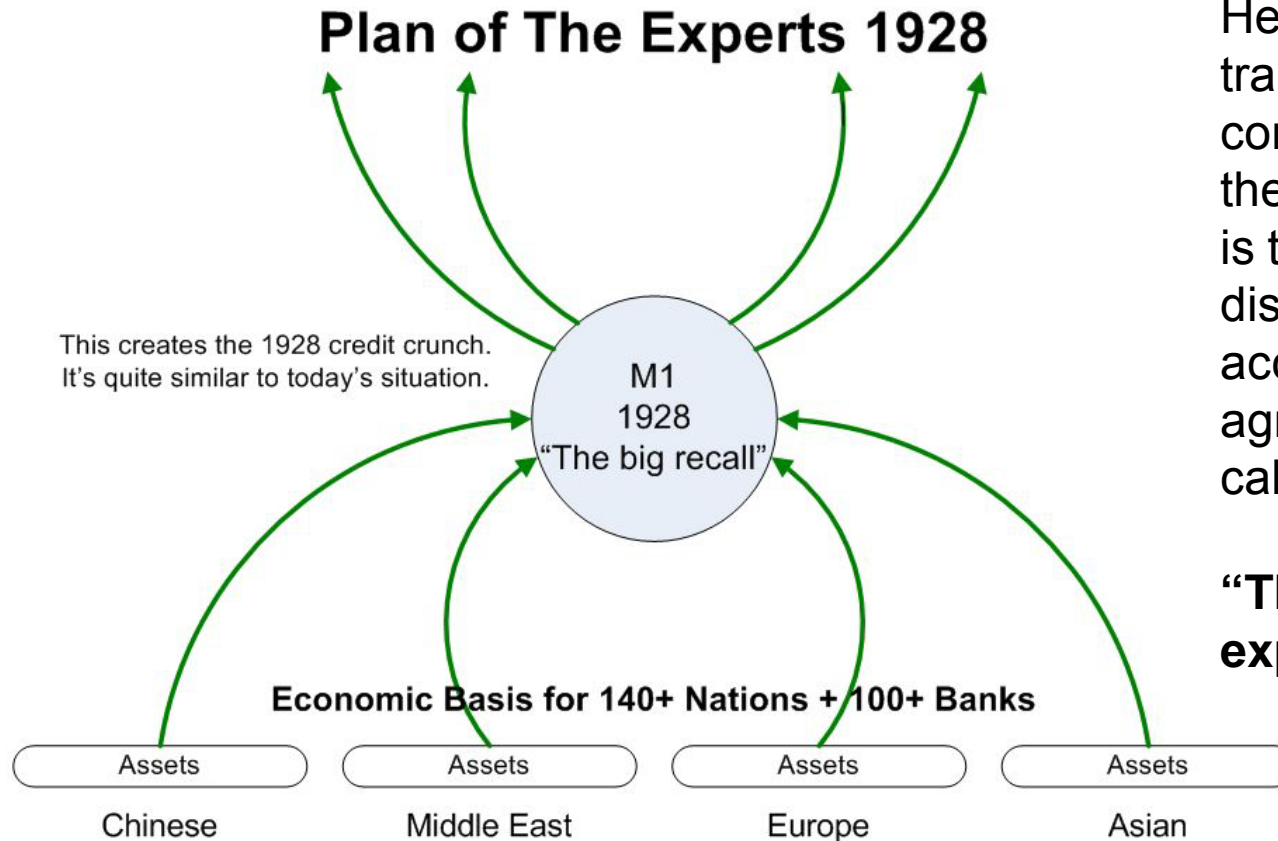

This creates the 1928 credit crunch.
It's quite similar to today's situation.

128 Royal Families hands over a Power of Attorney for all their assets into the hands of M1. He is supposed to use them according to the plan of the Experts of 1928.

The recall of the 1920's

So in 1928 PB X calls a meeting in Solo, Jawa, for all the 128 families to attend. Here they sign a POA transferring all their combined assets into the hands of M1. He is then supposed to distribute this wealth according to an agreed upon plan called

128 Royal Families hands over a Power of Attorney for all their assets into the hands of M1. He is supposed to use them according to the plan of the Experts of 1928.

"The plan of the Experts" they feel is divine. It's driven by a genuine attempt to better the fate of all mankind and bring them all into a material level of comfort after which man is free enough from daily troubles to pursue mankind's ultimate goal of Unity with God for each and every one. It is a long worked upon plan of Unifying the World, "for as good as possible for as many as possible" That was their basic guiding principle.

How it was supposed to work.

According to “The plan of the Experts” of 1928

If you have all the money in the world and you want to make that a better and more equal world, how would you go about it?

It is a serious question..

The people faced with that problem/opportunity planned it along these lines. All with very good intentions.

First collect it into one big pot. Set someone you trust in charge but have checks and balances in place.

Future World
Government Body

Power transfer to UN
when world is ready

How it was supposed to work.

According to "The plan of the Experts" of 1928

One of the primary objectives was to free the nations from Colonialism. These new nations should be governed as **Guided** democracies

So, up on top of the world power pyramid there should be a forum where every nation has a voice and a vote.

When ready, M1 should transfer his power to that world government body. It was called "The United Nations"

How it was supposed to work.

According to "The plan of the Experts" of 1928

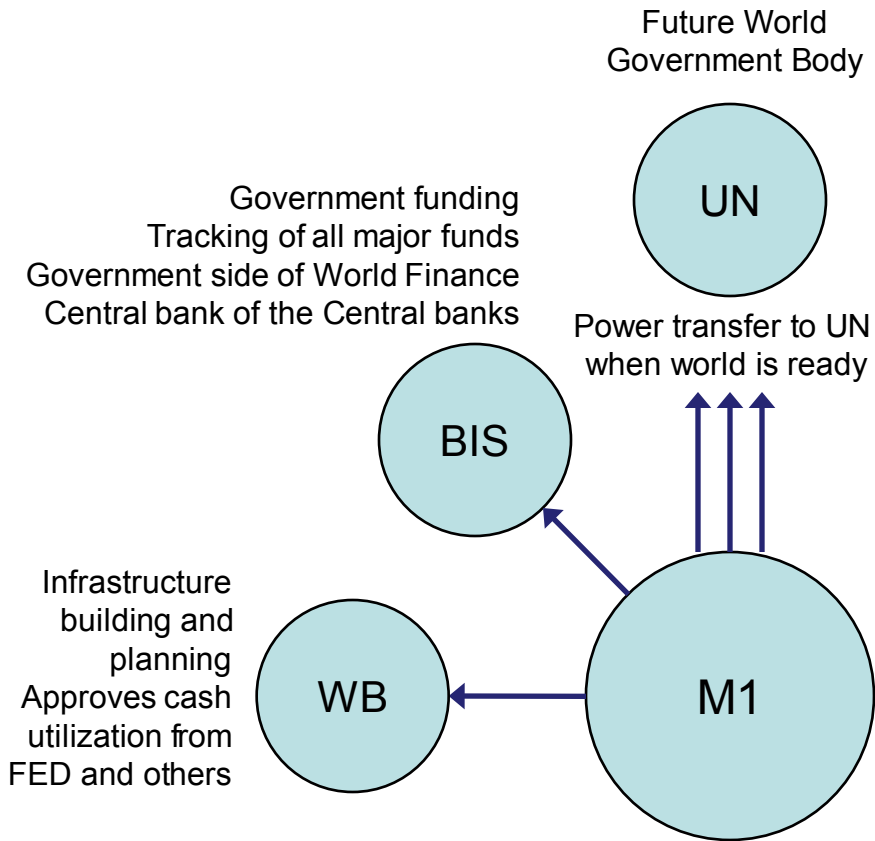

All these new & old independent nations need financing. To supply that and track all mayor fund movements you need a Central bank to all the central banks.

BIS.
Bank of International Settlements in Switzerland was planned to be set up for that purpose

How it was supposed to work.

According to “The plan of the Experts” of 1928

To give everybody access to the best and the brightest regarding infrastructure and financing the World Bank was incorporated.

The WB job is to employ the best in their fields who then plan projects and infrastructure solutions around the world. They will also finance projects that can not meet normal commercial bank requirements.

They also approve cash utilizations from FED and other Banks. Your project needs a WB approval to get financed

How it was supposed to work.

According to “The plan of the Experts” of 1928

To feed the private side of world finance with cash you need an outlet. The FED were to take this role. It was to be the “cash cow” of the world on the private side of banking.

They were to supply all the “prime banks” with funding. The top 25 around the world. Not just American but all others as well.

Here is where it started to go all wrong, The FED became a political tool to push power agendas. It’s owners eventually high jacked the whole system.

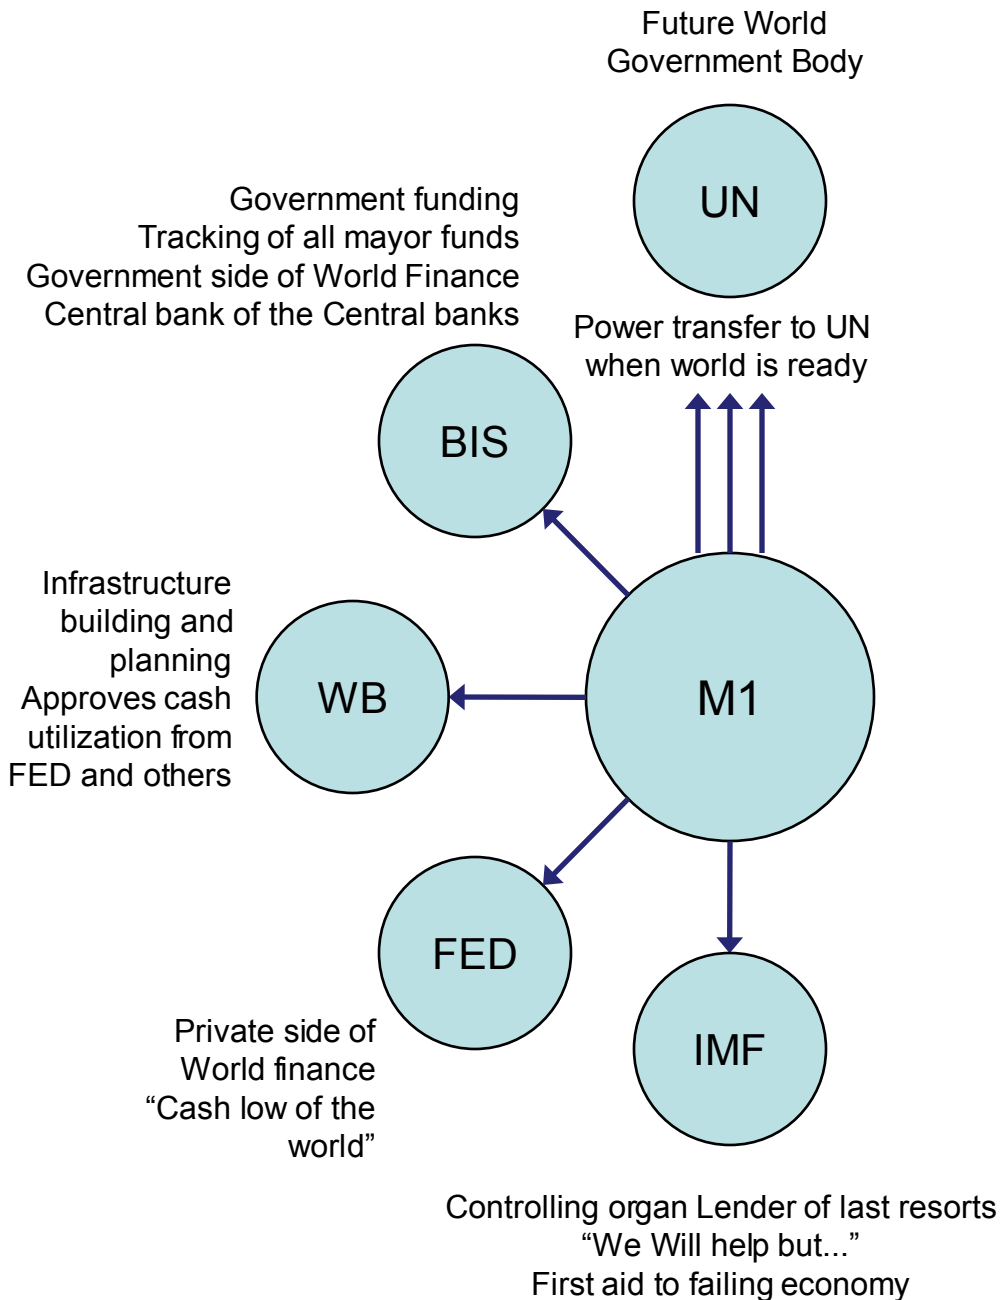

How it was supposed to work.

According to “The plan of the Experts” of 1928

To help failing economies and guide them along the way they needed the IMF.

Their work was to be the lender of last resort. “We will help but...”

Here is were “Guided” democracy comes into play. All the planned new small independent nations would at times run into trouble and the IMF was supposed to be there to help fix things.

How it was supposed to work.

According to "The plan of the Experts" of 1928

Justice.

To solve international legal cases and humanitarian issues across National borders they needed an International court. Of Justice.

The Hague fills that role.

One off it's offspring's is the Geneva Conventions

How it was supposed to work.

According to "The plan of the Experts" of 1928

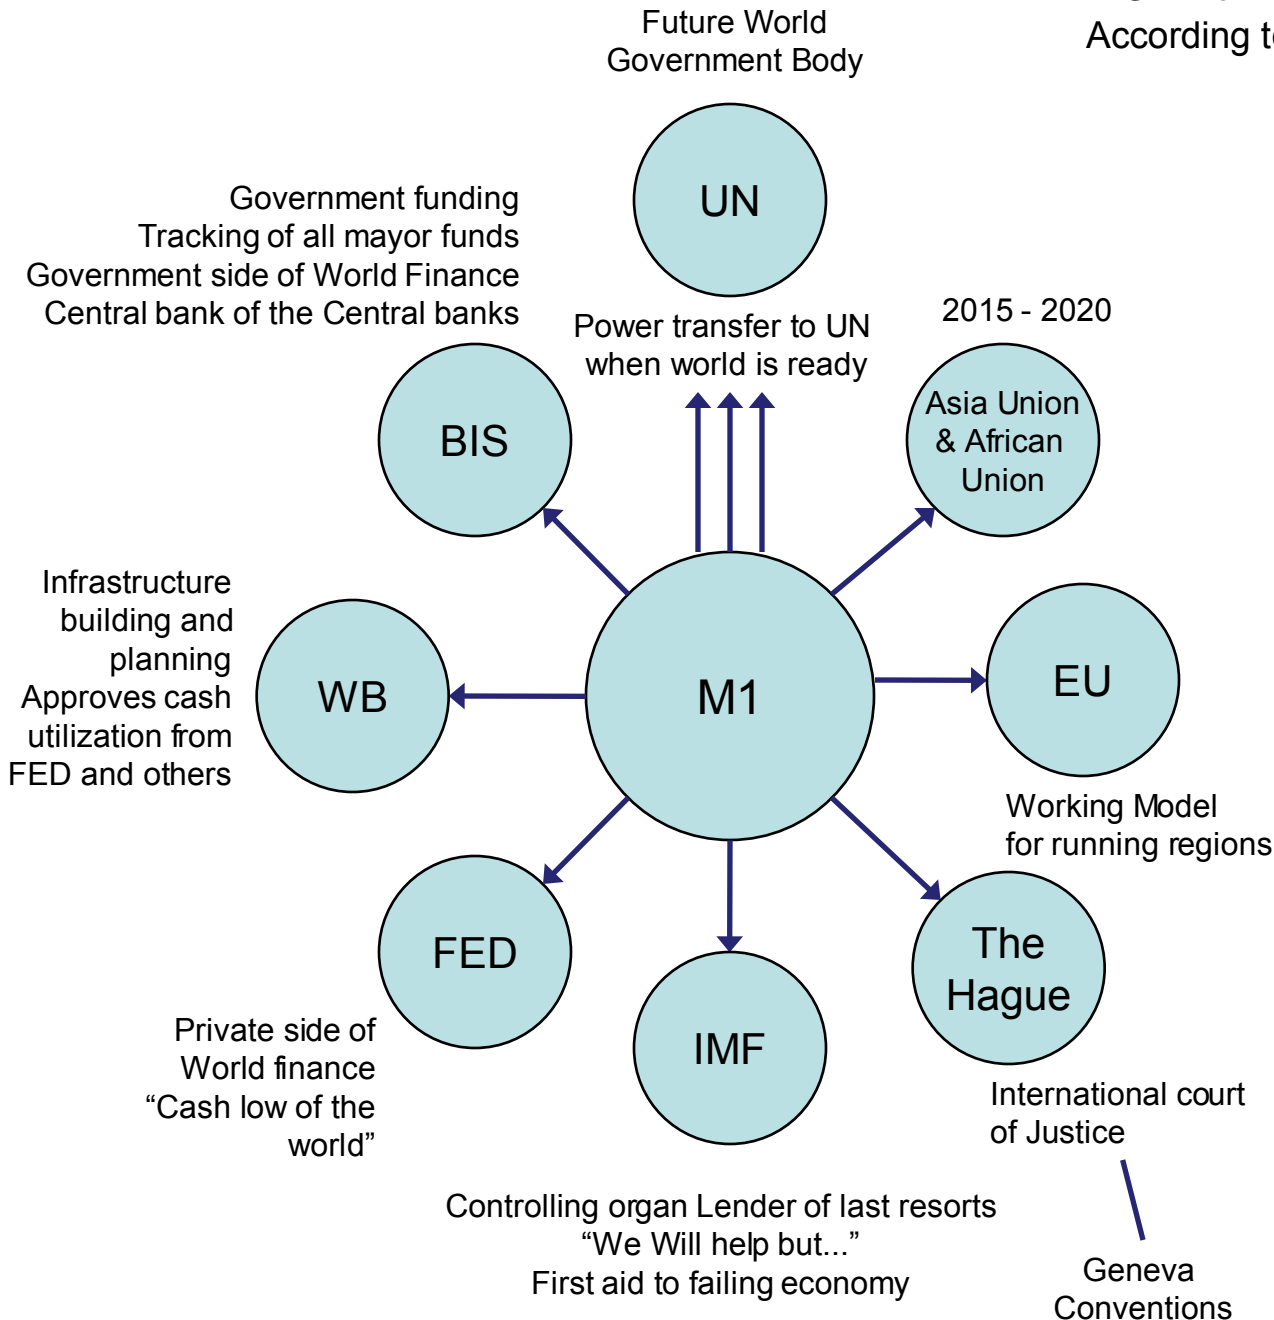

Later in the scheme once the new Nations are firmly established and functional you can join them into bigger blocks. All for the purpose of Unity, Peace and Togetherness.

The USA could stand as a good example and similar solutions were foreseen for Europe, Africa & Asia as well.

How it was supposed to work.

According to "The plan of the Experts" of 1928

These projects are still on the drawing board but if you study today's news you can see how the seeds are there.

Just as with the EU it is quietly there until suddenly the time is right and things move very fast.

The difference from what was original planned is that other forces are now pushing the same agenda for control reasons

How it was supposed to work.

According to "The plan of the Experts" of 1928

These are very approximate timelines. Time will tell when it all happens and how it is implemented.

As it stands today we will end up with one of two solutions. Right now there is a fight of control going on.

1. A world paper currency backed by gold governed by a multinational assembly.
2. A cashless society solution were ultimately the Banks, or it's owners control the money supply and flows.

555 Top people in the bottom structure makes up the base for the next level.

These people will work on mainly Political Systems & Modules.

Experiments like the Russian Communist system as well as the USA Free market system was and is discussed and contemplated here.

Let's see what works?

Both are now deemed failures with adjustments to EU being the middle way.

The very Top level consists of just 16 people total. They control the finances and distribution of funds throughout the system. They issue and lend out Gold backed paper certificates. Terms are usually no more than 33 years and interest of 2-3% / year payable in Gold.

The underlying physical Gold assets are safeguarded by a second group not mentioned here.

A third group functions as controllers. They can block any movements of funds that do not meet the agreed upon plan.

To push movements and agendas you need the right people in the right places with the right intentions.

There is many ways to find and groom them. Listed below are a few. You can be assured that most if not all people who ends up in these positions of power were at some point picked. Regardless of if they themselves realize it or not. Then to help “Their” people get the job done they will always fall back to a very effective method of:

Create the PROBLEM, Present the SOLUTION

This is how the masses are pushed along.

A raping of the planet has occurred since for the benefit of a very few who's ultimate goal is ultimate control.

Since the mid 1850 there were as can be expected factions within the system that fought for power. Simplified it is a fight between the people controlling the "Gold" and "Bankers".

The Owners of the Banking Cartel were since the very beginning making attempts to hijack the whole plan and more specifically "the collateral account" "The big pot".

The first visible attempt was in 1910 when the **Jekyll Island Treaty**, created the seed to the **FED**.

Also along the way "The Bankers" used inside information to exaggerate the effects of, for instance the 1920's recall, to consolidate their own financial positions.

Financing Hitler in WW2 and funding various other wars are other examples.

A lot of these would never have happened had people stuck to the original agreements made starting from mid 1800 A.D.

How it has been USED since 1965 when the banking cartel took control and hijacked it all.

So here is how it works.

For any Macro funds to move within the Banking system BoE, The FED & BIS have to sign off.

The Vatican Bank is an unofficial record keeper and as such has a big stake in the game. It has also been appointed to control one of three, second layer Master Gold certificates.

How it has been USED since 1965 when the banking cartel took control and hijacked it all.

BoE actually owns the FED
(or the majority share) and
nothing can be done without
it's OK.

The FED funds all the Prime
Banks in the world such as
Amro, HSBC, Citibank etc .

How it has been USED since 1965 when the banking cartel took control and hijacked it all.

It is now very easy to understand how people like John F Kennedy and his brother Robert saw it as their mission to warn the world of this dark and growing power.

They called it “The “Industrial/Military complex” who they perceived were out to take over control of USA and the world.

They did the best they could to limit their reach and both paid the ultimate price for it.

How it has been USED since 1965 when the banking cartel took control and hijacked it all.

So the Banks would systematically lend out money to regimes they knew would squander the loans on products their companies could provide.

The intention was to make sure these countries ended up with debts they could never repay.

Only corrupt and/or military dictators need apply.

How it has been USED since 1965 when the banking cartel took control and hijacked it all.

Funds set aside for rebuilding the world in 1946 now ends up in the pockets of the owners of multinational.

In reality the money borrowed by Nations never leave New York. They just move from one account to the next leaving a lot of third world nations in huge debts.

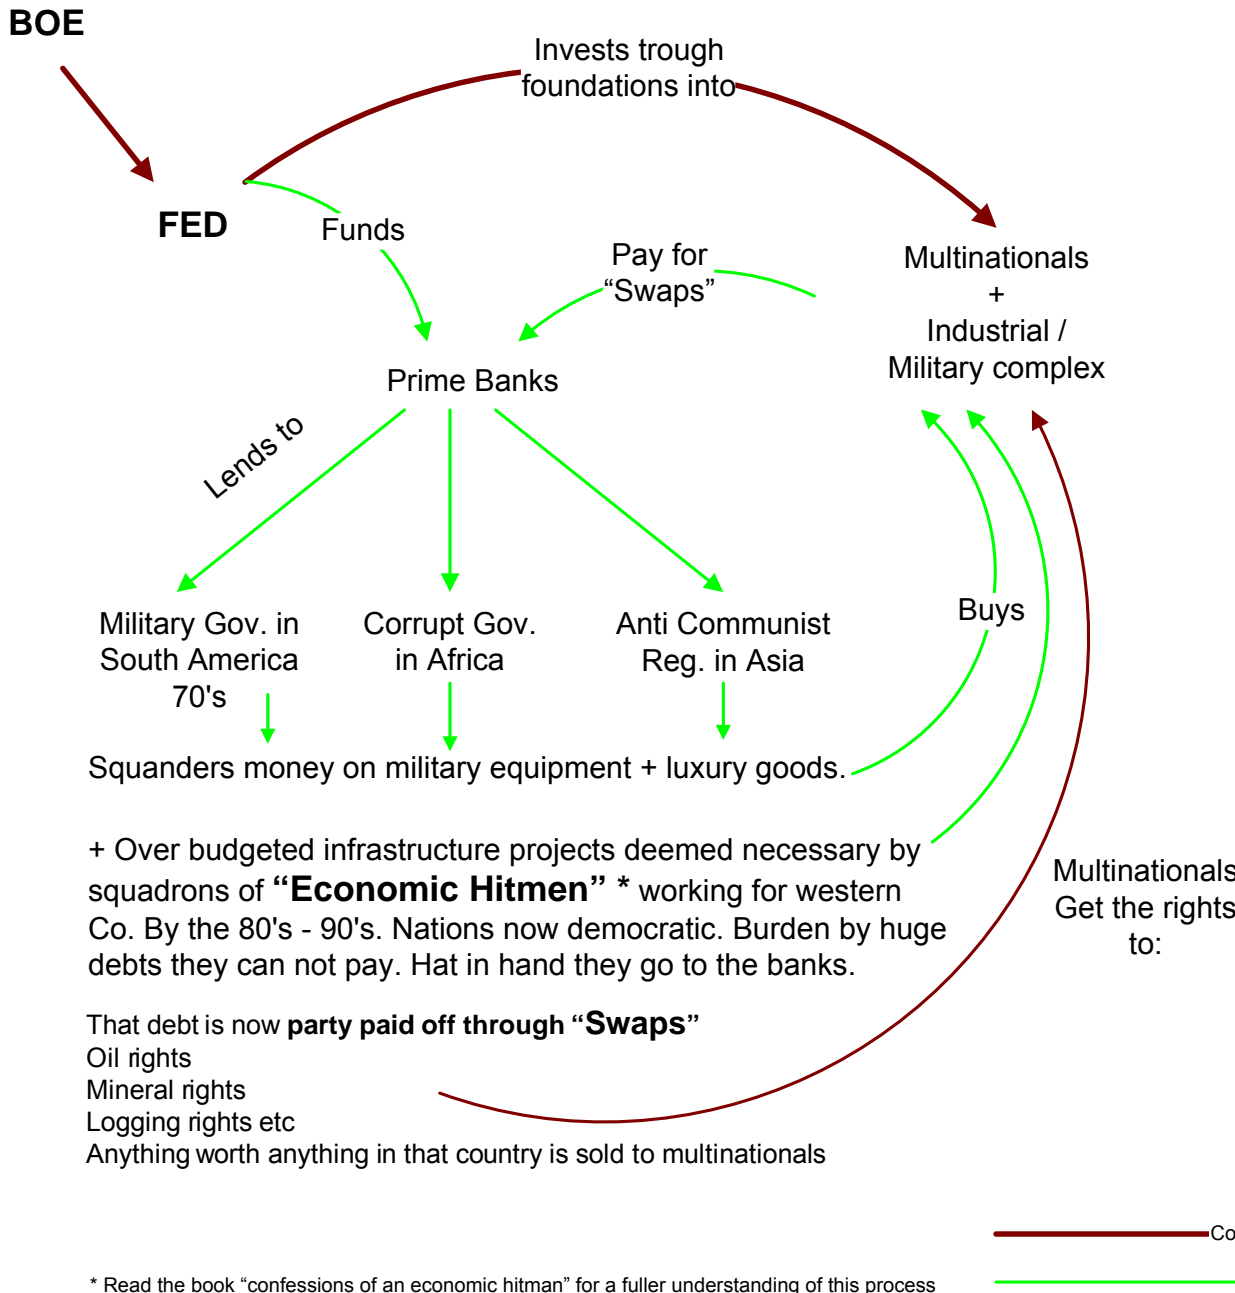

Read the book "confessions of an Economic Hitman" for an inside view.

+ Over budgeted infrastructure projects deemed necessary by squadrons of **"Economic Hitmen"** * working for western Co. By the 80's - 90's. Nations now democratic. Burden by huge debts they can not pay. Hat in hand they go to the banks.

How it has been USED since 1965 when the banking cartel took control and hijacked it all.

20-30 years later military regimes have been replaced by democratic ones wanting to do the right thing. They can not repay these debts and hat in hand approach the banks with "what can we do?" After some crises and mulling somebody presents the concept of "swaps".

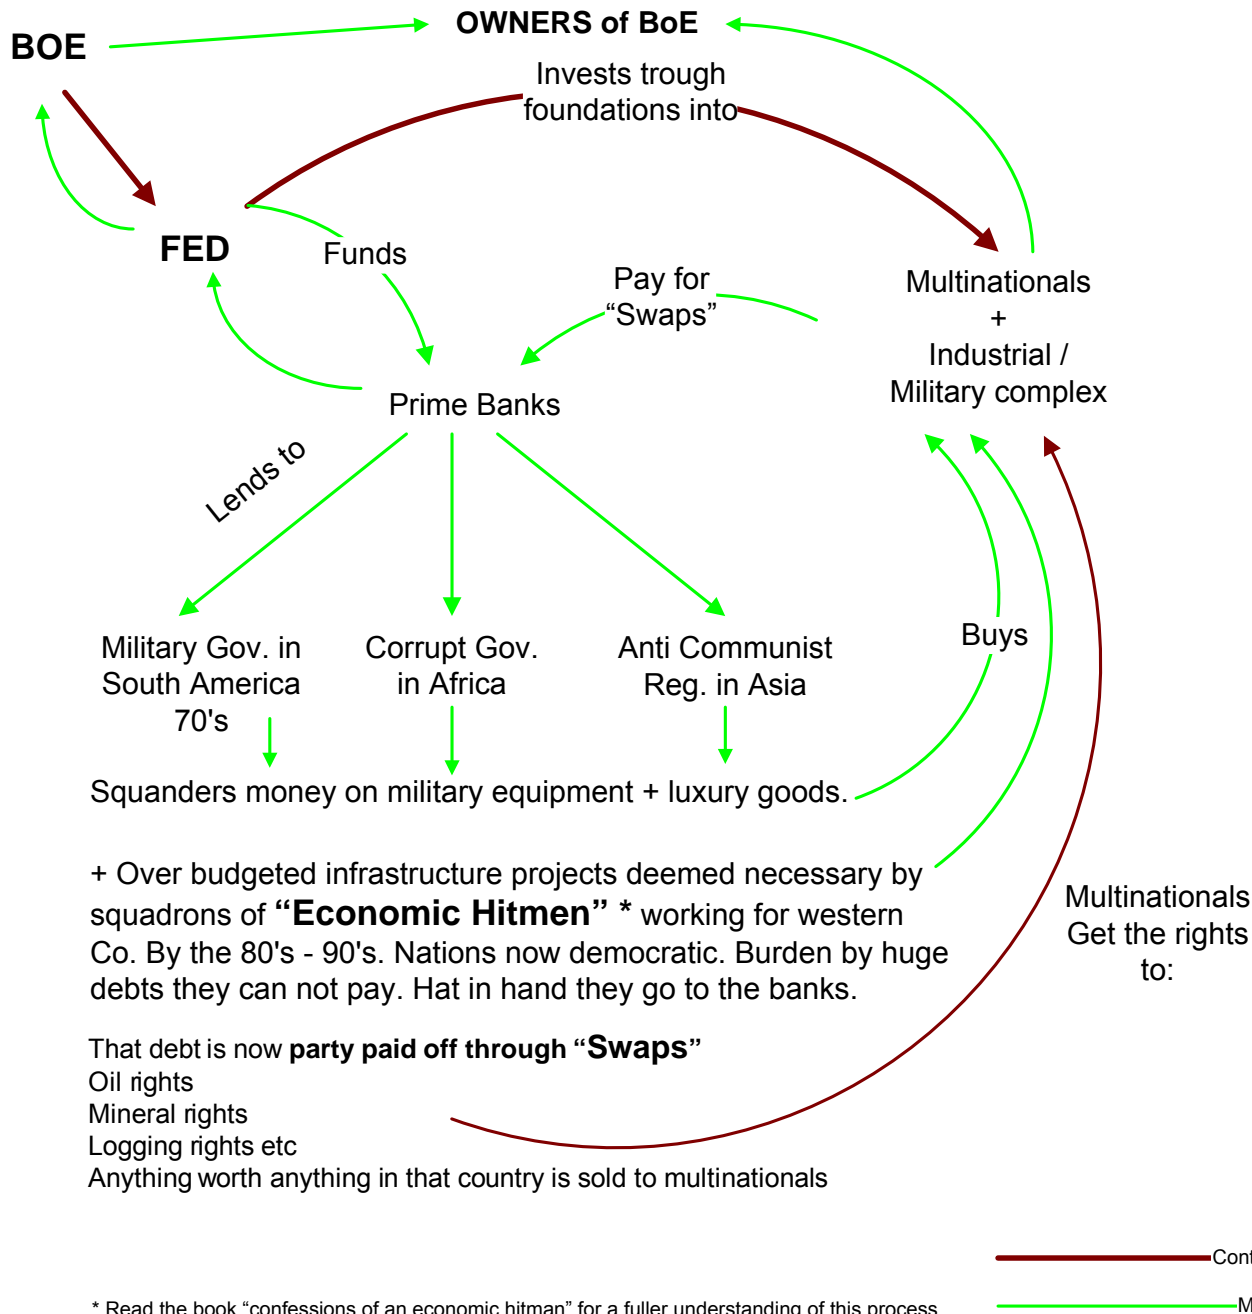

That means multinationals will bid for & buy anything that is worth anything in that country but pay to the bank for it.

That debt is now party paid off through **"Swaps"**
 Oil rights
 Mineral rights
 Logging rights etc
 Anything worth anything in that country is sold to multinationals

Again, money have never left New York but just shifted from account to account, but all;

- Mineral rights
- Oil rights
- Logging rights
- Everything of value in these countries are now owned by Multinationals.

All of which are ultimately owned and controlled by the owners of BoE/FED.

Using a "system" where they can create money out of nothing to lend out with interest they now OWN the world.

But, they still want more **CONTROL**

Control... To do what?

Objectives and values of **SOME** of the people now running the World

- The Jewish people and it's beliefs have to go!
- The Arians "the chosen ones"
- Population control (target 1-1.5 B)
- Garden of Eden wrongly perceived
- Lucifer wants to help Humanity and not keep them in the dark
- Lucifer is the bringer of enlightenment

Very simplified, you can divide today's controllers of the "system" into Hardliners and Softliners. Regardless there are some things they agree on. Above is a list of some of them..

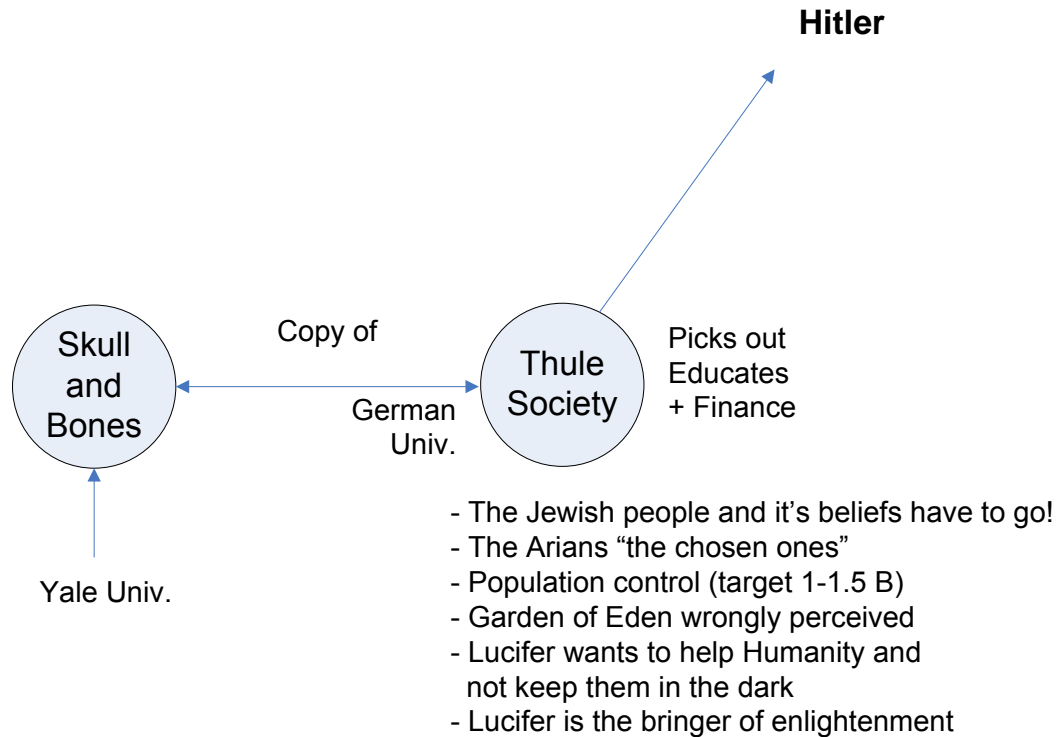

Objectives and values of some of the people now running the world.

- The Jewish people and it's beliefs have to go!
- The Arians "the chosen ones"
- Population control (target 1-1.5 B)
- Garden of Eden wrongly perceived
- Lucifer wants to help Humanity and not keep them in the dark
- Lucifer is the bringer of enlightenment

Hardliners who knew about the coming "freedom" war (WWII) used that knowledge to set up and educate Hitler. The war was unavoidable but it could have played out very differently. German Industrialists connected to a secret University society called Thule Society picked out, supported and educated Hitler. He was their man and their product.

Objectives and values of some of the people now running the world.

A copy of Thule society can be found in Yale in America. It's called Scull & Bones. It is interesting to see how the German connections to the ex president Bush family runs for generations through these secret societies.

It is amazing to find in today's world that Hitler's values and goals are still very much alive among the very top levels of our societies. But it is more understandable when you realize that Hitler did not create those values but learned them from his Masters. Those Masters are still around in different form.

- Garden of Eden wrongly perceived
- Lucifer wants to help Humanity and not keep them in the dark
- Lucifer is the bringer of enlightenment

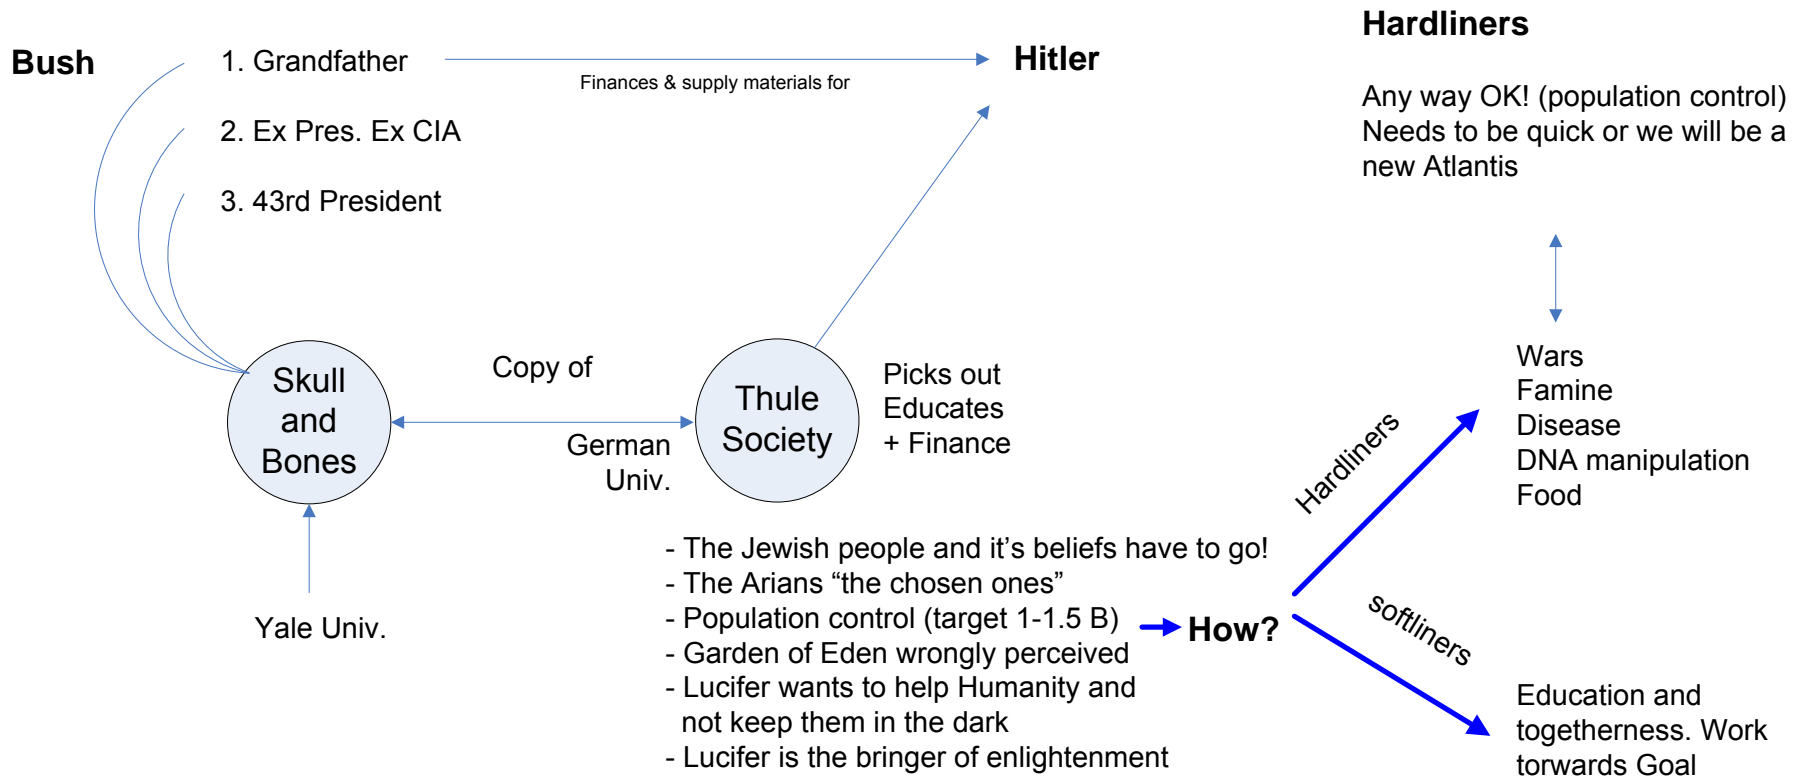

One common value is the belief that the world can only sustain 1-1.5 Billion people. The Earth can not handle any more than that. That means that 4.5 – 5 billion of us will have to go. HOW is were they get divided into Hardliner versus Softliner.

Objectives and values of some of the people now running the world.

Hardliners will say things like “ Anyway possible, it just needs to be quick or we will end up like another Atlantis” “ Let God decide who lives or die but whatever we decide is OK by him since otherwise He would not have placed us in this position of Power” A scary argument if there ever was one.
On how Georg H.W. Bush ties in with Hard liner elements see

Objectives and values of some of the people now running the world.

Softliners will say things like “ We agree on the Goal but we can reach it through Education and togetherness etc. It will take time but we can get there” Recently softliners within the system have reached out to the Old Gold People (who have stayed underground since 65) to try and reign in the worst of the hardliner elements. The Gold people have had no say for a long time but Banks still have old Gold certificates, ticking at interest payable in Gold, in their vaults as funds. **And that is Leverage..**

Shadows within the “SYSTEM”

Within this old Gold standard “System” there are checks and controls in place.

The controls are built as triangles were the 3 parties should not know or have direct contact with each other. This formula is repeated throughout the system on all levels.

The Banking cartel probably thought they could highjack the system for good once they got the Fiat currency system (paper money with just faith backing it) fully in place and accepted by all. That was a gradual process finally finalized once Nixon effectively took the USD of it's tie to Gold.

It seems as if the Banking world miscalculated the strength of the control systems and are only now coming to the realization that they will need the cooperation of the Gold people. That is why we in the future will see a shift in focus of funds from the West towards Asia and eventually Africa.

Shadows within the “SYSTEM”

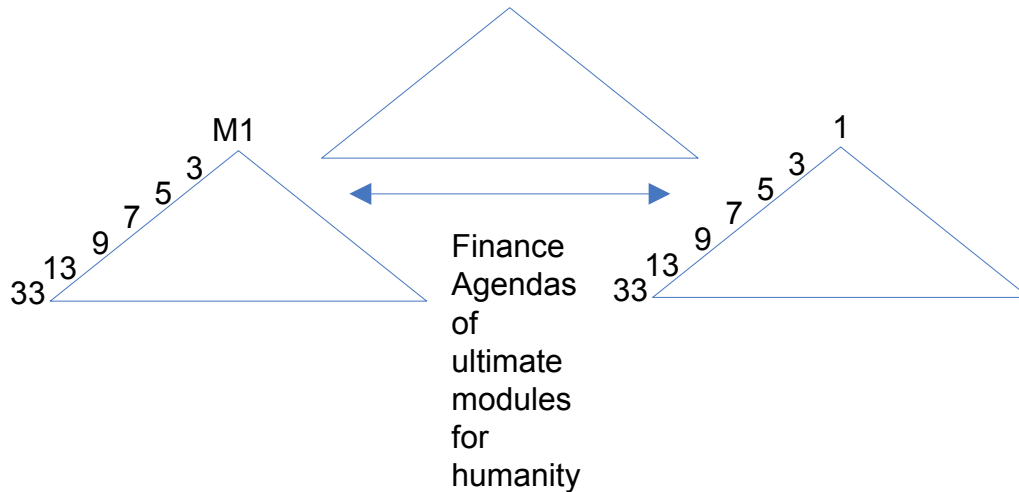

The M1 position is on one of these three points.

M1 acts as Holder (H) of the assets. He will act as the front face of owner but actually does not have anything to do with owning underlying hard assets. It is a management position.

The accounts will be in his name and he signs for a lot of it. He has the right to 2.5 % (basically the interest) of funds under his management.

He is supported by a team of 70 people directly underneath him.

Shadows within the “SYSTEM”

On the opposite side of M1 at the base of the triangle there is the OWNER (OW) of the hard assets.

They will sit on and control the underlying physical assets. These are the assets that were “Legalized” .

Legalized means that a company came and inspected the asset + issued a certificate that were based on said asset. Now the certificate can easily be moved and lent out at interest while the underlying asset never have to.

This certainly makes Banking a whole lot easier. No need to cart thousands of tons of Gold around.

Shadows within the “SYSTEM”

The third top level is that of the Controller (C). Ultimate Green light for use of any asset. He can stop anything the others decide on but rarely instigate Macro fund movements. It seems the Chinese Royals (KS) kept this part within their bloodline.

All three (H,OW,C) signatories are required for utilization of any given asset. The same controller (C) can sign for hundreds of different accounts and their position code within the system is 3/3/3.

Another position code within the system is 6/6/6 which is one of higher authority than 3/3/3. At this point in time that Master POA paper is still waiting for a name to be filled in.

Shadows within the “SYSTEM”

The old Gold people also talks of these code positions as periods.

Supposedly the 6/6/6 “period” is to be a transition period leading into a 9/9/9 period of ultimate peace and happiness on earth.

They in turn get their information and prophecies from among other things an ancient Gold book that contains everything from beginning to end of the human drama on earth. Its believed to be part of what King Solomon left here together with his sword. It can only be read by selected priests using a specific tool.

How this all ties in with 2000 year old scriptural prophecy please see a future presentation that we are still working on. “the Brief & religious prophecies“

Freemasons

Visible Power structure

The Freemasons, which basically is the more visible part of the Templar Knights organization, is built up much the same as the rest of the “system”.

The visible base has 33 levels and you think you are at the top if you become a 33 degree Grand Master Mason.

They do a lot of good around the world and are a serious player in allocating funds for various projects. It is unclear though what or who is actually at the very top and the spirit they worship.

Freemasons

Invisible Power structure

Visible Power structure

Above the 33 degree Mason there are again 7 more layers leading to the ultimate King of Kings.

At this level there is a lot of work with spirit. All profess to be working for God but perceptions of God will vary.

Some will say it's Christ that should sit at the top others will claim Lucifer is the good one.

If the top is Good the rest follows but if the top is Bad the same goes.

Time will tell who ultimately takes the throne on a permanent basis.

What's next?

There seems to be two ways this can go depending who ends up winning the current struggle for control over the “System” (Or a compromise that would include bits of both)

1. The “Gold” people come back in the game. Means we are back on some sort of Gold standard with a international currency controlled by a multinational assembly of sorts. More funds available for developing regions.

- It is of critical importance that you have a backup plan that is not dependent on the rest of the world working as it is now. Things will **CHANGE**. Not only on the economic scene. Nature is also on collision course with how humans live today. Move towards sustainability, get off credit and limit the use of credit/debit cards so when the chip idea is presented you are ready to live without it. They won't make it easy so be prepared to say no to a lot of current comforts in your life.

The Federal Reserve Act of 1913, has been termed as "The Crime of the Century" in one of the great speeches in our lifetime, by the honorable Louis Mcfadden, Representative from Canton, Pennsylvania on June 10, 1932.

Mr. McFadden, due to his having served as Chairman of the Banking and Currency Committee for more than 10 years, was the best posted man on these matters in America and was in a position to speak with authority of the vast ramifications of this gigantic private credit monopoly.

HE DID NOT LIVE LONG AFTER DELIVERING THE FOLLOWING SPEECH WHICH IS ALSO VERY RELAVENT TO TODAYS BANKING SITUATION.

" All intellectuals by now, understand that this hideous institution is a credit cartel, not American but controlled by international bankers, such as Rothschild, Warburgs and Schiffs.

In addition, to the speech in 1932 by Representative Mcfadden, on May 4th, 1933, two months after the U.S filed for bankruptcy(Public Law 93-549), the Congressman filed impeachment proceedings against the Federal Reserve Board.

Here is some passages from the speech:
"Mr Chairman, the united states is

bankrupt ! It has been bankrupted by the corrupt and dishonest Federal Reserve Banks. It has repudiated its debt to its own citizens. **Its chief foreign creditor is Great Britain and a British Bailiff has been at the White House and British agents are in the united states treasury making inventories and arranging terms of liquidity !** Mr. Chairman, the Federal Reserve Board offered to collect the British claims in full from the American public by trickery and corruption, if Great Britain will help the Federal Reserve to conceal its crimes..."

The referenced passage was quoted from "The Greatest Crime in History" by Louis McFadden, call no. *C pv 3409, NYC public library

On May 23, 1933, Congressman, Louis T. McFadden, brought formal charges against the Board of Governors of the Federal Reserve Bank system, The Controller of the Currency and the Secretary of United States Treasury for numerous criminal acts, including but not limited to, CONSPIRACY, FRAUD, UNLAWFUL CONVERSION, AND TREASON. The petition for Articles of Impeachment was thereafter referred to the Judiciary Committee and has YET TO BE ACTED ON. So, this ELECTRONIC BOOKLET should be reprinted, re-posted, set up on web pages and circulated far and wide.

Congressman McFadden's Speech

Quotations from several speeches made on the Floor of the House of Representatives by the Honorable Louis T. McFadden of Pennsylvania. Mr. McFadden, due to his having served as Chairman of the Banking and Currency Committee for more than 10 years, was the best posted man on these matters in America and was in a position to speak with authority of the vast ramifications of this gigantic private credit monopoly. As Representative of a State which was among the first to declare its freedom from foreign money tyrants it is fitting that Pennsylvania, the cradle of liberty, be again given the credit for producing a son that was not afraid to hurl defiance in the face of the money-bun. Whereas Mr. McFadden was elected to the high office on both the Democratic and Republican tickets, there can be no accusation of partisanship lodged against him. Because these speeches are set out in full in the Congressional Record, they carry weight that no amount of condemnation on the part of private individuals could hope to carry.

The Federal Reserve - A Corrupt Institution

"Mr. Chairman, we have in this Country one of the most corrupt institutions the world has ever known. I refer to the Federal Reserve Board and the Federal Reserve Banks, hereinafter called the Fed. The Fed has cheated the Government of these United

States and the people of the United States out of enough money to pay the Nation's debt. The depredations and iniquities of the Fed has cost enough money to pay the National debt several times over."

"This evil institution has impoverished and ruined the people of these United States, has bankrupted itself, and has practically bankrupted our Government. It has done this through the defects of the law under which it operates, through the maladministration of that law by the Fed and through the corrupt practices of the moneyed vultures who control it."

"Some people who think that the Federal Reserve Banks United States Government institutions. They are private monopolies which prey upon the people of these United States for the benefit of themselves and their foreign customers; foreign and domestic speculators and swindlers; and rich and predatory money lender. In that dark crew of financial pirates there are those who would cut a man's throat to get a dollar out of his pocket; there are those who send money into states to buy votes to control our legislatures; there are those who maintain International propaganda for the purpose of deceiving us into granting of new concessions which will permit them to cover up their past misdeeds and set again in motion their gigantic train of crime."

"These twelve private credit monopolies were deceitfully and disloyally foisted upon this Country by the bankers who came here from Europe and repaid us our hospitality by undermining our American institutions. Those bankers took money out of this Country to finance Japan in a war against Russia. They created a reign of terror in Russia with our money in order to help that war along. They instigated the separate peace between Germany and Russia, and thus drove a wedge between the allies in World War. They financed Trotsky's passage from New York to Russia so that he might assist in the destruction of the Russian Empire. They fomented and instigated the Russian Revolution, and placed a large fund of American dollars at Trotsky's disposal in one of their branch banks in Sweden so that through him Russian homes might be thoroughly broken up and Russian children flung far and wide from their natural protectors. They have since begun breaking up of American homes and the dispersal of American children. Mr. Chairman, there should be no partisanship in matters concerning banking and currency affairs in this Country, and I do not speak with any."

"In 1912 the National Monetary Association, under the chairmanship of the late Senator Nelson W. Aldrich, made a report and presented a vicious bill called the National Reserve Association bill. This bill is usually spoken of as the Aldrich bill."

Senator Aldrich did not write the Aldrich bill. He was the tool, if not the accomplice, of the European bankers who for nearly twenty years had been scheming to set up a central bank in this Country and who in 1912 has spent and were continuing to spend vast sums of money to accomplish their purpose."

"We were opposed to the Aldrich plan for a central bank. The men who rule the Democratic Party then promised the people that if they were returned to power there would be no central bank established here while they held the reigns of government. Thirteen months later that promise was broken, and the Wilson administration, under the tutelage of those sinister Wall Street figures who stood behind Colonel House, established here in our free Country the worm-eaten monarchical institution of the 'King's Bank' to control us from the top downward, and from the cradle to the grave."

"The Federal Reserve Bank destroyed our old and characteristic way of doing business. It discriminated against our 1-name commercial paper, the finest in the world, and it set up the antiquated 2-name paper, which is the present curse of this Country and which wrecked every country which has ever given it scope; it fastened down upon the Country the very tyranny from which the framers of the Constitution sought to save us."

PRESIDENT JACKSON'S TIME

"One of the greatest battles for the preservation of this Republic was fought out here in Jackson's time; when the second Bank of the United States, founded on the same false principles of those which are here exemplified in the Fed was hurled out of existence. After that, in 1837, the Country was warned against the dangers that might ensue if the predatory interests after being cast out should come back in disguise and unite themselves to the Executive and through him acquire control of the Government. That is what the predatory interests did when they came back in the livery of hypocrisy and under false pretenses obtained the passage of the Fed."

"The danger that the Country was warned against came upon us and is shown in the long train of horrors attendant upon the affairs of the traitorous and dishonest Fed. Look around you when you leave this Chamber and you will see evidences of it in all sides. This is an era of misery and for the conditions that caused that misery, the Fed are fully liable. This is an era of financed crime and in the financing of crime the Fed does not play the part of a disinterested spectator."

"It has been said that the draughts man who was employed to write the text of the Aldrich bill because that had been drawn up by lawyers, by acceptance bankers of

European origin in New York. It was a copy, in general a translation of the statues of the Reichsbank and other European central banks. One-half million dollars was spent on the part of the propaganda organized by these bankers for the purpose of misleading public opinion and giving Congress the impression that there was an overwhelming popular demand for it and the kind of currency that goes with it, namely, an asset currency based on human debts and obligations. Dr. H. Parker Willis had been employed by Wall Street and propagandists, and when the Aldrich measure failed- he obtained employment with Carter Glass, to assist in drawing the banking bill for the Wilson administration. He appropriated the text of the Aldrich bill. There is no secret about it. The test of the Federal Reserve Act was tainted from the first."

"A few days before the bill came to a vote, Senator Henry Cabot Lodge, of Massachusetts, wrote to Senator John W. Weeks as follows:

New York City,
December 17, 1913

'My Dear Senator Weeks:

Throughout my public life I have supported all measures designed to take the Government out of the banking business. This bill puts the Government into the banking business as never before in our history. The

powers vested in the Federal Reserve Board seen to me highly dangerous especially where there is political control of the Board. I should be sorry to hold stock in a bank subject to such dominations. The bill as it stands seems to me to open the way to a vast inflation of the currency. I had hoped to support this bill, but I cannot vote for it cause it seems to me to contain features and to rest upon principles in the highest degree menacing to our prosperity, to stability in business, and to the general welfare of the people of the United States.

Very Truly Yours,
Henry Cabot Lodge.'

"In eighteen years that have passed since Senator Lodge wrote that letter of warning all of his predictions have come true. The Government is in the banking business as never before. Against its will it has been made the backer of horse thieves and card sharps, bootlegger's smugglers, speculators, and swindlers in all parts of the world. Through the Fed the riffraff of every country is operating on the public credit of the United States Government."

THE GREAT DEPRESSION

"Meanwhile and on account of it, we ourselves are in the midst of the greatest depression we have ever known. From the Atlantic to the Pacific, our Country has been ravaged and laid waste by the evil practices of the Fed and the interests which

control them. At no time in our history, has the general welfare of the people been at a lower level or the minds of the people so full of despair."

"Recently in one of our States, 60,000 dwelling houses and farms were brought under the hammer in a single day. 71,000 houses and farms in Oakland County, Michigan, were sold and their erstwhile owners dispossessed. The people who have thus been driven out are the wastage of the Fed. They are the victims of the Fed. Their children are the new slaves of the auction blocks in the revival of the institution of human slavery."

The Scheme of the Fed

"In 1913, before the Senate Banking and Currency Committee, Mr. Alexander Lassen made the following statement: 'The whole scheme of the Fed with its commercial paper is an impractical, cumbersome machinery- is simply a cover to secure the privilege of issuing money, and to evade payment of as much tax upon circulation as possible and then control the issue and maintain, instead of reducing interest rates. It will prove to the advantage of the few and the detriment of the people. It will mean continued shortage of actual money and further extension of credits, for when there is a shortage of money people have to borrow to their cost. 'A few days before the Fed passed, Senator Root denounced the Fed as an

outrage on our liberties. He predicted:
'Long before we wake up from our dream of prosperity through an inflated currency, our gold- which alone could have kept us from catastrophe- will have vanished and no rate of interest will tempt it to return.'

"If ever a prophecy came true, that one did."

"The Fed became law the day before Christmas Eve, in the year 1913, and shortly afterwards, the German International bankers, Kuhn, Loeb and Co. sent one of their partners here to run it."

"The Fed Note is essentially unsound. It is the worst currency and the most dangerous that this Country has ever known. When the proponents of the act saw that the Democratic doctrine would not permit them to let the proposed banks issue the new currency as bank notes, they should have stopped at that. They should not have foisted that kind of currency, namely, an asset currency, on the United States Government. They should not have made the Government [liable on the private] debts of individuals and corporations, and, least of all, on the private debts of foreigners. As Kemmerer says: 'The Fed Notes, therefore, in form, have some of the qualities of Government paper money, but in substance, are almost a pure asset currency possessing a Government guarantee against which

contingency the Government has made no provision whatever.' "

"Hon. L.J.Hill, a former member of the House, said, and truly: 'They are obligations of the Government for which the United States received nothing and for the payment of which at any time, it assumes the responsibility: looking to the Fed to recoup itself.' "

"If this United States is to redeem the Fed Notes, when the General Public finds it costs to deliver this paper to the Fed, and if the Government has made no provisions for redeeming them, the first element of unsoundness is not far to seek."

"Before the Banking and Currency Committee, when the bill was under discussion Mr. Crozier of Cincinnati said: 'The imperial power of elasticity of the public currency is wielded exclusively by the central corporations owned by the banks. This is a life and death power over all local banks and all business. It can be used to create or destroy prosperity, to ward off or cause stringencies and panics. By making money artificially scarce, interest rates throughout the Country can be arbitrarily raised and the bank tax on all business and cost of living increased for the profit of the banks owning these regional central banks, and without the slightest benefit to the people. The 12 Corporations together

cover y and monopolize and use for private gain- every dollar of the public currency and all public revenue of the United States. Not a dollar can be put into circulation among the people by their Government, without the consent of and on terms fixed by these 12 private money trusts.'"

"In defiance of this and all other warnings, the proponents of the Fed created the 12 private credit corporations and gave them an absolute monopoly of the currency of these United States- not of the Fed Notes alone- but of all other currency! The Fed Act providing ways and means by which the gold and general currency in the hands of the American people could be obtained by the Fed in exchange for Fed Notes - which are not money - but mere promises to pay."

"Since the evil day when this was done, the initial monopoly has been extended by vicious amendments to the Fed and by the unlawful and treasonable practices of the Fed."

Money for the Scottish Distillers

"Mr. Chairman, if a Scottish distiller wishes to send a cargo of Scotch whiskey to these United States, he can draw his bill against the purchasing bootlegger in dollars and after the bootlegger has accepted it by writing his name across the face of it, the Scotch distiller can send that bill to the nefarious open discount market in New York

City where the Fed will buy it and use it as collateral for a new issue of Fed Notes. Thus the Government of these United States pay the Scotch distiller for the whiskey before it is shipped, and if it is lost on the way, or if the Coast Guard seizes it and destroys it, the Fed simply write off the loss and the government never recovers the money that was paid to the Scotch distiller."

"While we are attempting to enforce prohibition here, the Fed are in the distillery business in Europe and paying bootlegger bills with public credit of these United States. "Mr. Chairman, by the same process, they compel our Government to pay the German brewer for his beer. Why should the Fed be permitted to finance the brewing industry in Germany either in this way or as they do by compelling small and fearful United States Banks to take stock in the Isenbeck Brewery and in the German Bank for brewing industries? Mr. Chairman, if Dynamit Nobel of Germany, wishes to sell dynamite in Japan to use in Manchuria or elsewhere, it can draw its bill against the Japanese customers in dollars and send that bill to the nefarious open discount market in New York City where the Fed will buy it and use it as collateral for a new issue of Fed Notes- while at the same time the Fed will be helping Dynamit Nobel by stuffing its stock into the United States banking system. "

"Why should we send our representatives to the disarmament conference at Geneva - while the Fed is making our Government pay Japanese debts to German Munitions makers?"

"Mr. Chairman, if a German wishes to raise a crop of beans and sell them to a Japanese customer, he can draw a bill against his prospective Japanese customer in dollars and have it purchased by the Fed and get the money out of this Country at the expense of the American people before he has even planted the beans in the ground. Mr. Chairman, if a German in Germany wishes to export goods to South America, or any other Country, he can draw his bill against his customers and send it to these United States and get the money out of this Country before he ships, or even manufactures the goods."

"Mr. Chairman, why should the currency of these United States be issued on the strength of German Beer? Why should it be issued on the crop of unplanted beans to be grown in Chili for Japanese consumption? Why should these United States be compelled to issue many billions of dollars every year to pay the debts of one foreigner to another foreigner? Was it for this that our National Bank depositors had their money taken out of our banks and shipped abroad? Was it for this that they had to lose it? Why should the public credit of these United States and likewise money belonging to our National

Bank depositors be used to support foreign brewers, narcotic drug vendors, whiskey distillers, wig makers, human hair merchants, Chilean bean growers, to finance the munition factories of Germany and Soviet Russia?"

THE UNITED STATES HAS BEEN RANSACKED

"The United States has been ransacked and pillaged. Our structures have been gutted and only the walls are left standing. While being perpetrated, everything the world would rake up to sell us was brought in here at our expense by the Fed until our markets were swamped with unneeded and unwanted imported goods priced far above their value and made to equal the dollar volume of our honest exports, and to kill or reduce our favorite balance of trade. As Agents of the foreign central banks the Fed try by every means in their power to reduce our favorable balance of trade. They act for their foreign principal and they accept fees from foreigners for acting against the best interests of these United States. Naturally there has been great competition among foreigners for the favors of the Fed."

"What we need to do is to send the reserves of our National Banks home to the people who earned and produced them and who still own them and to the banks which were compelled to surrender them to predatory interests."

"Mr. Chairman, there is nothing like the Fed pool of confiscated bank deposits in the world. It is a public trough of American wealth in which the foreigners claim rights, equal to or greater than Americans. The Fed are the agents of the foreign central banks. They use our bank depositors' money for the benefit of their foreign principals. They barter the public credit of the United States Government and hire it out to foreigners at a profit to themselves."

"All this is done at the expense of the United States Government, and at a sickening loss to the American people. Only our great wealth enabled us to stand the drain of it as long as we did."

"We need to destroy the Fed wherein our national reserves are impounded for the benefit of the foreigners. "We need to save America for Americans."

SPURIOUS SECURITIES

"Mr. Chairman, when you hold a \$10.00 Fed Note in your hand, you are holding a piece of paper which sooner or later is going to cost the United States Government \$10.00 in gold (unless the Government is obliged to go off the gold standard). It is based on Limburger cheese (reported to be in foreign warehouses) or in cans purported to contain peas (but may contain salt water instead), or horse meat, illicit drugs, bootleggers' fancies, rags and bones from Soviet Russia

(of which these United States imported over a million dollars worth last year), on wines whiskey, natural gas, goat and dog fur, garlic on the string, and Bombay ducks."

"If you like to have paper money- which is secured by such commodities - you have it in Fed Note. If you desire to obtain the thing of value upon which this paper currency is based, that is, the limburger cheese, the whiskey, the illicit drugs, or any of the other staples- you will have a very hard time finding them."

"Many of these worshipful commodities are in foreign Countries. Are you going to Germany to inspect her warehouses to see if the specified things of value are there? I think more, I do not think that you would find them there if you did go."

"On April 27, 1932, the Fed outfit sent \$750,000 belonging to American bank depositors in gold to Germany. A week later another \$300,000 in gold was shipped to Germany. About the middle of May \$12,000,000 in gold was shipped to Germany by the Fed. Almost every week there is a shipment of gold to Germany. These shipments are not made for profit on the exchange since the German marks are blow parity with the dollar."

"Mr. Chairman, I believe that the National Bank depositors of these United States have

a right to know what the Fed are doing with their money. There are millions of National Bank depositors in the Country who do not know that a percentage of every dollar they deposit in a Member Bank of the Fed goes automatically to American Agents of the foreign banks and that all their deposits can be paid away to foreigners without their knowledge or consent by the crooked machinery of the Fed and the questionable practices of the Fed."

[Ed. Note - Problem with next paragraph in original] "Mr. Chairman, the American people should be told the truth by their servants in office. In 1930, we had over a half billion dollars outstanding daily to finance foreign goods stored in or shipped between several billion dollars. What goods are these on which the Fed yearly pledge several billions of dollars. In its yearly total, this item amounts to several billions of dollars of the public credit of these United States?"

"What goods are those which are hidden in European and Asiatic stores have not been seen by any officer of our Government but which are being financed on the public credit of the United States Government? What goods are those upon which the 17 United States Government is being obligated by the Fed to issue Fed Notes to the extent of several billions of dollars a year?"

The Bankers' Acceptance Racket

"The Fed have been International Banks from the beginning, with these United States as their enforced banker and supplier of currency. But it is none the less extraordinary to see these twelve private credit monopolies, buying the debts of foreigners against foreigners, in all parts of the world and asking the Government of these United States for new issues of Fed notes in exchange for them. The magnitude of the acceptance racket as it has been developed by the Fed, their foreign correspondents, and the predatory European born bankers, who set up the Fed here and taught your own, by and of pirates, how to loot the people: I say the magnitude of this racket is estimated to be in the neighborhood of 9,000,000,000 per year. In the past ten years it is said to have amounted to \$90,000,000,000.00. In my opinion it has amounted to several times that much. coupled to this you have to the extent of billions of dollars, the gambling in the United States securities, which takes place in the same open discount market- a gambling on which the Fed is now spending \$100,000,000.00 per week."

"Fed Notes are taken from the U.S. Government in unlimited quantities. Is it strange that the burden of supplying these immense sums of money to the gambling fraternity has at last proved too heavy for the American people to endure? Would it not

be a national [calamity to] again bind down this burden on the backs of the American people and by means of a long rawhide whip of the credit masters, compel them to enter another seventeen years of slavery?"

"They are trying to do that now. They are trying to take \$100,000,000.00 of the public credit of the United States every week, in addition to all their other seizures and they are sending that money to the nefarious open market in a desperate gamble to reestablish their graft as a going concern."

"They are putting the United States Government in debt to the extent of \$100,000,000 a week, and with the money they are buying our Government securities for themselves and their foreign principals. Our people are disgusted with the experiences of the Fed. The Fed is not producing a loaf of bread, a yard of cloth, a bushel of corn, or a pile of cordwood by its check-kiting operations in the money market."

"Mr. Speaker, on the 13th of January of this year I addressed the House on the subject of the Reconstruction Finance Corporation. In the course of my remarks I made the following statement: In 1928 the member banks of the Fed borrowed \$60,598,690,000. from the Fed on their fifteen-day promissory notes. Think of it. Sixty billion dollars payable on demand in gold in the course of one single year. The actual amount of such

obligations called for six times as much monetary gold as there is in the world. Such transactions represent a grant in the course of one single years of about \$7,000,000 to every member of the Fed."

"Is it any wonder that American labor which ultimately pays the cost of all banking operations of this Country has at last proved unequal to the task of supplying this huge total of cash and credit for the benefit of the stock market manipulators and foreign swindlers? In 1933 the Fed presented the staggering amount of \$60,598,690,000 to its member banks at the expense of the wage earners and tax payers of these United States. In 1929, the year of the stock market crash, the Fed advanced \$58,000,000,000 to member banks."

"In 1930 while the speculating banks were getting out of the stock market at the expense of the general public, the Fed advanced them \$13,022,782,000. This shows that when the banks were gambling on the public credit of these United States as represented by the Fed currency they were subsidized to any amount they required by the Fed. When the swindle began to fall, the bankers knew it in advance and withdrew from the market. They got out with whole skins - and left the people of these United States to pay the piper. My friend from Kansas, Mr. McGugin, has stated that he thought the Fed lent money on rediscounting. So they do, but

they lend comparatively little that way. The real discounting that they do has been called a mere penny in the slot business. It is too slow for genuine high flyers. They discourage it. They prefer to subsidize their favorite banks by making them \$60,000,000,000 advances and they prefer to acquire assistance in the notorious open discount market in New York, where they can use it to control the price of stocks and bonds on the exchanges."

"For every dollar they advanced on discounts in 1928, they lent \$33.00 to their favorite banks for whom they do a business of several billion dollars income tax on their profits to these United States."

The John Law Swindle

"This is the John Law swindle over again. The theft of Teapot Dome was trifling compared to it. What King ever robbed his subject to such an extent as the Fed has robbed us? Is it any wonder that there have been lately ninety cases of starvation in one of the New York hospitals? Is there any wonder that the children are being abandoned?"

"The government and the people of these United States have been swindled by swindlers deluxe to whom the acquisition of American or a parcel of Fed Notes presented no more difficulty than the drawing up of a worthless acceptance in a Country not

subject to the laws of these United States, by sharpers not subject to the jurisdiction of these United States, sharpers with strong banking "fence" on this side of the water, a 'fence' acting as a receiver of a worthless paper coming from abroad, endorsing it and getting the currency out of the Fed for it as quickly as possible exchanging that currency for gold and in turn transmitting the gold to its foreign confederates."
Ivar Kreuger, the Match King!

"Such were the exploits of Ivar Krueger, Mr. Hoover's friend, and his rotten Wall Street bakers. Every dollar of the billions Kreuger and his gang drew out of this Country on acceptances was drawn from the government and the people of the United States through the Fed. The credit of the United States Government was peddled to him by the Fed for their own private gain. That is what the Fed has been doing for many years."

"They have been peddling the credit of this Government and the [signature of this] Government to the swindlers and speculators of all nations. That is what happens when a Country forsakes its Constitution and gives its sovereignty over the public currency to private interests. Give them the flag and they will sell it."

"The nature of Kreuger's organized swindle and the bankrupt condition of Kreuger's combine was known here last June when Hoover

sought to exempt Krueger's loan to Germany of \$125,000,000 from the operation of the Hoover Moratorium. The bankrupt condition of Krueger's swindle was known here last summer when \$30,000,000 was taken from the American taxpayers by certain bankers in New York for the ostensible purpose of permitting Krueger to make a loan to Colombia. Colombia never saw that money."

"The nature of Krueger's swindle was known here in January when he visited his friend, Mr. Hoover, at the White House. It was known here in March before he went to Paris and committed suicide."

"Mr. Chairman, I think the people of the United States are entitled to know how many billions of dollars were placed at the disposal of Krueger and his gigantic combine by the Fed, and to know how much of our Government currency was issued and lost in the financing of that great swindle in the years during which the Fed took care of Krueger's requirements."

"A few days ago, the President of the United States with a white face and shaking hands, went before the Senate of behalf of the moneyed interests and asked the Senate to levy a tax on the people so that foreigners might know that these United States would pay its debt to them."

"Most Americans thought it was the other way around. What does these United States owe foreigners? When and by whom was the debt incurred? It was incurred by the Fed, when they peddled the signature of the Government to foreigners- for a Price. It is what the United States Government has to pay to redeem the obligations of the Fed."

Thieves Go Scot Free

"Are you going to let these thieves get off scot free? Is there one law for the looter who drives up to the door of the United States Treasury in his limousine and another for the United States Veterans who are sleeping on the floor of a dilapidated house on the outskirts of Washington?"

"The Baltimore and Ohio Railroad is here asking for a large loan from the people, and the wage earners and the taxpayers of these United States. It is begging for a handout from the Government. It is standing, cap in hand, at the door of the R.F.C. where all the jackals have gathered to the feast. It is asking for money that was raised from the people by taxation and wants this money of the poor for the benefit of Kuhn, Loeb and Co., the German International Bankers."

"Is there one law for the Baltimore and Ohio Railroad and another for the hungry veterans it threw off its freight cars the other day? Is there one law for sleek and prosperous swindlers who call themselves bankers and

another law for the soldiers who defended the flag? The R.F.C. is taking over these worthless securities from the Investment Trusts with United States Treasury money at the expense of the American taxpayer and the wage earner."

"It will take twenty years to redeem our Government. Twenty years of penal servitude to pay off the gambling debts of the traitorous Fed and to vast flood of American wages and savings, bank deposits, and the United States Government credit which the Fed exported out of this country to their foreign principals."

"The Fed lately conducted an anti-hoarding campaign here. They they took that extra money which they had persuaded the American people to put into the banks- they sent it to Europe- along with the rest. In the last several months, they have sent \$1,300,000,000 in gold to their foreign employers, their foreign masters, and every dollar of that gold belonged to the people of these United States and was unlawfully taken from them."

Fiat Money

"Mr. Chairman, within the limits of the time allowed me, I cannot enter into a particularized discussion of the Fed. I have singled out the Fed currency for a few remarks because there has lately been some talk here of 'fiat money.' What kind of

money is being pumped into the open discount market and through it into foreign channels and stock exchanges? Mr. Mills of the Treasury has spoken here of his horror of the printing presses and his horror of dishonest money. He has no horror of dishonest money. If he had, he would be no party to the present gambling of the Fed in the nefarious open discount market of New York, a market in which the sellers are represented by 10 discount corporations owned and organized by the very banks which own and control the Fed."

"Fiat money, indeed!"

"What Mr. Mills is fighting for is the preservation, whole and entire, of the banker's monopoly of all the currency of the United States Government."

"Mr. Chairman, last December, I introduced a resolution here asking for an examination and an audit of the Fed and all related matters. If the House sees fit to make such an investigation, the people of these United States will obtain information of great value. This is a Government of the people, by the people, for the people. Consequently, nothing should be concealed from the people. The man who deceives the people is a traitor to these United States."

"The man who knows or suspects that a crime has been committed and who conceals and

covers up that crime is an accessory to it. Mr. Speaker, it is a monstrous thing for this great nation of people to have its destinies presided over by a traitorous government board acting in secret concert with international usurers."

"Every effort has been made by the Fed to conceal its powers - but the truth is - the Fed has usurped the Government. It controls everything here and it controls all of our foreign relations. It makes and breaks governments at will."

"No man and no body of men is more entrenched in power than the arrogant credit monopoly which operated the Fed. What National Government has permitted the Fed to steal from the people should now be restored to the people. The people have a valid claim against the Fed. If that claim is enforced the Americans will not need to stand in the bread line, or to suffer and die of starvation in the streets. Women will be saved, families will be kept together, and American children will not be dispersed and abandoned."

"Here is a Fed Note. Immense numbers of the notes are now held abroad. I am told that they amount to upwards of a billion dollars. They constitute a claim against our Government and likewise a claim against our peoples' money to the extent of \$1,300,000,000 which has within the last few

months been shipped abroad to redeem Fed Notes and to pay other gambling debts of the traitorous Fed. The greater part of our money stock has been shipped to other lands."

"Why should we promise to pay the debts of foreigners to foreigners? Why should the Fed be permitted to finance our competitors in all parts of the world? Do you know why the tariff was raised? It was raised to shut out the flood of Fed Goods pouring in here from every quarter of the globe - cheap goods, produced by cheaply paid foreign labor, on unlimited supplies of money and credit sent out of this Country by the dishonest and unscrupulous Fed."

"The Fed are spending \$100,000,000 a week buying government securities in the open market and are making a great bid for foreign business. They are trying to make rates so attractive that the human hair merchants and the distillers and other business entities in foreign land will come her and hire more of the public credit of the United States Government to pay the Fed outfit for getting it for them."

World Enslavement Planned

"Mr. Chairman, when the Fed was passed, the people of these United States did not perceive that a world system was being set up here which would make the savings of the American school teacher available to a

narcotic-drug vendor in Acapulco. They did not perceive that these United States was to be lowered to the position of a coolie country which has nothing but raw material and heart, that Russia was destined to supply the man power and that this country was to supply the financial power to an 'international superstate.' A superstate controlled by international bankers, and international industrialists acting together to enslave the world for their own pleasure?"

"The people of these United States are being greatly wronged. They have been driven from their employments. They have been dispossessed from their homes. They have been evicted from their rented quarters. They have lost their children. They have been left to suffer and die for lack of shelter, food, clothing and medicine."

"The wealth of these United States and the working capital have been taken away from them and has either been locked in the vaults of certain banks and the great corporations or exported to foreign countries for the benefit of the foreign customers of these banks and corporations. So far as the people of the United States are concerned, the cupboard is bare."

"It is true that the warehouses and coal yards and grain elevators are full, but

these are padlocked, and the great banks and corporations hold the keys."

"The sack of these United States by the Fed is the greatest crime in history."

"Mr. Chairman, a serious situation confronts the House of Representatives today. We are trustees of the people and the rights of the people are being taken away from them. Through the Fed the people are losing the rights guaranteed to them by the Constitution. Their property has been taken from them without due process of law. Mr. Chairman, common decency requires us to examine the public accounts of the Government and see what crimes against the public welfare have been committed."

"What is needed here is a return to the Constitution of these United States."

"The old struggle that was fought out here in Jackson's time must be fought over again. The independent United States Treasury should be reestablished and the Government should keep its own money under lock and key in the building the people provided for that purpose."

"Asset currency, the devise of the swindler, should be done away with. The Fed should be abolished and the State boundaries should be respected. Bank reserves should be kept within the boundaries of the States whose

people own them, and this reserve money of the people should be protected so that the International Bankers and acceptance bankers and discount dealers cannot draw it away from them."

"The Fed should be repealed, and the Fed Banks, having violated their charters, should be liquidated immediately. Faithless Government officials who have violated their oaths of office should be impeached and brought to trial."

"Unless this is done by us, I predict, that the American people, outraged, pillaged, insulted and betrayed as they are in their own land, will rise in their wrath, and will sweep the money changers out of the temple."

"Mr. Chairman, the United States is bankrupt: It has been bankrupted by the corrupt and dishonest Fed. It has repudiated its debts to its own citizens. Its chief foreign creditor is Great Britain, and a British bailiff has been at the White House and the British Agents are in the United States Treasury making inventory arranging terms of liquidations!"

Great Britain, Partner in Blackmail

"Mr. Chairman, the Fed has offered to collect the British claims in full from the American public by trickery and corruption, if Great Britain will help to conceal its crimes. The British are shielding their

agents, the Fed, because they do not wish that system of robbery to be destroyed here. They wish it to continue for their benefit! By means of it, Great Britain has become the financial mistress of the world. She has regained the position she occupied before the World War."

"For several years she has been a silent partner in the business of the Fed. Under threat of blackmail, or by their bribery, or by their native treachery to the people of the United States, the officials in charge of the Fed unwisely gave Great Britain immense gold loans running into hundreds of millions of dollars. They did this against the law! Those gold loans were not single transactions. They gave Great Britain a borrowing power in the United States of billions. She squeezed billions out of this Country by means of her control of the Fed."

"As soon as the Hoover Moratorium was announced, Great Britain moved to consolidate her gains. After the treacherous signing away of American rights at the 7-power conference at London in July, 1931, which put the Fed under the control of the Bank of International Settlements, Great Britain began to tighten the hangman's noose around the neck of the United States."

"She abandoned the gold standard and embarked on a campaign of buying up the claims of foreigners against the Fed in all

parts of the world. She has now sent her bailiff, Ramsey MacDonald, here to get her war debt to this country canceled. But she has a club in her hands! She has title to the gambling debts which the corrupt and dishonest Fed incurred abroad."

"Ramsey MacDonald, the labor party deserter, has come here to compel the President to sign on the dotted line, and that is what Roosevelt is about to do! Roosevelt will endeavor to conceal the nature of his action from the American people. But he will obey the International Bankers and transfer the war debt that Great Britain should pay to the American people, to the shoulders of the American taxpayers."

"Mr. Chairman, the bank holiday in the several States was brought about by the corrupt and dishonest Fed. These institutions manipulated money and credit, and caused the States to order bank holidays."

"These holidays were frame-ups! They were dress rehearsals for the national bank holiday which Franklin D. Roosevelt promised Sir Ramsey MacDonald that he would declare."

"There was no national emergency here when Franklin D. Roosevelt took office excepting the bankruptcy of the Fed- a bankruptcy which has been going on under cover for several years and which has been concealed

from the people so that the people would continue to permit their bank deposits and their bank reserves and their gold and the funds of the United States Treasury to be impounded in these bankrupt institutions."

"Under cover, the predatory International Bankers have been stealthily transferring the burden of the Fed debts to the people's Treasury and to the people themselves. They the farms and the homes of the United States to pay for their thievery! That is the only national emergency that there has been here since the depression began."

"The week before the bank holiday was declared in New York State, the deposits in the New York savings banks were greater than the withdrawals. There were no runs on New York Banks. There was no need of a bank holiday in New York, or of a national holiday."

Roosevelt and the International Bankers

"Roosevelt did what the International Bankers ordered him to do!"

"Do not deceive yourself, Mr. Chairman, or permit yourself to be deceived by others into the belief that Roosevelt's dictatorship is in any way intended to benefit the people of the United States: he is preparing to sign on the dotted line! He is preparing to cancel the war debts by fraud!"

"He is preparing to internationalize this Country and to destroy our Constitution itself in order to keep the Fed intact as a money institution for foreigners. "Mr. Chairman, I see no reason why citizens of the United States should be terrorized into surrendering their property to the International Bankers who own and control the Fed. The statement that gold would be taken from its lawful owners if they did not voluntarily surrender it, to private interests, show that there is an anarchist in our Government."

"The statement that it is necessary for the people to give their gold - the only real money - to the banks in order to protect the currency, is a statement of calculated dishonesty!"

"By his unlawful usurpation of power on the night of March 5, 1933, and by his proclamation, which in my opinion was in violation of the Constitution of the United States, Roosevelt divorced the currency of the United States from gold, and the United States currency is no longer protected by gold. It is therefore sheer dishonesty to say that the people's gold is needed to protect the currency."

"Roosevelt ordered the people to give their gold to private interests - that is, to banks, and he took control of the banks so

that all the gold and gold values in them, or given into them, might be handed over to the predatory International Bankers who own and control the Fed."

"Roosevelt cast his lot with the usurers. He agreed to save the corrupt and dishonest at the expense of the people of the United States."

"He took advantage of the people's confusion and weariness and spread the dragnet over the United States to capture everything of value that was left in it. He made a great haul for the International Bankers."

"The Prime Minister of England came here for money! He came here to collect cash!"

"He came here with Fed Currency and other claims against the Fed which England had bought up in all parts of the world. And he has presented them for redemption in gold."

"Mr. Chairman, I am in favor of compelling the Fed to pay their own debts. I see no reason why the general public should be forced to pay the gambling debts of the International Bankers."

Roosevelt Seizes the Gold

"By his action in closing the banks of the United States, Roosevelt seized the gold value of forty billions or more of bank deposits in the United States banks. Those

deposits were deposits of gold values. By his action he has rendered them payable to the depositors in paper only, if payable at all, and the paper money he proposes to pay out to bank depositors and to the people generally in lieu of their hard earned gold values in itself, and being based on nothing into which the people can convert it the said paper money is of negligible value altogether."

"It is the money of slaves, not of free men. If the people of the United States permit it to be imposed upon them at the will of their credit masters, the next step in their downward progress will be their acceptance of orders on company stores for what they eat and wear. Their case will be similar to that of starving coal miners. They, too, will be paid with orders on Company stores for food and clothing, both of indifferent quality and be forced to live in Company-owned houses from which they may be evicted at the drop of a hat. More of them will be forced into conscript labor camps under supervision."

"At noon on the 4th of March, 1933, FDR with his hand on the Bible, took an oath to preserve, protect and defend the Constitution of the U.S. At midnight on the 5th of March, 1933, he confiscated the property of American citizens. He took the currency of the United States standard of value. He repudiated the internal debt of

the Government to its own citizens. He destroyed the value of the American dollar. He released, or endeavored to release, the Fed from their contractual liability to redeem Fed currency in gold or lawful money on a parity with gold. He depreciated the value of the national currency."

"The people of the U.S. are now using unredeemable paper slips for money. The Treasury cannot redeem that paper in gold or silver. The gold and silver of the Treasury has unlawfully been given to the corrupt and dishonest Fed. And the Administration has since had the effrontery to raid the country for more gold for the private interests by telling our patriotic citizens that their gold is needed to protect the currency."

"It is not being used to protect the currency! It is being used to protect the corrupt and dishonest Fed. The directors of these institutions have committed criminal offense against the United States Government, including the offense of making false entries on their books, and the still more serious offense of unlawfully abstracting funds from the United States Treasury! Roosevelt's gold raid is intended to help them out of the pit they dug for themselves when they gambled away the wealth and savings of the American people."
Dictatorship

"The International Bankers set up a dictatorship here because they wanted a dictator who would protect them. They wanted a dictator who would protect them. They wanted a dictator who would issue a proclamation giving the Fed an absolute and unconditional release from their special currency in gold, or lawful money of any Fed Bank."

"Has Roosevelt relieved any other class of debtors in this country from the necessity of paying their debts? Has he made a proclamation telling the farmers that they need not pay their mortgages? Has he made a proclamation to the effect that mothers of starving children need not pay their milk bills? Has he made a proclamation relieving householders from the necessity of paying rent?"

Roosevelt's Two Kinds of Laws

"Not he! He has issued one kind of proclamation only, and that is a proclamation to relieve international bankers and the foreign debtors of the United States Government."

"Mr. Chairman, the gold in the banks of this country belongs to the American people who have paper money contracts for it in the form of national currency. If the Fed cannot keep their contracts with United States citizens to redeem their paper money in gold, or lawful money, then the Fed must be

taken over by the United States Government and their officers must be put on trial."

"There must be a day of reckoning. If the Fed have looted the Treasury so that the Treasury cannot redeem the United States currency for which it is liable in gold, then the Fed must be driven out of the Treasury."

"Mr. Chairman, a gold certificate is a warehouse receipt for gold in the Treasury, and the man who has a gold certificate is the actual owner of a corresponding amount of gold stacked in the Treasury subject to his order."

"Now comes Roosevelt who seeks to render the money of the United States worthless by unlawfully declaring that it may No Longer be converted into gold at the will of the holder."

"Roosevelt's next haul for the International Bankers was the reduction in the pay of all Federal employees."

"Next in order are the veterans of all wars, many of whom are aged and infirm, and other sick and disabled. These men had their lives adjusted for them by acts of Congress determining the amounts of the pensions, and, while it is meant that every citizen should sacrifice himself for the good of the United States, I see no reason why those

poor people, these aged Civil War Veterans and war widows and half-starved veterans of the World War, should be compelled to give up their pensions for the financial benefit of the International vultures who have looted the Treasury, bankrupted the country and traitorously delivered the United States to a foreign foe."

"There are many ways of raising revenue that are better than that barbaric act of injustice."

"Why not collect from the Fed the amount they owe the U.S. Treasury in interest on all the Fed currency they have taken from the Government? That would put billions of dollars into the U.S. Treasury."

"If FDR is as honest as he pretends to be, he will have that done immediately. And in addition, why not compel the Fed to disclose their profits and to pay the Government its share?"

"Until this is done, it is rank dishonesty to talk of maintaining the credit of the U.S. Government. My own salary as a member of Congress has been reduced, and while I am willing to give my part of it that has been taken away from me to the U.S. Government, I regret that the U.S. has suffered itself to be brought so low by the vultures and crooks who are operating the roulette wheels and faro tables in the Fed, that is now obliged

to throw itself on the mercy of its legislators and charwomen, its clerks, and its poor pensioners and to take money out of our pockets to make good the defalcations of the International Bankers who were placed in control of the Treasury and given the monopoly of U.S. Currency by the misbegotten Fed. I am well aware that the International Bankers who drive up to the door of the United States Treasury in their limousines, look down with scorn upon members of Congress because we work for so little, while they draw millions a year. The difference is that we earn, or try to earn, what we get - and they steal the greater part of their takings."

Enemies of the People They Rob

"I do not like to see vivisections performed on human beings. I do not like to see the American people used for experimental purposes by the credit masters of the United States. They predicted among themselves that they would be able to produce a condition here in which American citizens would be completely humbled and left starving and penniless in the streets."

"The fact that they made that assertion while they were fomenting their conspiracy against the United States that they like to see a human being, especially an American, stumbling from hunger when he walks. Something should be done about it, they say. Five-cent meals, or something! "But FDR will

not permit the House of Representatives to investigate the condition of the Fed. FDR will not do that. He has certain International Bankers to serve. They not look to him as the man Higher Up who will protect them from the just wrath of an outraged people."

"The International Bankers have always hated our pensioners. A man with a small pension is a ward of the Government. He is not dependent upon them for a salary or wages. They cannot control him. They do not like him. It gave them great pleasure, therefore, to slash the veterans."

"But FDR will never do anything to embarrass his financial supporters. He will cover up the crimes of the Fed."

"Before he was elected, Mr. Roosevelt advocated a return to the earlier practices of the Fed, thus admitting its corruptness. The Democratic platform advocated a change in the personnel of the Fed. These were campaign bait. As a prominent Democrat lately remarked to me; 'There is no new deal. The same old crowd is in control.'"

"The claims of foreign creditors of the Fed have no validity in law. The foreign creditors were the receivers - and the willing receivers - of stolen goods! They have received through their banking fences immense amounts of currency, and that

currency was unlawfully taken from the United States Treasury by the Fed."

"England discovered the irregularities of the Fed quite early in its operations and through fear, apparently, the Fed have for years suffered themselves to be blackmailed and dragooning England to share in the business of the Fed. The Fed have unlawfully taken many millions of dollars of the public credit of the United States and have given it to foreign sellers on the security of the Debt paper of foreign buyers in purely foreign transactions, and when the foreign buyers refused to meet their obligations and the Fed saw no honest way of getting the stolen goods back into their possession, they decided by control of the executive to make the American people pay their losses!"
Conspiracy of War Debts

"They likewise entered into a conspiracy to deprive the people of the U.S. of their title to the war debts and not being able to do that in the way they intended, they are now engaged in an effort to debase the American dollar so that foreign governments will have their debts to this country cut in two, and then by means of other vicious underhanded arrangements, they propose to remit the remainder."

"So far as the U.S. is concerned, the gambling counters have no legal standing. The U.S. Treasury cannot be compelled to

make good the gambling ventures of the corrupt and dishonest Fed. Still less should the bank deposits of the U.S. be used for that purpose. Still less should the national currency have been made irredeemable in gold so that the gold which was massed and stored to redeem the currency for American citizens may be used to pay the gambling debts of the Fed for England's benefit. The American people should have their gold in their own possession where it cannot be held under secret agreement for any foreign control bank, or world bank, or foreign nation. Our own citizens have the prior claim to it. The paper [money men] have in their possession deserves redemption far more than U.S. currency and credit which was stolen from the U.S. Treasury and bootlegged abroad."

"Why should the foreigners be made preferred creditors of the bankrupt U.S.? Why should the U.S. be treated as bankrupt at all? This Government has immense sums due it from the Fed. The directors of these institutions are men of great wealth. Why should the guilty escape the consequences of their misdeeds? Why should the people of these U.S. surrender the value of their gold bank deposits to pay off the gambling debts of these bankers? Why should Roosevelt promise foreigners that the U.S. will play the part of a good neighbor, 'meeting its obligations'?"

"Let the Fed meet their own obligations."

"Every member of the Fed should be compelled to disgorge, and every acceptance banker and every discount corporation which has made illegal profits by means of public credit unlawfully bootlegged out of the U.S. Treasury and hired out by the crooks and vultures of the Fed should be compelled to disgorge."

Federal Reserve Pays No Taxes

"Gambling debts due to foreign receivers of stolen goods should not be paid by sacrificing our title to our war debts, the assets of the U.S. Treasury- which belong to all the people of the U.S. and which it is our duty to preserve inviolate in the people's treasury."

"The U.S. Treasury cannot be made liable for them. The Fed currency must be redeemed by the Fed banks or else these Fed banks must be liquidated."

"We know from assertions made here by the Hon. John N. Garner, Vice-President of the U.S. that there is a condition in the [United States such] would cause American citizens, if they knew what it was, to lose all confidence in their government."

"That is a condition that Roosevelt will not have investigated. He has brought with him from Wall Street, James Warburg, the son of Paul M. Warburg. Mr. Warburg, alien born,

and the son of an alien who did not become naturalized here until several years after this Warburg's birth, is a son of a former partner of Kuhn, Loeb and Co., a grandson of another partner, a nephew of a former partner, and a nephew of a present partner."

"He holds no office in our Government, but I am told that he is in daily attendance at the Treasury, and that he has private quarters there! In other words, Mr. Chairman, Kuhn, Loeb and Company now has control and occupy the U.S. Treasury."
Preferred Treatment for Foreigners

"The text of the Executive order which seems to place an embargo on shipments of gold permits the Secretary of the Treasury, a former director of the corrupt, to issue licenses at his discretion for the export of gold coin, or bullion, earmarked or held in trust for a recognized foreign government or foreign central bank for international settlement. Now, Mr. Chairman, if gold held in trust for those foreign institutions may be sent to them, I see no reason why gold held in trust for American as evidenced by their gold certificates and other currency issued by the U.S. Government should not be paid to them. "I think that American citizens should be entitled to treatment at least as good as that which the person is extending to foreign governments, foreign central banks, and the bank of International Settlements. I think a veteran of the world

war, with a \$20.00 gold certificate, is at least as much entitled to receive his own gold for it, as any international banker in the city of New York or London."

"By the terms of this executive order, gold may be exported if it is actually required, for the fulfillment of any contract entered into prior to the date of this order by an applicant who, in obedience to the executive order of April 5, 1933, has delivered gold coin, gold bullion, or gold certificates. This means that gold may be exported to pay the obligations abroad of the Fed which were incurred prior to the date of the order, namely, April 20, 1933."

"If a European Bank should send 100,000,000 dollars in Fed currency to a bank in this country for redemption, that bank could easily ship gold to Europe in exchange for that currency. Such Fed currency would represent 'contracts' entered into prior to the date of the order. If the Bank of International Settlements or any other foreign bank holding any of the present gambling debt paper of the Fed should draw a draft for the settlement of such obligation, gold would be shipped to them because the debt contract would have been entered into prior to the date of order."

Crimes and Criminals

"Mr. Speaker, I rise to a question of constitutional privilege.

"Whereas, I charge. . .Eugene Meyer, Roy A. Young, Edmund Platt, Eugene B. Black, Adolph Casper Miller, Charles S. Hamlin, George R. James, Andrew W. Mellon, Ogden L. Mills, William H. Woo W. Poole, J.F.T. O'Connor, members of the Federal Reserve Board; F. H. Curtis, J.H. Chane, R.L. Austin, George De Camp, L.B. Williams, W.W. Hoxton, Oscar Newton, E.M. Stevens, J.S. Wood, J.N. Payton, M.L. McClure, C.C. Walsh, Isaac B. Newton, Federal Reserve Agents, jointly and severally, with violations of the Constitution and laws of the United States, and whereas I charge them with having taken funds from the U.S. Treasury which were not appropriated by the Congress of the United States, and I charge them with having unlawfully taken over \$80,000,000,000 from the U.S. Government in the year 1928, the said unlawful taking consisting of the unlawful creation of claims against the U.S. Treasury to the extent of over \$80,000,000,000 in the year 1928; and I charge them with similar thefts committed in 1929, 1930, 1931, 1932 and 1933, and in years previous to 1928, amounting to billions of dollars; and

"Whereas I charge them, jointly and severally with having unlawfully created claims against the U.S. Treasury by unlawfully placing U.S. Government credit in specific amounts to the credit of foreign governments and foreign central banks of

issue; private interests and commercial and private banks of the U.S. and foreign countries, and branches of foreign banks doing business in the U.S., to the extent of billions of dollars; and with having made unlawful contracts in the name of the U.S. Government and the U.S. Treasury; and with having made false entries on books of account; and

"Whereas I charge them jointly and severally, with having taken Fed Notes from the U.S. Treasury and with having put Fed Notes into circulation without obeying the mandatory provision of the Fed Act which requires the Fed Board to fix an interest rate on all issues of Fed Notes supplied to Fed Banks, the interest resulting therefrom to be paid by the Fed Banks to the government of the U.S. for the use of the Fed Notes, and I charge them of having defrauded the U.S. Government and the people of the U.S. of billions of dollars by the commission of this crime, and

"Whereas I charge them, jointly and severally, with having purchased U.S. Government securities with U.S. Government credit unlawfully taken and with having sold the said U.S. Government securities back to the people of the U.S. for gold or gold values and with having again purchased U.S. Government securities with U.S. Government credit unlawfully taken and with having again sold the said U.S. Government security

for gold or gold values, and I charge them with having defrauded the U.S. Government and the people of the U.S. by this rotary process; and

"Whereas I charge them, jointly and severally, with having unlawfully negotiated U.S. Government securities, upon which the Government liability was extinguished, as collateral security for Fed Notes and with having substituted such securities for gold which was being held as collateral security for Fed Notes, and with having by the process defrauded the U.S. Government and the people of the U.S., and I charge them with the theft of all the gold and currency they obtained by this process; and

"Whereas I charge them, jointly and severally, with having unlawfully issued Fed currency on false, worthless and fictitious acceptances and other circulating evidence of debt, and with having made unlawful advances of Fed currency, and with having unlawfully permitted renewals of acceptances and renewals of other circulating evidences of debt, and with having permitted acceptance bankers and discount dealer corporations and other private bankers to violate the banking laws of the U.S.; and

"Whereas I charge them, jointly and severally, with having conspired to have evidences of debt to the extent of \$1,000,000,000 artificially created at the

end of February, 1933, and early in March 1933, and with having made unlawful issues and advances of Fed currency on the security of said artificially created evidences of debt for a sinister purpose, and with having assisted in the execution of said sinister purpose; and

"Whereas I charge them, jointly and severally, with having brought about the repudiation of the currency obligations of the Fed Banks to the people of the U.S. and with having conspired to obtain a release for the Fed Board and the Fed Banks from their contractual liability to redeem all Fed currency in gold or lawful money at the Fed Bank and with having defrauded the holders of Fed currency, and with having conspired to have the debts and losses of the Fed Board and the Fed Banks unlawfully transferred to the Government and the people of the U.S., and

"Whereas I charge them, jointly and severally, with having unlawfully substituted Fed currency and other irredeemable paper currency for gold in the hands of the people after the decision to repudiate the Fed currency and the national currency was made known to them, and with thus having obtained money under false pretenses; and

"Whereas I charge them, jointly and severally, with having brought about a

repudiation of the notes of the U.S. in order that the gold value of the said currency might be given to private interests, foreign governments, foreign central banks of issues, and the Bank of International Settlements, and the people of the U.S. to be left without gold or lawful money and with no currency other than a paper currency irredeemable in gold, and I charge them with having done this for the benefit of private interests, foreign governments, foreign central banks of issue, and the bank of International Settlements; and

"Whereas I charge them, jointly and severally, with conniving with the Edge Law banks, and other Edge Law institutions, accepting banks, and discount corporations, foreign central banks of issue, foreign commercial banks, foreign corporations, and foreign individuals with funds unlawfully taken from the U.S. Treasury; and I charge them with having unlawfully permitted and made possible 'new financing' for foreigners at the expense of the U.S. Treasury to the extent of billions of dollars and with having unlawfully permitted and made possible the bringing into the United States of immense quantities of foreign securities, created in foreign countries for export to the U.S. and with having unlawfully permitted the said foreign securities to be imported into the U.S. instead of gold, which was lawfully due to the U.S. on trade

balances and otherwise, and with having lawfully permitted and facilitated the sale of the said foreign securities in the U.S., and

"Whereas I charge them, jointly and severally, with having unlawfully exported U.S. coins and currency for a sinister purpose, and with having deprived the people of the U.S. of their lawful medium of exchange, and I charge them with having arbitrarily and unlawfully reduced the amount of money and currency in circulation in the U.S. to the lowest rate per capita in the history of the Government, so that the great mass of the people have been left without a sufficient medium of exchange, and I charge them with concealment and evasion in refusing to make known the amount of U.S. money in coins and paper currency exported and the amount remaining in the U.S. as a result of which refusal the Congress of the U.S. is unable to ascertain where the U.S. coins and issues of currency are at the present time, and what amount of U.S. currency is now held abroad; and

"Whereas I charge them, jointly and severally, with having arbitrarily and unlawfully raised and lowered the rates of money and with having arbitrarily increased and diminished the volume of currency in circulation for the benefit of private interests at the expense of the Government and the people of the U.S. and with having

unlawfully manipulated money rates, wages, salaries and property values both real and personal, in the U.S. by unlawful operations in the open discount market and by resale and repurchase agreements unsanctioned by law, and

"Whereas I charge them jointly and severally, with having brought about the decline in prices on the New York Stock Exchange and other exchanges in October, 1929, by unlawful manipulation of money rates and the volume of U.S. money and currency in circulation: by theft of funds from the U.S. Treasury by gambling in acceptances and U.S. Government securities; by service rendered to foreign and domestic speculators and politicians, and by unlawful sale of U.S. gold reserves abroad, and

"Whereas the unconstitutional inflation law imbedded in the so-called Farm Relief Act by which the Fed Banks are given permission to buy U.S. Government securities to the extent of \$3,000,000,000 and to draw forth currency from the people's Treasury to the extent of \$3,000,000,000 is likely to result in connivance on the part of said accused with others in the purchase by the Fed of the U.S. Government securities to the extent of \$3,000,000,000 with U.S. Government's own credit unlawfully taken, it being obvious that the Fed do no not intend to pay anything of value to the U.S. Government for the said U.S. Government securities no

provision for payment in gold or lawful money appearing in the so-called Farm Relief bill- and the U.S. Government will thus be placed in a position of conferring a gift of \$3,000,000,000 in the U.S. Government securities on the Fed to enable them to pay more on their bad debts to foreign governments, foreign central banks of issue, private interests, and private and commercial banks, both foreign and domestic, and the Bank of International Settlements, and

"Whereas the U.S. Government will thus go into debt to the extent of \$3,000,000,000 and will then have an additional claim of \$3,000,000,000 in currency unlawfully created against it and whereas no private interest should be permitted to buy U.S. Government securities with the Government's own credit unlawfully taken and whereas currency should not be issued for the benefit of said private interest or any interests on U.S. Government securities so acquired, and whereas it has been publicly stated and not denied that the inflation amendment of the Farm Relief Act is the matter of benefit which was secured by Ramsey MacDonald, the Prime Minister of Great Britain, upon the occasion of his latest visit to the U.S. Treasury, and whereas there is grave danger that the accused will employ the provision creating U.S. Government securities to the extent of \$3,000,000,000 and three millions in

currency to be issuable thereupon for the benefit of themselves and their foreign principals, and that they will convert the currency so obtained to the uses of Great Britain by secret arrangements with the Bank of England of which they are the agents, and for which they maintain an account and perform services at the expense of the U.S. Treasury, and that they will likewise confer benefits upon the Bank of International Settlements for which they maintain an account and perform services at the expense of the U.S. Treasury; and

"Whereas I charge them, jointly and severally, with having concealed the insolvency of the Fed and with having failed to report the insolvency of the Fed to the Congress and with having conspired to have the said insolvent institutions continue in operation, and with having permitted the said insolvent institutions to receive U.S. Government funds and other deposits, and with having permitted them to exercise control over the gold reserves of the U.S. and with having permitted them to transfer upward of \$100,000,000,000 of their debts and losses to the general public and the Government of the U.S., and with having permitted foreign debts of the Fed to be paid with the property, the savings, the wages, and the salaries of the people of the U.S. and with the farms and the homes of the American people, and whereas I charge them with forcing the bad debts of the Fed upon

the general public covertly and dishonestly and with taking the general wealth and savings of the people of the U.S. under false pretenses, to pay the debts of the Fed to foreigners; and

"Whereas I charge them, jointly and severally, with violations of the Fed Act and other laws; with maladministration of the h evasions of the Fed Law and other laws; and with having unlawfully failed to report violations of law on the part of the Fed Banks which, if known, would have caused the Fed Banks to lose their charters, and

"Whereas I charge them, jointly and severally, with failure to protect and maintain the gold reserves and the gold stock and gold coinage of the U.S. and with having sold the gold reserves of the U.S. to foreign Governments, foreign central banks of issue, foreign commercial and private banks, and other foreign institutions and individuals at a profit to themselves, and I charge them with having sold gold reserves of the U.S. so that between 1924 and 1928 the U.S. gained no gold on net account but suffered a decline in its percentage of central gold reserves from the 45.9 percent in 1924 to 37.5 percent in 1928 notwithstanding the fact that the U.S. had a favorable balance of trade throughout that period, and

"Whereas I charge them, jointly and severally, with having conspired to concentrate U.S. Government securities and thus the national debt of the U.S. in the hands of foreigners and international money lenders and with having conspired to transfer to foreigners and international money lenders title to and control of the financial resources of the U.S.; and

"Whereas I charge them, jointly and severally, with having fictitiously paid installments on the national debt with Government credit unlawfully taken; and

"Whereas I charge them, jointly and severally, with the loss of the U.S. Government funds entrusted to their care; and

"Whereas I charge them, jointly and severally, with having destroyed independent banks in the U.S. and with having thereby caused losses amounting to billions of dollars to the said banks, and to the general public of the U.S., and

"Whereas I charge them, jointly and severally, with the failure to furnish true reports of the business operations and the true conditions of the Fed to the Congress and the people, and having furnished false and misleading reports to the congress of the U.S., and

"Whereas I charge them, jointly and severally, with having published false and misleading propoganda intended to deceive the American people and to cause the U.S. to lose its independence; and

"Whereas I charge them, jointly and severally, with unlawfully allowing Great Britain to share in the profits of the Fed at the expense of the Government and the people of the U.S.; and

"Whereas I charge them, jointly and severally, with having entered into secret agreements and illegal transactions with Montague Norman, Governor of the Bank of England; and

"Whereas I charge them, jointly and severally, with swindling the U.S. Treasury and the people of the U.S. in pretending to have received payment from Great Britain of the amount due on the British ware debt to the U.S. in December, 1932; and

"Whereas I charge them, jointly and severally, with having conspired with their foreign principals and others to defraud the U.S. Government and to prevent the people of the U.S. from receiving payment of the war debts due to the U.S. from foreign nations; and

"Whereas I charge them, jointly and severally, with having robbed the U.S.

Government and the people of the U.S. by their theft and sale of the gold reserves of the U.S. and other unlawful transactions created a deficit in the U.S. Treasury, which has necessitated to a large extent the destruction of our national defense and the reduction of the U.S. Army and the U.S. Navy and other branches of the national defense; and

"Whereas I charge them, jointly and severally, of having reduced the U.S. from a first class power to one that is dependent, and with having reduced the U.S. from a rich and powerful nation to one that is internationally poor; and

"Whereas I charge them, jointly and severally, with the crime of having treasonable conspired and acted against the peace and security of the U.S. and with having treasonable conspired to destroy constitutional Government in the U.S.

"Resolve, That the Committee on the Judiciary is authorized and directed as a whole or by subcommittee, to investigate the official conduct of the Fed agents to determine whether, in the opinion of the said committee, they have been guilty of any high crime or misdemeanor which in the contemplation the Constitution requires the interposition of the Constitutional powers of the House. Such Committee shall report its finding to the House, together with such

resolution or resolutions of impeachment or other recommendations as it deems proper.

"For the purpose of this resolution the Committee is authorized to sit and act during the present Congress at such times and places in the District of Columbia or elsewhere, whether or not the House is sitting, has recessed or has adjourned, to hold such clerical, stenographic, and other assistants, to require of such witnesses and the production of such books, papers, and documents, to take such testimony, to have such printing and binding done, and to make such expenditures as it deems necessary."

After some discussion and upon the motion of Mr. Byrns, the resolution and charge was referred to the Committee on the Judiciary.
"Attacks on McFadden's Life Reported"

Commenting on Former Congressman Louis T. McFaddens's "heart-failure sudden-death" on Oct. 3, 1936, after a "dose" of "intestinal flu," "Pelley's Weekly" of Oct. 14 said:

Now that this sterling American patriot has made the Passing, it can be revealed that not long after his public utterance against the encroaching powers of Judah, it became known among his intimates that he had suffered two attacks against his life. The first attack came in the form of two revolver shots fired at him from ambush as he was alighting from a cab in front of one

of the Capital hotels. Fortunately both shots missed him, the bullets burying themselves in the structure of the cab.

"He became violently ill after partaking of food at a political banquet at Washington. His life was only saved from what was subsequently announced as a poisoning by the presence of a physician friend at the banquet, who at once procured a stomach pump and subjected the Congressman to emergency treatment."

- Robert Edward Edmondson (Publicist-Economist)

President Andrew Jackson stated in reference to the bankers at the state of his administration: "You are a den of vipers and thieves. I intend to rout you out, and by the Eternal God, I will rout you out."

Links between Bali/Jawa & Polynesia, Hawaii & America.

There is a much respected scholar in Bali, Prof Mertha Sutedja Mulyadinningrat, who has looked into the traces of early close contact between these vast areas. He wrote a small book as an introduction to the topic and showed some of the cultural and linguistic similarities. One is the near identical calendars and symbols in the calendars of the Balinese & Maya Indians of Latin America. Names, traditional weaving patterns and building techniques also correlate to a large extent.

Other examples are names like Hawaiki (were Polynesian & Hawaiians supposedly comes from) that means " little Jawa" (=Bali) in old Javanese language. Other examples are Honolulu meaning "eight islands" & Maomaori that means something like the "home in the far corner" etc.

For further inquiry into these topics one best start with Prof Sutedjas little book "Dharmayana, Leluhur kepurwa, bumi kamulan – America" ISBN 979-722-244-6

One possible explanation to why and how the Javanese/Balinese could have so extensive seafaring contact with far away places so early is that they had very close ties and intermarried with the Chinese Royals at the time. The Chinese were a very advanced seafaring nation with excellent mapping skills and who sailed the vast oceans on a big scale way before the Europeans started exploring the world. Some would claim Columbus actually had access to and used Chinese sea charts when "discovering" America. Another interesting book on that subject is "1421" by Gavin Menzies.

Dear MrBellringer,

Our response to ConnyMacbean's communication is below.

Response:-

Dear Connie Macbean,

Thank you kindly for your communication and attachments, routed through fourwinds10.com (Mr. P. Bellringer). Having read the Powerpoint summary I make the following comments below. I should also point out that your second attachment, being a .odp format, we can not open no matter what we do. We would therefore be obliged if you could notify us of what program you used to create this particular attachment.

Before you peruse further I must be blunt and say that I don't know who you are, whereby you could be covert Us Intelligence or Mossad, or similar, just prying for information. Personally, I don't care who you are or whether you are connected to any intel operation. The main thing is that you will be aware, and hopefully learn, from the content below, together with other publicised content, that the truth of the Collateral Accounts, its history, etc, is gradually coming out despite any attempts that the covert rogue intel services have, or will, make in the future, to prevent this

The Powerpoint presentation does not state where the information came from, neither does it support the content of the presentation with references that can be viewed independently by those viewing same, or name the author of same.

The presentation is, in my opinion, a summary of a report, but neither references the report nor the author of such report or even the presentation.

On this basis, it should be considered and construed as someone's perception of history referenced to the Collateral Accounts and the Wealth of the World, not necessarily as an official authority on this issue, which is a great shame because the presentation is correct in many ways. However, it does leave out many vital and important facts which in my opinion would be highly relevant to people making, or achieving, a far greater understanding of the whole issue. There are also areas which are built on one's perception and own ideologies, rather than fact which, in my opinion, are misleading and certainly would guide people to a completely different perception and understanding.

Before I continue on the subject of the presentation, I would like to relate to the factor referred to in your communication, which commences, "Our source is one of the signatories of the G.H.A. and on

our copy there is no mention of moving physical gold to the US. That would not have been part of the plan".

In a direct answer to that statement, you are in fact correct, there has never been any International Treaty, Agreements, or otherwise that demands, depicts, suggests, implies, or similar, the moving of physical gold to the US. In fact quite the opposite. All assets shall remain within their designated depositories, unless there is a clear and definable situation that indicates, without any doubt, that the assets are at risk from such factors as war, plunder, theft, political interference, or similar factors, whereby, and strictly under the irrevocable orders of the International Treasury Controller, the

assets considered at risk shall be devolved to another suitable depository in any other country that is deemed fit and properly equipped to ensure that said assets are safe and secure at all times. The decisions on such matters are at the disposition of the International Treasury Controller at all times, not individual countries, persons, groups, or otherwise, and whose decisions are inviolate.

In short, that means the actual physical assets never move, but are transacted by paper and strictly through the Central Bank Screen System.

If therefore assets move, or are moved, whether by, or under the

- > instructions of a country, group, persons, without such an order from
- > the International Treasury Controller, then the assets move because

Dear Mr Whistleblower,

First let me thank you for your quick response and excuse myself for not getting back earlier. **No thanks necessary for the quick response. The subject matter was one that demanded a quick response, whereas other more general questions directed at us were not considered as important at the time.**

I had to travel and get some face time with one of my sources before answering. That will not be necessary going forward. I very much want to see this through and see if we can come to an agreement on the historical aspect and what to eventually publish regarding the material in the presentation. I hope you can help us in filling in the blanks, correcting the facts and adding more meat and details to the bone so to speak all in the interest of achieving a far greater understanding of the whole issue. An understanding we hope to bring to the general public somehow. Definitely through Fourwinds.com but eventually also (hopefully) to a wider audience. I take heart at your comments below and hope that you can help us clarify some of what is missing.

However, it does leave out many vital and important facts > which in my opinion would be highly relevant to people making, or > achieving, a far greater understanding of the whole issue

For now, lets treat it as "someone's perception of history" and continue in that spirit.

If we can gain each others trust I see two goals we should be able to work towards.

- 1) Get an objective factual history presentation together and work towards getting that information out in the public domain. This is step one and should be easy enough to do. All to make it possible for people to have "a far greater understanding of the whole issue"

May I refer at this point to your item 1).

What concerns me here, is that your focus is mainly relevant to one quite small part of the whole subject matter. There are hundreds, if not thousands of other parts which all make up the bigger picture. Unfortunately, many of those parts are, or still remain classified “Secret”. These could be parts that are between Government(s) and other Government(s), Allied Powers and Government(s), and even privately between the various Royal Families of the World. You will understand that agreements, or arrangements, between various Royal Families are “Private Arrangements / Agreements”, and although some of these are referred to in a few Treaties, those Treaties are still held “Secret” whereby access is extremely restricted even at the highest level.

To get the correct and illuminating information, in its totality, out to the public domain under these circumstances is just not possible. Whatever is released publicly is, and will always remain a part of all relevant information and could be misleading to many, as numerous vital and important factors will, unfortunately, always be missing because of this ridiculous “Secrecy” Factor. I say ridiculous because one reason was the fact that the Royal Families agreed to the fact that these assets should be used for all Nations of the World, and not be allowed to be controlled, or taken possession of by those groups throughout the world that were gradually eroding and deposing Royal Families, in favour of what they referred to as “Democracy”, or groups with the ultimate aims of replacing (under a false Banner) the Royal Families and grasping the power for themselves. Again, unfortunately, it is one specific country that protects the “Secrecy” factor, which also allows for “Plausible Deniability” and the continuing Theft and Plunder of assets by the very same country.

We, I believe, are both aware of the various groups I am referring to, some of which do actually consist of disgruntled members of Royal Families, or very distant members of Royal Families, whose allegiances are not to their country, but to their ideologies and that of the groups they belong to.

Only 2 years ago, we came across a group who referred themselves as “Knights Templar” attempting to buy Gold which was stolen out of the Philippines and Thailand. They were working with the Federal Reserve and Deutsche Bank in Germany. Another example happened quite recently with another general inquiry to us. This one we saw through quite quickly and as it turns out we are now aware of how, in part, the “Jews” control many countries in Africa, utilising such organisations as the IMF, WB, and even the UN, plus various Intelligent Agencies.

Step 1 is not, and never will be, an easy one to achieve, not in a “one off” situation. In our opinion, this will take years of gradually “Nibbling Away” at the situation, which is our “Modus Operandi” at this moment in time.

In the 13 years following the appointment of H.E. to the position of International Treasury Controller, Legal Heir / Owner / Sole Arbiter, we have expended considerable time working and correcting the enormous amount of problems created by the previous Trilateral Trillennium Tripartite Gold Commission (USA, France and UK). These problems are so severe and numerous that it will take many more years to resolve them all, if that is ever possible, because they are so complex and tend to be linked to other not directly connected Treaties, Conventions, Agreements etc. of which the Reagan-Mitterand Protocols is just one

To quickly refresh your memory on the latter, if I may. Two illegal Presidential Decrees by Reagan that under US law

legalised what is referred to under International Law and International Treaty Law, as breaches of International Treaty Laws and illegal acts against the Collateral Accounts, which were applied to be used for covert operations against another country (Russia).

In order to give these illegal acts some visible but not legal basis / foundation, Reagan and Mitterand put together numerous countries in these separate protocols, without actually revealing the monetary source, so that the whole operation appeared to be of International Treaty Status supported by many countries of the world, when in fact the basis of such protocols were derived from the illegal acts of an American President / Government without any legal basis whatsoever.

It is this type of situation, of which there are many, which I refer to as “There are hundreds, if not thousands of other parts which all make up the bigger picture“. Deliberate inter-related activities, but most of which are totally separate and individual in their form, substance, and relatively to the Collateral Accounts, but all concocted / structured by the Americans to allow illegal use of the assets of the Collateral Accounts.

It is for this reason why I state that no one part of all of this can be taken / considered separately or individually from all other parts.

I can inform you quite openly that assets held in Indonesia, Philippines, Thailand, and some held by other countries, do, in fact carry illegal Liens / Charges imposed by those parties that are, and have been, illegally using these assets for many years. The American Banks (many of them) are all guilty of this, as is the American Government, Federal Reserve, British and European Banks, IMF and World Bank, UN, plus many others. This is one reason why the world is in such a mess with

approximately \$3 quadrillion USD in illegal derivatives floating around in the market that no one is prepared to pay against.

I do admit that we are partly to blame for this worldly mess, as we will tolerate the situation no more. The line was drawn by H.E. many years ago, when these illegal liens were first recognised. The first step was to stop all legal funding to the IMF and WB, Strange, but not so strange, that the IMF records a \$400 bill deficit in 2006 and who now wants to sell gold, recorded under the Collateral Accounts that they hold, to salvage themselves.

You should also be made aware of the fact that we are working with several countries that are equally dismayed, and totally disillusioned by the illegal practices of specific western countries, whereby in due course, we will, under special and applicable protocols, call the Nations of the World together to force the necessary changes that will bring about the real and original objectives of All Hereditary Owners of the Assets, as they are the only ones, as far as I am aware that can force the implementation of the purpose and objectives written by our forefathers, for the benefit of the world, via H.E. as the Legal Heir / Owner / Sole Arbitrator.

2) Try to work together using the channels/information you have together with the channels/information we have towards striving to force BoE/FED to implement the various agreements that was put in place by our forefathers starting in 1857. For a list of agreements we see relevant we can communicate at a later date.

This second task may be a bit overwhelming and next to impossible but worth a try.

Coming on to your point 2).

Next to impossible, is probably the right wording to use in this instance? With the majority of this information still held “Secret” one has to be ultra careful as to what information is released, otherwise the person or party releasing such information would be in direct breach of numerous International Secrecy Laws, Official Secrets Acts, or similar, many of which can result, and probably would, in serious International repercussions, and also place the life of that person or persons in jeopardy.

Let me explain a little more. Certain International Treaties (mainly The European Ones) are not actual Treaties but are “Armistice Agreements” under the guise of International Treaties. Such “Armistice Agreements” have a limited term 20 – 25 years, some with a 30 year term, which, at term end, could refer back to the actual situation prior to such “Armistice Agreements” being executed. That would, in our opinion, create war in Europe and possibly other areas of the World, which no one with any sense, wants to see, or be the cause of. Better, in these circumstances to maintain the “Status Quo” for the sake of World Peace.

Additionally, it would be totally impossible to find a party (Press, Web Site, Blogs, or similar) to publish anything because in most cases, the responsible ones would check it out first. Once establishing the “Secrecy” factor that surrounds most of this, they would run a mile, and ask you to leave their offices immediately, never to return. If the more informal but publicly dominated areas were explored, such as Private Web Sites, Blogs, you can be certain that they will be either shut down or blocked, without any delay, and the operators of such sites prosecuted on trivial false evidence, but sufficient to allow them an extra long holiday at the Nation’s expense.

The above has happened in the past, and even present day, but of course it is rarely known because it is undertaken in a certain way so that the Truth is never revealed or becomes part of any criminal or civil Court actions, much to our distaste I add, therefore any information released, whether by myself or anyone else known to us, or anyone who approaches us, must be cleared by H.E.

The reason why I state the latter is because H.E. is an Internationally Protected Person and can never be prosecuted. He is as adamant as much as anyone else that the truth must come out, but at the same time, he knows the dangers to all those persons who are involved in revealing the truth. Such disclosures must therefore have H.E.'s approval and protection behind it, at all times. No approval, then no disclosure, as it would endanger all those involved, which is not the objective at all.

With respect to your good self and your colleagues, you need to seriously consider this factor before moving forward on same. Yes, we all want the truth to come out and the World put right, and as it should be. However, the forces against this are immensely strong and powerful, and do not hesitate to remove people from the scene, where necessary.

This is an area that even Presidents of some countries, with all their security and power, will not become involved as they fear the consequences.

When any part of this subject is publicised anywhere by anyone, those people need to be absolutely 100% sure that they have their facts and figures correct, otherwise more damage can be done than what one could imagine. There are stories abound, complete with documents (most of which are fakes), which all appears to be real and people believe it. This is where the problem lies because the Truth is never believed because

their minds have already been programmed with falsities. The Philippines, Thailand, and Indonesia are typical of many countries where stories which contain some truth but largely full of falsities, are numerous and believed by many, to the detriment of the truth. This is where the damage is caused because the truth, or what can be revealed at any one time, is never believed by the public at large.

People who write to various Web Sites and Blogs on this very subject are generally misinformation specialists, or those who are using the public to believe what is written, with the intent of Financial Benefits by those who start this all off.

We get sick of reading all this bullshit, because some truth is there, but then it is distorted by the falsities. All very plausible and appearing to be the truth by the innocent minds, but much of it so far from the truth that it would be easier to catch a bus to the moon than rely upon what is currently, and in the past, published on this subject.

Let me introduce myself. I am a private person not connected to any group, organization or secret service of any kind who finds himself receiving information and documents from a few different sources. It is appreciated what you have commented about yourself, but unless we know you personally and you hold the relevant security level clearance, we, unfortunately, can not disclose classified information to you. In due course, over a period of time, such information will drift out, as and when H.E. The Chairman deems fit and proper.

One of the sources are Mr Sw who is one of the signatories on "our" version of G.H.A. Can I assume that the Mr Sw you refer to is that of Mr Soewarno. If so, you may be heading in the wrong direction completely. Mr Soewarno is named by former President Soekarno as a "Secondary Holder" along with "Miss

Sarinah” and others, none of whom held any power over the assets.

In fact Mr Soewarno was working closely with UBS with certificates he held following the demise of former President Soekarno, and although Mr Soewarno is now deceased, UBS are still issuing false certificates against those Soekarno Gold Certificates. The latest we have on record is one issued in 2006, signed by Marcel Ospel and Sir Peter Davies, for 100 mill USD, against a Gold Bullion Certificate.

Soewarno has always claimed he owns them, but he has no idea as to the identity of the account signatory and account holder. Soewarno was just the holder of the certificate and could do nothing with them unless he and a crooked bank got together and did things behind closed doors, which is exactly what was happening.

Unfortunately, Soewarno hasn’t got any credibility and the documents he issued have even less. None of the documents we have seen hold any genuineness about them, and none match the “Library Copies”.

I will be blunt, for which I apologise. If I am correct on this, you would be better off staying silent, unless of course you can verify the documents you hold direct with the relevant persons and the Library Copies.

You can find a copy of that at kebenaran555@gmail.com. Log in using U7P4Mwaq and find the GHA in G-mail photos + some additional information in a draftbox mail. **In respect of the copy documents. This is also appreciated, but I have to say that we would need full certified copies of same, delivered to us by courier mail so that every little item can be checked. To do this from e mail copies is not possible because there are certain security marks that are highly relevant in such documents,**

whereby we would need to verify them against the “Library Copy”.

Having stated that, the colouring of your scanned copies does portray a copy of a security paper print, which actually scans in the brown colour and not the original colour of the document. Scanning does not eliminate the security markings which can be viewed via special equipment.

I send it to you this way since then it does not actually get "sent" = scanned between two e-mail addresses. As far as I know intel services are not yet officially allowed to pry into private peoples e-mail accounts but are free to search sent/received e-mails. Correct me if I am wrong. Also comments and perceptions regarding these documents are welcome. **In respect of your methodology of sending communications. What you have implemented does work, however, the computers, or some of them, of various agencies look for unusual patterns. Dead End addresses, as you propose, are unusual patterns and would attract the agencies like bees around a honey pot. It is far safer using Airmail addressed to individuals. It may take longer, but safety and security is paramount.**

I have an OK from my sources to expose what I receive so I am not bound by any confidentiality agreements or break of trust. It has to be done in as a factual and objective way possible leaving the reader to make his own conclusions. (and we do realize that they will differ widely based on preconceived ideas/ideologies) **Whilst we are on the subject of communications, such communications, or release of information to the public must be 100% factual and allow very limited room for personal perceptions. The over-riding premise must always be in anyone’s mind. What they perceive about the information that surrounds the over-riding premise is not controllable, but such**

perceptions can be limited so that the over-riding premise is always prominent in their minds.

No one can afford to allow any misconception by anyone else. The truth is the truth and that is how it must always be. Lies are dissolved by the truth in the average persons mind once they start their own investigations and commence comparisons of information.

Having said that, I do apologize for that parts you noted as slanted and lets try and correct them. **No apologies necessary.**

We (as in you, me & my sources) share a desire to expose a very corrupt system now run by a very small elite for the benefit of a few and the enslavement of many. The few who highjacked a very noble plan and used it's building blocks (UN, WB, IMF, FED etc) for power plays and world rape. Let's focus on what we have in common (expose the system and give people a clear understanding of history) and not get derailed by what may be our differences. **Yes, we certainly share a desire to expose a very corrupt system operated by a few to the detriment of the masses. I certainly like the work "Highjacked" because that is exactly what happened over decades, and it is a word we use occasionally to explain what happened, as people understand such a word quite easily.**

As for total exposure, very difficult because of the "Secrecy" factor and the fact that there are far too many fake and fictitious documents floating around that subordinate the truth.

The truth can only come out in time, and upon the approval of H.E. The Chairman, as these fake and fictitious documents are gradually being remove from the world market place. In fact, since 2003 no bank other than our own Institutional Bank, can issue any certificate against any of the old Heritage

Certificates, or any assets of the Collateral Accounts, whether under the name of Soekarno, Soewarno, Soenario, Marcos, Noriega, DeGaulle, Arafat, or others. Since 2003 all the old certificates, whether invalid on date or not, have been retired and are no longer valid. New Certificates have to be issued by our own Institutional Bank.

You have to understand that it is easy to perceive the OITC as being a creation of the forces behind the BoE/FED to gather up the last little threads they don't already control. A "sheep in wolfs clothing" is one description I have heard. In the Asian experience there are many examples of noble institutions, set up and worked by noble people with great intentions that have not quite worked out as planned. UN, WB, IMF being some of them. They put a whole lot "in the communal pot" and have very little apart from abuse to show for it. **I certainly like your "A sheep in Wolfs clothing" statement. Yes, on the surface that how it has been perceived by many since 1995. In reality, this is so far from the truth that one has to smile at such statements. It is a general perception based upon published facts, but an incorrect perception. If I may at this stage reiterate the fact that if the truth is to be known then it must be undertaken carefully and nothing but the truth revealed, otherwise perceptions go wild. When the truth can be verified, some perceptions disappear out of sight completely.**

Trust has to be earned at this point I guess. **Truth is always there. Respect is what has to be earned, and from respect develops belief whereby lies disintegrate.**

Here is one line of thought..

OITC was set up in 1995. A few years before a large number of Gold certificates loans were set to run out. Running at 33 year cycles they were first lent out in 1930-35 to fund the "New Deal" in the US, re lent in 1963-68 and set to mature in 1996-2001. My

guess is that the banking world was desperate to have a new M1 in place before that date or a very large number of banks would find their vaults sitting on Gold contracts that needed to be re signed. I make reference here to your “Line of Thought”. First point here is that most of these old Certificates carry a 25 year term or 30 year term only. Your 33 year term doesn’t equate. The Thirty (30) year term, being maximum under International Law. This may not be visible on the actual old certificates because dates were usually embedded into numeric codes.

One of the major uses of these certificates came in 1933 / 4 with the USA, refinancing following the great depression. In return the USA, as is always the case, issue a series of Obligation Certificates covering the amount loaned, plus Custodian Fees and Costs. This is why you have the Federal Reserve Notes, Federal Reserve Bonds, American Dream Bonds, Wells Fargo Notes / Silver and Gold Certificates, J.P.Morgan Bonds, plus many more, secreted away in the Philippines, in various designs of boxes, safes, crates, etc. Yes, if you are thinking it, it is probably correct, which are the very certificates that the America rogue agency have been stealing for many years, and which many others have attempted to use for personal gain.

The debt to the Collateral Accounts has never been repaid by America. In fact the debt is now fully collaterised by every ounce of Gold, Silver, Oil / Mineral wealth, Government Buildings / Land / Property, or other assets, titled under the US Government.

Even the Banks who either legally borrowed from the Collateral Accounts, or illegally used assets, ended up issuing Bank Debenture Stock guaranteed by the US Government. Does that ring a bell with what is currently happening and the Nationalisation / Bail Outs of Banks There is always an alternative reason which is never publicly explained.

I don't think the dates stated by you have much relevance, except of course to the long term debt factor agreed with the Collateral Accounts. However, we could both be wrong on that because the very dates you state are dates in which the Trilateral, Trillanium Tripartite Gold Commission (USA, France and UK) were in charge of the Collateral Accounts when they appear to have done exactly what they wanted to do and disregarded all others, so normal circumstances / procedures were subordinated to the whims and desires of the TTTGC, as and when they required it.

So a suitable person was found early on to fill the place, educated and "groomed" by US & western interests and finally "elected by those qualified to elect" to fill the role. My guess is that the first actions of the chairman was to re sign a lot of contracts to keep the stability of the banking world intact upon his appointment. Again, please correct me if I am wrong. **Re: "A suitable Person". In fact the way in which the world portrayed this issue is incorrect. Please let me explain. It was the Royal Families of the World who nominated H.E. Dr. Ray C. Dam, not the Americans as many believe. Dr Ray C. Dam is in fact a member of a Royal Family and was the over-riding signature during the time of the TTTGC, whose purpose was to ensure that the TTTGC did not abuse the accounts? As we are all aware, Bankers and Governments are very good at finding the holes and conjuring specific actions out of thin air, so the presence of Dr. Dam did not prevent abuse. However, it did allow him to report what he saw, and knew, to the Royal Families, who decided to stop the rot and not extend the 50 year term of the TTTGC.**

It was at this stage that the Royal Families of the 42 Nations decided to appoint one man as the Legal Heir, Owner, Sole Arbiter of the Collateral Accounts, much to the despise of the Americans, French and British establishments. That man was

Dr. Ray C. Dam, a member of their own clan, so to speak, with which the Royal Families were very comfortable.

Unfortunately, the hatred of the Americans, French and British excelled and they ensured that they maintained control of the mechanism, which was necessary at the time based upon the US Dollar being the World's Reserve Currency. It is that control which largely prevents proper use of the Accounts for the benefit of the world.

To give your more insight into Dr. Ray C. Dam, which is confidential, and hinges mainly upon the personal aspect of his life.

It was the French who assassinated his Parents, being the former Sovereign Monarchs of a specific country, for which he will never forget.

It was the Americans who supported the French throughout this unfortunate period of time.

The Americans took Dr Dam outside his own country and placed him under the custodianship of a US Sympathiser in another country, who treated him as a House Boy, and apparently very badly. He will never forget that episode in his life and largely blames the Americans.

When the Americans finally took him to America, having been partly conditioned by the American sympathiser family, he was educated to a specific level and then moved to the U.K.

He was being groomed to be something he didn't want to be, and he knew it, so played along with it.

Following his education, he was sent to Germany to work and train in the Bundesbank. From there into Russia, to the Central Bank of Russia. From there back into the U.K. to the

Bank of England, and then back to America, where he was employed in the Federal Reserve.

He was soon placed in charge of the Politically sensitive division and knew an awful amount about the accounts, finally to become signatory to the accounts.

The Americans believed that they had programmed him sufficiently to be able to control him, but in fact the opposite was applicable. Dr. Ray C. Dam developed a negative attitude to the Americans, French and British, and knew exactly what these Nations were up to.

Through Royal Family protocols, Dr. Dam alerted the Royal Families and provided them with evidence to support his claims.

When the Royal Family intelligence operations finally got to work and established that Dr. Dam was in fact the Hereditary Monarch of a specific country. It is at that time that things started to change.

Dr. Dam is not his real name. It is a name given to him by the Americans when he first went to America. His real name is that of the Royal Family of that specific country which many still recognise today. Neither the Americans, nor the British, will allow Dr. Dam to enter their countries, nor will they provide Visas for his children to be educated in either America or Britain. He removed himself from aligning with the French as the French still support the family of the elected King whom they elected way back decades ago.

I, and others in the OITC, have personally experienced Dr. Dam's acrimonious attitude towards the Americans, British and French, whereby he is determined to ensure, no matter what it takes, that the Collateral Accounts, or any part thereof,

are eased away from the Americans and ultimately used, as assented to by the Nations of the World (Royal Families), for the betterment of all Nations and People of the World.

What we are doing right now and what we are achieving will ultimately see this happen. However in the meantime, we have to operate strategically and slowly, otherwise it may all be destroyed by the actions of America who are as cunning as a fox and ultra devious.

Personally I do fully believe that you and your team are fully committed to pursue the aim of the goals set out in "The plan of the experts" and make this a better world for all. I applaud your efforts and commitment in hindering the "hardliners" in their pursuit of ultimate control. We all agree that if the agreements that were put in place since 1857 and forward were honored the world would be a better place.

One of the factors which Dr. Dam implemented was to stop all legal use of the Collateral Accounts by the IMF, WB, and UN. This was done on a percentage basis reduction over X years from the year 2000. Surprisingly, but not so surprising, the IMF recorded a \$400 bill loss in 2006. Also surprisingly the IMF wanted to sell some gold they hold as custodians, which was also prevented, as the gold is part of the Collateral Accounts. It goes on and on, but the main factor is that results are showing Dr. Dam's actions are taking effect. This is why I earlier state that we may be partly responsible for the Economic and Financial Crisis in the World today. America owe to the World, an awful lot more than what is being admitted, and they have no intention of paying, so in Dr. Dam's opinion, they have to learn a very hard lesson and start to live within their means, irrespective of the negative effects..

People ask why don't we help America out and let them use assets to balance themselves up, thus bringing stability to the

world. Well, the real truth is that it has been attempted before, back in Roosevelt's time, and following the great depression. America never learned its lesson then as they still went on spending as if they owed nothing to anyone. They have carried on like that ever since with an acceleration of their internal financial and economic policies since the 70's.

In Dr. Dam's words, quote "We do not finance any country that uses such finance to go out into the world and attempt to control it, dictating and enforcing their ideologies, by whatever means they desire, whether financial warfare, military warfare, or otherwise. Neither do we finance crooks and thieves".

I also do hope the "new financial system" you are working on does not include a cashless society model where every economic transaction will have to go through a bank since it should be more about empowering people and less about controlling them. In my mind a "year of the Jubilee" is in order where people and Nations are set free from the bondage of debt. This last thought is very much my own and does not represent any others. **Reference to the new Financial System we have developed. I can assure you that this is not a cashless society, nor is it based on fiat money. It is an Asset backed International Monetary Unit, which automatically, by association, backs the currencies of every other country in the World. The asset backing is provided by the Collateral Accounts.**

If we take the total world GNP, it is in the region of \$55 trillion USD (If my memory is correct on this, if not please correct me). This means that the accounts will need to provide \$55 trillion in assets (Gold, Silver, Platinum, etc) based upon a Gold Price standard. However, there is far more to this than just a new System and new International Monetary Unit. Control, Administration, Regulation, is also a very big part of

the new system, whereby maximum leverage will be x 10. Anything above that will be criminally illegal. Banking and Corporate Laws need to be amended. Gone will be the IMF and WB, plus the International Development Banks. Introduced will be a full international representation through several Regional committees and one International Committee, removing the need for the G7 and G20 etc, who are all politically motivated.

The whole new system will be run by each and every country of the world, through the International Treasury Control. Politics and Foreign Policy will not enter into the Financial and Economic fundamentals of the World anymore.

On that point I will say no more because we are still working on the intricacies of the system, whereby we do not wish to release information until we are ready to do so, otherwise those in power will claim it shows weaknesses which can not be tolerated within any new system, just to protect their old dilapidated system which can no longer work, and which is so far past its "Sell By" date, that it is no longer fit for human consumption.

What I hope you can do is read and comment on the presentation page by page.

For example, Page 1. Don't agree with.. Do agree with \$B!D (B Added detailed info. **Not really possible because of the way the content is presented along with the many questions and nuances.**

For instance detailed info on how at various stages the "bad" elements tried early on to hijack the system or more details and meat on the bone regarding how the "banking/Rothshield" side has played out their agenda over time would be helpful. **We do agree 100% with your comments, that if agreements, treaties,**

conventions, etc since 1850 onwards, had been allowed to operate and function correctly over the years, the world would not be in such a predicament as it is now, nor would much of what has happened negatively in the world over the 150 years, would have happened at all. The world as it should be, never will be until the people who constantly desire and propagate civil unrest, and believe they can steal or use these assets freely for their own purpose: are removed from their positions and brought to justice with long term incarceration. If the public have a choice, I personally see court cases and incarceration being bottom of the list, with “Hang them first and ask questions later” taking the number 1 slot.

The problem is with those who have manipulated the whole system and interpreted such agreements, treaties, conventions, etc. in a way that benefits them only, and forcing other countries to apply and be subservient to.

Coming on to the “Bad” Elements. This actually goes back hundreds of years, and one can quote the “Crusade Wars” in the Middle East. The Jews, Catholics, Christians, Knights Templar, Knights of Malta, etc, etc, etc.

The target, as with most other wars is the wealth of the countries involved. King Solomon’s treasures, The Aztec Treasure, The Inca Treasures, The Egyptian Treasures, and so on, are all part of the Collateral Accounts.

Knights Templar, still claim to this very day, title to these treasures, as does the Knights of Malta, the Christians, and the Catholics. They all do their utmost to steal back what they believe are rightfully theirs as “War Booty” generally, even though indirectly, they executed the very Treaties, agreements, conventions, designating all such treasures to the accounts to benefit the world and its people.

It was in the mid to late 1800's that the Jews, who controlled the European Banking industry started to flex their muscles, which became far more evident in 1907, following the financial turmoil in America, and the 1910 with the Jekyll Island Treaty. It was these persons, all Jewish Bankers, that structured the Jekyll Island Treaty, which was their first visible attempt to hijack the Collateral Accounts (as they are now known) and bring them under the control of the Banking fraternity.

This was quickly recognised by the Royal Families of the world, whereby Emperor Hirohito of Japan designed a scheme which would isolate the Collateral Accounts from the grasp of the Banking fraternity. This was assented to by the Royal Families under the 1920 London Treaty.

I will not go into the actual structuring as it will divulge the mechanisms to be applied to access the Collateral Accounts, which are very complex, whereby no one person involved within the operation of the Collateral Accounts, knew any other one person, who were all scattered throughout the world, as indeed the assets were.

From 1920 onwards, even during the years of WW II, the assets were secreted away in numerous countries under the terms and conditions of the 1920 Treaty, which included assets sent to Indonesia, Thailand, Philippines, Cambodia, etc, etc, etc. No one country was allowed to hold assets that it may have had a claim to at any time, e.g. Assets in Indonesia are not, and never have been assets of the Indonesian Country. The same principle applies with the Philippines, America, United Kingdom, Russia, etc, etc, etc.

It was in 1944/5 with the Bretton Woods Treaty, again made up of mainly Jewish Bankers, structured everything which would allow a final hijack in due course. The United Kingdom whose currency was at that time the Reserve Currency of the

World, which was also the heart of the Jewish Banking Fraternity (Rothschild), had removed the Gold Standard years prior to 1944/5.

Within the Bretton Woods Treaty, the British Pound was to be removed and substituted by the US Dollar. Within a “Side Agreement” to the Bretton Woods Treaty the Collateral Accounts were to be operated, Administered, and Controlled by the TTTGC (America, U.K. France) as the Allied Powers, but also because the US Dollar was the International Reserve Currency and therefore operated out of NYC and DC. via the Federal Reserve and US Government.

Shortly after the Federal Reserve System was introduced. This is legally a separate entity to the Federal Reserve, and introduced into various countries in Europe as well as America. It was this Federal Reserve System that was to partly utilise the Assets of the Collateral Accounts.

This is where everything started to go wrong, but not recognised at the time. The fact that power and control rested entirely in the hands of America, the Federal Reserve System, and supported by the Allied Powers.

Also involved in the Collateral Accounts was the “War Booty” from several countries, which was to be used within the reparations between countries following the war. Any balances were to remain with the Collateral Accounts.

Now you should be able to see how the Allied Powers, lead by America, started to control the world.

As time went on, America borrowed more and more money from the Collateral Accounts, never having any intention of paying it back. At the same time, the under-pinning of the USD by the Collateral Accounts was diminishing. This was supposed

to be a 10:1 ratio (10 USD to 1 USD value of Collateral Account Assets) It was in 1963 that President Kennedy attempted to put right the wrongs of the past and bring the ratio back to what it should be. This is when the Green Hilton Agreement came into effect. Its purpose was to allow more dollars to be printed under the 10:1 ratio rule, to increase World Trade and World monetary supply.

Needless to say, we all know what happened in Now 1963. The Green Hilton Treaty was never recognised by America, and never has been to this day. Various fakes of the GHT (or Agreement as known by many) began to emerge. So no one really knows which the real one is. A deliberate attempt to confuse people and deny legally, etc.

We then go through to August 1971 when Nixon removed (abolished) the Gold Standard, Fiat currencies were effectively born and every country in the world were compelled to follow suit. All of this under the banner of “Monetarism”, later to be referred to as “Global Economy”, “Free Trade”. At this juncture one must look at the various advisors around Nixon at the time. Many were of one specific religion and well connected to the Banking Fraternity of America and the UK.

Gradually, over the years since 1971, regulation has been eased, under the pretence of enhancing International Trade and Competitiveness. How people were fooled, and still are fooled.

During all this time 1944/5 – 1995, and even to present date, the TTTGC totally abused the Collateral Accounts in their own favour, but also abused the Accounts in a Monetary Warfare philosophy throughout the World, bringing down democratically elected Governments in favour of their own people. Currency raids to enhance their foreign policy, and so forth.

The Royal Families of the World, together with some Nations who were not aligned to the Allied Powers, realised what was happening but could do nothing as the TTTGC Gold Commission was effectively written in stone. At the same time the Royal Families of the World did not desire to create another serious conflict in the World, so they waited until 1994, when they unanimously agreed not to extend the 50 year term of the TTTGC, but to recover their power over the Collateral Accounts, and remove all traces of dominance by the Allied Powers, more so America.

Hence the 1995 appointment of H.E. Dr. Ray C. Dam.

Various Indonesians (Filipinos are the same) attempted to claim the assets held in their country, even to the extent of lobbying the US Government heavily, and on many occasions All without success, and a few ending up incarcerated for many years.

It was in late 2001, that several top people in Indonesia approached Dr. Ray C. Dam, regarding the assets. Apparently they were shown absolute proof of ownership under the Collateral Accounts, and even accessed the accounts to Screen Print all Account Details.

Recognising the Truth, they acknowledged the various Treaties, documents, information etc. but then referred to “Heritage Rights (Custodian Fees)” over the assets held within Indonesia. This led to the 2003 Bangkok Treaty (recognising the Rights), which is legal and effective, and will be honoured.

However, America has illegally applied a lien on the assets in Indonesia and several other countries, to prevent their use by others, and thus preventing custodian fees from being claimed, paid, or payable.

This lien is where the problem arises today with the enormous debt accumulated by the American and British Banks, as well as Governments. To date we have a figure in excess of \$3.35 Quadrillion USD, debt factor, made up of illegal use of the assets by the banks and governments, which are supposed to be the collateral behind all these derivatives. To give an example, J.P.Morgan are in for hundreds of Trillions of Debt when they illegally used Gold Assets held at the Bank under Custodianship Rules, to produce “Over the Counter” Gold Derivatives, sold through “Off Shore” domiciled corporations. Citibank are in for approximately \$700 billion USD of Debt for their illegal use of the Assets.

All this debt is guaranteed by the US under the various treaties since 1944/5, which is something they cannot eliminate or extinguish. The debt must be paid,. Alternatively, we are using the assets irrespective of any illegally applied Lien, leaving America to sort out their self generated problem, as we do not, neither does any treaty, recognise illegal liens.

It is taking us vast amounts of time to sort all this out. We are also taking other actions that I cannot disclose at this moment in time, other than to say changes have been implemented and are still being implemented, and will continue to be implemented until the Collateral Accounts are fully under control and being used as per their original purpose, for the benefit of ALL Nations of the World and the people of the World.

I do not desire to focus on the Rothschild factor too much as they are just part of the problem, along with the Rockefellers’, Kissinger, and many more. The problem itself was compounded by various other parties, such as Governments, Foreign Policies, Monetary Warfare, and the like. Thaksin Shinawatra is another good example. He is not a Jew, but he is

a puppet of the Bushes. Stealing assets held in Thailand and Cambodia. Warned 3 times and told to stop and replace everything which was missing. He didn't and on the Third occasion it was manipulated to depose him and bring charges for menial crimes to prevent exposure of the assets and Collateral Accounts. He is now a fugitive on the run and dare not return to Thailand. His Wife, an accomplice, has a 5 year jail term against her, which she is appealing against.

There are others, whereas the routing has started and will continue, until everything is finally sorted out and the accounts brought back under proper control and used as intended.

Also if actual figures are off such as 7.5 million metric tones (11 is also a number that has been mentioned) and you are not in a position to divulge the correct ones maybe such specifics are best kept out of the presentation? **In respect of the actual MT volume of Gold held within the Collateral Accounts. You are low with your figures and you should be working on an absolute minimum of 20 million MT of Gold alone. In addition, you have thousands of tonnes of Platinum, Silver, Thousands of boxes of precious gems, plus Sovereign Certificates which are collateralised by other mineral wealth such as Oil, Copper, Bauxite, Uranium, Nickel Babbit, Ancient Treasures, Works of Art, Sovereign Monarch Treasures, etc, etc, etc.**

The wealth is enormous. Far more than anyone would believe, and at least 100 quinrillion USD more than what is required to put the world to right.

We understand it is a very "dangerous & murky" world out there. This side is very traumatized. Last time they stuck their necks out and came to the bank with all the necessary documents and signatories was back in 1984. An Asian group showed up at UBS with all the right papers including "The 3 roses" box. That lead to Robert Palmer (I believe it was) issuing an order for 7 T to be

transferred from the FED to Europe within 24 hours. That transfer order was picked up by CIA hardliners who sent a hit squad to eliminate the people and confiscate all the documents. That CIA order was again picked up by MI5 who responded by sending their "Zulu" group to protect them. The CIA group had support from 7 of the Swiss Kantons so the rescue was a mayor undertaking. Supposedly 20 people died but the key people and documents were sent back to Asia secure. You should be able verify some of this. A mayor gunfight in and around UBS headquarters should be hard to cover up completely I would think? **“Dangerous and murky World out there” is an understatement if I may respectfully say so. So dangerous that even the banks have their own assassination squads, and these people would go to all lengths to stop the world gaining from the benefits of the Collateral Accounts.**

The rest of your statement here sounds about right. Move to far and too fast without all pieces being in place, and you will end up dead, without any question. Hence why I previously have stated that you ought to be fully aware of what you are doing especially if you are not part of the operation and carry no protectorate or immunity, as you will end up dead. I have no doubt in my mind that you are probably being watched right now and monitored. Get too close and you will have serious problems which we can not assist you with. Others have tried it before, only to be eliminated or incarcerated on trumped up charges.

I will try and verify what you have stated here, when I next meet with H.E. Dr. Ray C. Dam, However, it was before his appointment as International Treasury Controller, so he may not have all the information although it will be recorded, Whether he desires to dig up old bones, so to speak is another matter. Sometimes it is best to let sleeping dogs lie.

As for Robert Palmer, definitely rogue See Eye Aye. He has been at it for years, including attempting to illegal use assets from the China Foundation, and the Mae Hua Trust. Keep your distance from this man because he has accomplices, one of whom we know of very well, who is a mentally deranged person who was removed from the legal part of See Eye Aye for illegally assassinating 6 persons without permission. He was immediately recruited to the rogue element of the See Eye Aye. There are many more, most of whom you would not recognise or know if you passed them in the street. At the same time, you don't really want to know these people. Better to make friends with a crocodile.

One of the side effects of this 1984 drama was that Ferdinand Marcos in the Philippines lost his grip on power. Up to that point, the banking world had guessed/assumed that he was 3/3/3 or "the man with no name". A signatory for hundreds of key accounts. In fact the person who showed up was his cousin. They shared the same grandfather who was the Chinese Royal active with PB X in the 1920's recall of funds. Their bloodline goes all the way back to Djengis Kahn. Also a great collector of huge amounts of Gold. **Re: Ferdinand Marcos. No he was not the signatory to many accounts as stated. He was the senior Custodian on behalf of the Republic of the Philippines (The same factor applies to the so-called Soekarno Assets). The real Signatory, who Imelda is still attempting to use is known to us. This person is (was) signatory to 849 accounts held in 368 banks throughout the world. In fact I stated this person IS the signatory. No, not anymore. The name has been removed ever since they attempted to access the Japanese accounts using the Yakusa.**

These people do not know who I am, but I worked undercover with them for approximately 2 years. I even had the signatory held safely in a safe house in Bangkok, but then through a Filipino Priest, the person succumbed to a massive payment by

Imelda and returned unexpectedly to the Philippines. It was then that the signatory was removed completely from anything to do with the accounts. I am aware that the signatory died approximately 1 year ago in a freak accident.

We are aware of the Chinese Royal Family connection of Marcos, and yes it does go back to Genghis Khan, as well as Mao Si Dong.

This connection really means nothing as Marcos did not get his position through the Royal connection. He was in fact See Eye Aye and Lawyer to St. Romano (See Eye Aye and Vatican Ambassador), connected to General McArthur and General Lansdale.

What people who were present at both the signing of G.H.A & the 1984 debacle will tell you is that Soekarno was not always Soekarno. Other people also signed using his name. Verification of correct signatory ID is done using blood DNA. **We also appreciate the fact that Soekarno was not always Soekarno, and his signature was not always that, or one of the four known and recognised signatures on record. You are absolutely correct when you state that verification is by DNA. This is common with all World Leaders, and certainly common within the Royal Families and the upper echelons of World Society.**

We are aware that DNA is verified with Blood, Hair and Skin or Bone sample. All three have to match otherwise no one takes a blind bit of notice. Library copies of ALL Agreements / Treaties, Conventions, etc are also kept on record, so fakes are easily recognised., even if the fakes use security paper, some of which was left in the Philippines many years ago and which the Filipinos have been using, illegally of course.

Coming back to Marcos. There was only one other person on record to succeed Marcos. Again DNA samples were taken. No other person in the Philippines or anywhere else in the world should have possession of any certificates, etc other than Marcos or the known successor. Many have tried and many have ended up dead or incarcerated. On the World Gold Council Blacklist many are Filipinos, which is not at all surprising. Even that successor has relinquished the post, whereby the assets in the Philippines are now under Custodianship of a person who is not Filipino and not resident in the Philippines.

There is a lot of ground to cover. For technical things not suitable for the public domain please suggest an alternative way of communicating. But first, let's do our best to try and get the historical aspect of this as correct as possible and out into the hands of the public. **The safest method is AIR MAIL, or recorded / registered AIR MAIL Email, no matter if it is encrypted or not, is not 100% safe and secure.**

In the hope of getting an in debt response and lots of future constructive communication going, **Yes, but we really need to know you and your colleagues before we go too far, and I need to consult with Dr. Dam on these matters, as he is the one with the knowledge and access. To give you information which is not based on fact, or official record, is not my way of doing things, nor is it the way of the Dr. Dam or the OITC. Some fact can never be released, some, not so secret fact, has already been released. The problem I have is that I am now retired, and although I assist Dr Dam when it is needed I can not be available all of the time, especially at this moment in time as I have to go into hospital for a major operation, but I will attempt to be active from the hospital bed.**

Best Regards, M

P.s I have found all your postings on Fourwinds a very interesting read. I am not sure I have all of them though. Can you please send me a copy of all the postings together with any other material you have written and made public elsewhere? It certainly helps to get the fuller picture. Thanks. D.s

These will need to be sorted as there are a great many of them, some of which are irrelevant, some are of a personal nature to other respondents, some have just been communications with no publication of same.

I will attend to this in due course, but for the moment this is something I can not attend to yet

Referring now to your attachment. Your list here is only partly correct. There are an awful lot more assets, hereditary lines, origins, National Wealth, etc, within the Collateral Accounts that what you have listed. You certainly have a reasonable historical background, indicated by your definitions, which I find a little unusual considering you claim you are an ordinary person. Perhaps you would care to explain how you have such knowledge, when others who are actively involved do not have the same knowledge.

I apologise for being so direct here, but we do get “Spoof” communications from all sorts of intel agents, all trying to discredit the real information, who then post their manipulated and disinformation articles (complete with a degree of fact) to Blogs and various web sites. We therefore are very careful, whereby we do now insist that full names and addresses are revealed, which we check out before responding. We will no longer respond to anonymous or pseudonym communications.

Yours faithfully

How Bush's grandfather helped Hitler's rise to power

Rumours of a link between the US first family and the Nazi war machine have circulated for decades. Now the Guardian can reveal how repercussions of events that culminated in action under the Trading with the Enemy Act are still being felt by today's president

- Ben Aris in Berlin and [Duncan Campbell](#) in Washington
- guardian.co.uk, Saturday 25 September 2004 23.59 BST
- [Article history](#)

George Bush's grandfather, the late US senator Prescott Bush, was a director and shareholder of companies that profited from their involvement with the financial backers of Nazi Germany.

The Guardian has obtained confirmation from newly discovered files in the US National Archives that a firm of which Prescott Bush was a director was involved with the financial architects of Nazism.

His business dealings, which continued until his company's assets were seized in 1942 under the Trading with the Enemy Act, has led more than 60 years later to a civil action for damages being brought in Germany against the Bush family by two former slave labourers at Auschwitz and to a hum of pre-election controversy.

The evidence has also prompted one former US Nazi war crimes prosecutor to argue that the late senator's action should have been grounds for prosecution for giving aid and comfort to the enemy.

The debate over Prescott Bush's behaviour has been bubbling under the surface for some time. There has been a steady internet chatter about the "Bush/Nazi" connection, much of it inaccurate and unfair. But the new documents, many of which were only declassified last year, show that

even after America had entered the war and when there was already significant information about the Nazis' plans and policies, he worked for and profited from companies closely involved with the very German businesses that financed Hitler's rise to power. It has also been suggested that the money he made from these dealings helped to establish the Bush family fortune and set up its political dynasty.

Remarkably, little of Bush's dealings with Germany has received public scrutiny, partly because of the secret status of the documentation involving him. But now the multibillion dollar legal action for damages by two Holocaust survivors against the Bush family, and the imminent publication of three books on the subject are threatening to make Prescott Bush's business history an uncomfortable issue for his grandson, George W, as he seeks re-election.

While there is no suggestion that Prescott Bush was sympathetic to the Nazi cause, the documents reveal that the firm he worked for, Brown Brothers Harriman (BBH), acted as a US base for the German industrialist, Fritz Thyssen, who helped finance Hitler in the 1930s before falling out with him at the end of the decade. The Guardian has seen evidence that shows Bush was the director of the New York-based Union Banking Corporation (UBC) that represented Thyssen's US interests and he continued to work for the bank after America entered the war.

Tantalising

Bush was also on the board of at least one of the companies that formed part of a multinational network of front companies to allow Thyssen to move assets around the world.

Thyssen owned the largest steel and coal company in Germany and grew rich from Hitler's efforts to re-arm between the two world wars. One of the pillars in Thyssen's international corporate web, UBC, worked exclusively for, and was owned by, a Thyssen-controlled bank in the Netherlands. More tantalising are Bush's links to the Consolidated

Silesian Steel Company (CSSC), based in mineral rich Silesia on the German-Polish border. During the war, the company made use of Nazi slave labour from the concentration camps, including Auschwitz. The ownership of CSSC changed hands several times in the 1930s, but documents from the US National Archive declassified last year link Bush to CSSC, although it is not clear if he and UBC were still involved in the company when Thyssen's American assets were seized in 1942.

Three sets of archives spell out Prescott Bush's involvement. All three are readily available, thanks to the efficient US archive system and a helpful and dedicated staff at both the Library of Congress in Washington and the National Archives at the University of Maryland.

The first set of files, the Harriman papers in the Library of Congress, show that Prescott Bush was a director and shareholder of a number of companies involved with Thyssen.

The second set of papers, which are in the National Archives, are contained in vesting order number 248 which records the seizure of the company assets. What these files show is that on October 20 1942 the alien property custodian seized the assets of the UBC, of which Prescott Bush was a director. Having gone through the books of the bank, further seizures were made against two affiliates, the Holland-American Trading Corporation and the Seamless Steel Equipment Corporation. By November, the Silesian-American Company, another of Prescott Bush's ventures, had also been seized.

The third set of documents, also at the National Archives, are contained in the files on IG Farben, who was prosecuted for war crimes.

A report issued by the Office of Alien Property Custodian in 1942 stated of the companies that "since 1939, these (steel and mining) properties have been in possession of and have been operated by the German government and have undoubtedly been of considerable assistance to that country's war effort".

Prescott Bush, a 6ft 4in charmer with a rich singing voice, was the founder of the Bush political dynasty and was once considered a potential presidential candidate himself. Like his son, George, and grandson, George W, he went to Yale where he was, again like his descendants, a member of the secretive and influential Skull and Bones student society. He was an artillery captain in the first world war and married Dorothy Walker, the daughter of George Herbert Walker, in 1921.

In 1924, his father-in-law, a well-known St Louis investment banker, helped set him up in business in New York with Averill Harriman, the wealthy son of railroad magnate E H Harriman in New York, who had gone into banking.

One of the first jobs Walker gave Bush was to manage UBC. Bush was a founding member of the bank and the incorporation documents, which list him as one of seven directors, show he owned one share in UBC worth \$125.

The bank was set up by Harriman and Bush's father-in-law to provide a US bank for the Thyssens, Germany's most powerful industrial family.

August Thyssen, the founder of the dynasty had been a major contributor to Germany's first world war effort and in the 1920s, he and his sons Fritz and Heinrich established a network of overseas banks and companies so their assets and money could be whisked offshore if threatened again.

By the time Fritz Thyssen inherited the business empire in 1926, Germany's economic recovery was faltering. After hearing Adolf Hitler speak, Thyssen became mesmerised by the young firebrand. He joined the Nazi party in December 1931 and admits backing Hitler in his autobiography, I Paid Hitler, when the National Socialists were still a radical fringe party. He stepped in several times to bail out the struggling party: in 1928 Thyssen had bought the Barlow Palace on Briennerstrasse, in Munich, which Hitler converted into the Brown

House, the headquarters of the Nazi party. The money came from another Thyssen overseas institution, the Bank voor Handel en Scheepvaart in Rotterdam.

By the late 1930s, Brown Brothers Harriman, which claimed to be the world's largest private investment bank, and UBC had bought and shipped millions of dollars of gold, fuel, steel, coal and US treasury bonds to Germany, both feeding and financing Hitler's build-up to war.

Between 1931 and 1933 UBC bought more than \$8m worth of gold, of which \$3m was shipped abroad. According to documents seen by the Guardian, after UBC was set up it transferred \$2m to BBH accounts and between 1924 and 1940 the assets of UBC hovered around \$3m, dropping to \$1m only on a few occasions.

In 1941, Thyssen fled Germany after falling out with Hitler but he was captured in France and detained for the remainder of the war.

There was nothing illegal in doing business with the Thyssens throughout the 1930s and many of America's best-known business names invested heavily in the German economic recovery. However, everything changed after Germany invaded Poland in 1939. Even then it could be argued that BBH was within its rights continuing business relations with the Thyssens until the end of 1941 as the US was still technically neutral until the attack on Pearl Harbor. The trouble started on July 30 1942 when the New York Herald-Tribune ran an article entitled "Hitler's Angel Has \$3m in US Bank". UBC's huge gold purchases had raised suspicions that the bank was in fact a "secret nest egg" hidden in New York for Thyssen and other Nazi bigwigs. The Alien Property Commission (APC) launched an investigation.

There is no dispute over the fact that the US government seized a string of assets controlled by BBH - including UBC and SAC - in the autumn of 1942 under the Trading with the Enemy act. What is in dispute is if Harriman, Walker and Bush did more than own these companies on paper.

Erwin May, a treasury attache and officer for the department of investigation in the APC, was assigned to look into UBC's business. The first fact to emerge was that Roland Harriman, Prescott Bush and the other directors didn't actually own their shares in UBC but merely held them on behalf of Bank voor Handel. Strangely, no one seemed to know who owned the Rotterdam-based bank, including UBC's president.

May wrote in his report of August 16 1941: "Union Banking Corporation, incorporated August 4 1924, is wholly owned by the Bank voor Handel en Scheepvaart N.V of Rotterdam, the Netherlands. My investigation has produced no evidence as to the ownership of the Dutch bank. Mr Cornelis [sic] Lievense, president of UBC, claims no knowledge as to the ownership of the Bank voor Handel but believes it possible that Baron Heinrich Thyssen, brother of Fritz Thyssen, may own a substantial interest."

May cleared the bank of holding a golden nest egg for the Nazi leaders but went on to describe a network of companies spreading out from UBC across Europe, America and Canada, and how money from voor Handel travelled to these companies through UBC.

By September May had traced the origins of the non-American board members and found that Dutchman HJ Kouwenhoven - who met with Harriman in 1924 to set up UBC - had several other jobs: in addition to being the managing director of voor Handel he was also the director of the August Thyssen bank in Berlin and a director of Fritz Thyssen's Union Steel Works, the holding company that controlled Thyssen's steel and coal mine empire in Germany.

Within a few weeks, Homer Jones, the chief of the APC investigation and research division sent a memo to the executive committee of APC recommending the US government vest UBC and its assets. Jones named the directors of the bank in the memo, including Prescott Bush's name, and wrote: "Said stock is held by the above named individuals, however, solely as nominees for the Bank voor Handel, Rotterdam, Holland, which is owned by one or more of the Thyssen family,

nationals of Germany and Hungary. The 4,000 shares hereinbefore set out are therefore beneficially owned and held for the interests of enemy nationals, and are vestible by the APC," according to the memo from the National Archives seen by the Guardian.

Red-handed

Jones recommended that the assets be liquidated for the benefit of the government, but instead UBC was maintained intact and eventually returned to the American shareholders after the war. Some claim that Bush sold his share in UBC after the war for \$1.5m - a huge amount of money at the time - but there is no documentary evidence to support this claim. No further action was ever taken nor was the investigation continued, despite the fact UBC was caught red-handed operating a American shell company for the Thyssen family eight months after America had entered the war and that this was the bank that had partly financed Hitler's rise to power.

The most tantalising part of the story remains shrouded in mystery: the connection, if any, between Prescott Bush, Thyssen, Consolidated Silesian Steel Company (CSSC) and Auschwitz.

Thyssen's partner in United Steel Works, which had coal mines and steel plants across the region, was Friedrich Flick, another steel magnate who also owned part of IG Farben, the powerful German chemical company.

Flick's plants in Poland made heavy use of slave labour from the concentration camps in Poland. According to a New York Times article published in March 18 1934 Flick owned two-thirds of CSSC while "American interests" held the rest.

The US National Archive documents show that BBH's involvement with CSSC was more than simply holding the shares in the mid-1930s. Bush's friend and fellow "bonesman" Knight Woolley, another partner at BBH, wrote to Averill Harriman in January 1933 warning of problems with CSSC after the Poles started their drive to nationalise the plant. "The

Consolidated Silesian Steel Company situation has become increasingly complicated, and I have accordingly brought in Sullivan and Cromwell, in order to be sure that our interests are protected," wrote Knight. "After studying the situation Foster Dulles is insisting that their man in Berlin get into the picture and obtain the information which the directors here should have. You will recall that Foster is a director and he is particularly anxious to be certain that there is no liability attaching to the American directors."

But the ownership of the CSSC between 1939 when the Germans invaded Poland and 1942 when the US government vested UBC and SAC is not clear.

"SAC held coal mines and definitely owned CSSC between 1934 and 1935, but when SAC was vested there was no trace of CSSC. All concrete evidence of its ownership disappears after 1935 and there are only a few traces in 1938 and 1939," says Eva Schweitzer, the journalist and author whose book, *America and the Holocaust*, is published next month.

Silesia was quickly made part of the German Reich after the invasion, but while Polish factories were seized by the Nazis, those belonging to the still neutral Americans (and some other nationals) were treated more carefully as Hitler was still hoping to persuade the US to at least sit out the war as a neutral country. Schweitzer says American interests were dealt with on a case-by-case basis. The Nazis bought some out, but not others.

The two Holocaust survivors suing the US government and the Bush family for a total of \$40bn in compensation claim both materially benefited from Auschwitz slave labour during the second world war.

Kurt Julius Goldstein, 87, and Peter Gingold, 85, began a class action in America in 2001, but the case was thrown out by Judge Rosemary Collier on the grounds that the government cannot be held liable under the principle of "state sovereignty".

Jan Lissmann, one of the lawyers for the survivors, said: "President Bush withdrew President Bill Clinton's signature from the treaty [that founded the court] not only to protect Americans, but also to protect himself and his family."

Lissmann argues that genocide-related cases are covered by international law, which does hold governments accountable for their actions. He claims the ruling was invalid as no hearing took place.

In their claims, Mr Goldstein and Mr Gingold, honorary chairman of the League of Anti-fascists, suggest the Americans were aware of what was happening at Auschwitz and should have bombed the camp.

The lawyers also filed a motion in The Hague asking for an opinion on whether state sovereignty is a valid reason for refusing to hear their case. A ruling is expected within a month.

The petition to The Hague states: "From April 1944 on, the American Air Force could have destroyed the camp with air raids, as well as the railway bridges and railway lines from Hungary to Auschwitz. The murder of about 400,000 Hungarian Holocaust victims could have been prevented."

The case is built around a January 22 1944 executive order signed by President Franklin Roosevelt calling on the government to take all measures to rescue the European Jews. The lawyers claim the order was ignored because of pressure brought by a group of big American companies, including BBH, where Prescott Bush was a director.

Lissmann said: "If we have a positive ruling from the court it will cause [president] Bush huge problems and make him personally liable to pay compensation."

The US government and the Bush family deny all the claims against them.

In addition to Eva Schweitzer's book, two other books are about to be published that raise the subject of Prescott Bush's business history. The author of the second book, to be published next year, John Loftus, is a former US attorney who prosecuted Nazi war criminals in the 70s. Now living in St Petersburg, Florida and earning his living as a security commentator for Fox News and ABC radio, Loftus is working on a novel which uses some of the material he has uncovered on Bush. Loftus stressed that what Prescott Bush was involved in was just what many other American and British businessmen were doing at the time.

"You can't blame Bush for what his grandfather did any more than you can blame Jack Kennedy for what his father did - bought Nazi stocks - but what is important is the cover-up, how it could have gone on so successfully for half a century, and does that have implications for us today?" he said.

"This was the mechanism by which Hitler was funded to come to power, this was the mechanism by which the Third Reich's defence industry was re-armed, this was the mechanism by which Nazi profits were repatriated back to the American owners, this was the mechanism by which investigations into the financial laundering of the Third Reich were blunted," said Loftus, who is vice-chairman of the Holocaust Museum in St Petersburg.

"The Union Banking Corporation was a holding company for the Nazis, for Fritz Thyssen," said Loftus. "At various times, the Bush family has tried to spin it, saying they were owned by a Dutch bank and it wasn't until the Nazis took over Holland that they realised that now the Nazis controlled the apparent company and that is why the Bush supporters claim when the war was over they got their money back. Both the American treasury investigations and the intelligence investigations in Europe completely bely that, it's absolute horseshit. They always knew who the ultimate beneficiaries were."

"There is no one left alive who could be prosecuted but they did get away with it," said Loftus. "As a former federal prosecutor, I would

make a case for Prescott Bush, his father-in-law (George Walker) and Averill Harriman [to be prosecuted] for giving aid and comfort to the enemy. They remained on the boards of these companies knowing that they were of financial benefit to the nation of Germany."

Loftus said Prescott Bush must have been aware of what was happening in Germany at the time. "My take on him was that he was a not terribly successful in-law who did what Herbert Walker told him to. Walker and Harriman were the two evil geniuses, they didn't care about the Nazis any more than they cared about their investments with the Bolsheviks."

What is also at issue is how much money Bush made from his involvement. His supporters suggest that he had one token share. Loftus disputes this, citing sources in "the banking and intelligence communities" and suggesting that the Bush family, through George Herbert Walker and Prescott, got \$1.5m out of the involvement. There is, however, no paper trail to this sum.

The third person going into print on the subject is John Buchanan, 54, a Miami-based magazine journalist who started examining the files while working on a screenplay. Last year, Buchanan published his findings in the venerable but small-circulation New Hampshire Gazette under the headline "Documents in National Archives Prove George Bush's Grandfather Traded With the Nazis - Even After Pearl Harbor". He expands on this in his book to be published next month - *Fixing America: Breaking the Stranglehold of Corporate Rule, Big Media and the Religious Right*.

In the article, Buchanan, who has worked mainly in the trade and music press with a spell as a muckraking reporter in Miami, claimed that "the essential facts have appeared on the internet and in relatively obscure books but were dismissed by the media and Bush family as undocumented diatribes".

Buchanan suffers from hypermania, a form of manic depression, and when he found himself rebuffed in his initial efforts to interest the

media, he responded with a series of threats against the journalists and media outlets that had spurned him. The threats, contained in e-mails, suggested that he would expose the journalists as "traitors to the truth".

Unsurprisingly, he soon had difficulty getting his calls returned. Most seriously, he faced aggravated stalking charges in Miami, in connection with a man with whom he had fallen out over the best way to publicise his findings. The charges were dropped last month.

Biography

Buchanan said he regretted his behaviour had damaged his credibility but his main aim was to secure publicity for the story. Both Loftus and Schweitzer say Buchanan has come up with previously undisclosed documentation.

The Bush family have largely responded with no comment to any reference to Prescott Bush. Brown Brothers Harriman also declined to comment.

The Bush family recently approved a flattering biography of Prescott Bush entitled *Duty, Honour, Country* by Mickey Herskowitz. The publishers, Rutledge Hill Press, promised the book would "deal honestly with Prescott Bush's alleged business relationships with Nazi industrialists and other accusations".

In fact, the allegations are dealt with in less than two pages. The book refers to the Herald-Tribune story by saying that "a person of less established ethics would have panicked ... Bush and his partners at Brown Brothers Harriman informed the government regulators that the account, opened in the late 1930s, was 'an unpaid courtesy for a client' ... Prescott Bush acted quickly and openly on behalf of the firm, served well by a reputation that had never been compromised. He made available all records and all documents. Viewed six decades later in the era of serial corporate scandals and shattered careers, he received what can be viewed as the ultimate clean bill."

The Prescott Bush story has been condemned by both conservatives and some liberals as having nothing to do with the current president. It has also been suggested that Prescott Bush had little to do with Averill Harriman and that the two men opposed each other politically.

However, documents from the Harriman papers include a flattering wartime profile of Harriman in the New York Journal American and next to it in the files is a letter to the financial editor of that paper from Prescott Bush congratulating the paper for running the profile. He added that Harriman's "performance and his whole attitude has been a source of inspiration and pride to his partners and his friends".

The Anti-Defamation League in the US is supportive of Prescott Bush and the Bush family. In a statement last year they said that "rumours about the alleged Nazi 'ties' of the late Prescott Bush ... have circulated widely through the internet in recent years. These charges are untenable and politically motivated ... Prescott Bush was neither a Nazi nor a Nazi sympathiser."

However, one of the country's oldest Jewish publications, the Jewish Advocate, has aired the controversy in detail.

More than 60 years after Prescott Bush came briefly under scrutiny at the time of a faraway war, his grandson is facing a different kind of scrutiny but one underpinned by the same perception that, for some people, war can be a profitable business

Chart 1 reveals the linear connection between the [Rothschilds](#) and the **Bank of England**, and the London banking houses which ultimately control the *Federal Reserve Banks* through their stockholdings of bank stock and their subsidiary firms in New York. The two principal Rothschild representatives in New York, **J. P. Morgan Co.**, and **Kuhn, Loeb & Co.** were the firms which set up the Jekyll Island Conference at which the Federal Reserve Act was drafted, who directed the subsequent successful campaign to have the plan enacted into law by Congress, and who purchased the controlling amounts of stock in the Federal Reserve Bank of New York in 1914.

These firms had their principal officers appointed to the Federal Reserve Board of Governors and the Federal Advisory Council in 1914. In 1914 **a few families** (*blood or business related*) owning controlling stock in existing banks (such as in New York City) caused those banks to purchase controlling shares in the **Federal Reserve** regional banks. Examination of the charts and text in the House Banking Committee Staff Report of August, 1976 and the current stockholders list of the 12 regional Federal Reserve Banks show this same **family control**.

The [J. The head of the Bank of England since 1973, **Sir Gordon Richardson**, Governor of the Bank of England (controlled by the House of Rothschild) was chairman of *J. Within the CIA there is an almost separate CIA unit.

It is sometimes referred to as Rouge CIA. It is perceived that George H W Bush was and still is a key player within that group and he has surrounded himself with lots of “Bonesmen” (People from the secret Society Skull & Bones from Yale). This Rouge CIA group is very tied up with the Hard liner elements within the “System” and maybe even one of the driving forces. They are the people involved in financing & organizing adventures like the “Bay of pigs” (Cuba), the killing of John F Kennedy & the pushing out of M1 etc.

Groups have had personal talks with very top level CIA operatives who openly admit to these groups involvement in such operations. This rouge group is uncontrollable within the normal CIA. The structural part of CIA prefers to not have any relation with them in any shape or form due to their dark agenda.

Some hints of how tied up George H.W. Bush personally is can be found by looking at the failed attempt to invade Cuba using Cuban exiles. This Cuban CIA mission was called “Zapata, two of the support vessels involved were named “Houston” and “Barbara” (Barbara being what George Bush named all his aircraft during his service in WWII). At this time Bush were the Chairman & Director of a company called Zapata Offshore Oil, headquarter in Houston Texas, and supposedly not part of the CIA yet. Later it has come forth from more than one reliable source that Zapata Oil from the start was a cover for top secret rouge CIA operations. These were also the years that George H.W. Bush was very active on the South East Asian scene travelling all around Indonesia, Vietnam & the Philippines.

Other indications that G.H.W. Bush was an active CIA agent in those early years is that a week after the killing of JFK, a FBI agent on record reported to a CIA agent named George Bush together with a Captain William Edwards of the Defense Intelligence Agency on possible Cuban exiles involvement in this calamitous affair. The problem for CIA is George Bush was not even supposedly employed by them yet (officially). The CIA has tried to cover this mishap up by claiming it was another CIA operative by that name who was briefed. That G.B. on the other hand has under oath stated that was never the fact. He was only a low level research and analyst clerk never close to any such action ever.
